The Basics

How to Use This Guide

Welcome to the world of *Dragon Age: Origins - Awakening* !

Our job is to keep you alive and to maximise your playing experience, so with that in mind, we're going to run through the basics in this chapter. Master the essentil concepts and ground rules first, then add layers of strategy and tactics to your favourite class and the world will be safe from darkspawn until the last Grey Warden takes his final breath.

Note

Stop! We know you're anxious to dive right into tips and hints on gameplay, but you should really read your game manual first. THe manual proviides a great introduction to the basics. Come back here when you understand the game controls, user interface, menu options, etc. We won't go anywhere.

Dragon Age, Origins is back with a vengeance, and that vengeance taps into the darkspawn's renewed strength as they rise up to threaten the Grey Wardens' new foothold on the land. With an expansion this vast, you need a guide that's fat with advice, stats, maps and expert tips to master your new Amanthine adventures. Look no farther - you've found it all here...

Basics

Learn how to navigate Amaranthine and the surrounding lands. Explore important game terms such as experience points, levelling, races, classes, skills, talents and more. Suit up for combat with some fundamental strategy and tips, and study up on how to best spend your points during character generation.

Classes

A Grey Warden can train in the talents of a warrior or a rogue, or tap into the spells of a mage. All three can decimate darkspawn; it's just about whether you want to have fun smashing hurlocks with sword and shield, slashing out of the shadows with twin daggers, or torching possessed corpses with fireballs. Master all three with our special levelling class guides that include specs on a tank, melee DPS, ranged DPS, healer, mage DPS, scout and more.

The Party

Chaotic free-for-alls will see you to an early grave. We show you the dos and don'ts of party combat, and the best engagement strategies for solo creatures, big mobs, boss fights and ambushes. Comb through this chapter and you'll master group dynamics, threat, combat roles, engagement strategies and tactics, among many other things.

Companions

Get into the minds of your trusted companions, learning what secrets they can teach you. Find out how to unlock them all for your party and how to make each the ultimate combatant. Companions covered include: Anders (mage), Justice (warrior), Mhairi (warrior), Nathaniel Howe (rogue), Sigrun (rogue), Velanna (mage), and one faithful companion from *Dragon Age: Origins*

Supporting Cast

Who is the Architect? Can the Dark Wolf thwart a plot on your life? How deep is the baroness's cruelty?The lands of Amaranthine aren't just about you and your companions; hundreds of lively non-playing characters (NPCs) interact with you and shape this new region. This chapter takes a peak at the most important faces around the land.

Equipment

Gear up with complete specs on all the new *Awakening* weapons, armor, accessories, gifts, runes, crafting and usable items, and more.

The Bestiary

Dragons, genlocks, hurlocks, ogres and more return from *Dragon Age: Origins* . Uncover all the secrets of returning denizens, plus all the new *Awakening* creatures, in our complete Bestiary chapter.

Walkthroughs

Everything you wanted to know about your Grey Warden quests is here, including super-detailed maps, runthroughs of every major encounter, boss strategies, treasure locations and even where to find the resources to build Vigil's Keep into a massive fortress.

Side Quests

To score some extra loot or uncover more of *Awakening's* secrets, seek out the side quests spread across the land from Vigil's Keep to the Dragonbone Waters. This chapter preps you on quest locations, destinations, rewards and a quick walkthrough of how to complete each quest.

Random Encouters

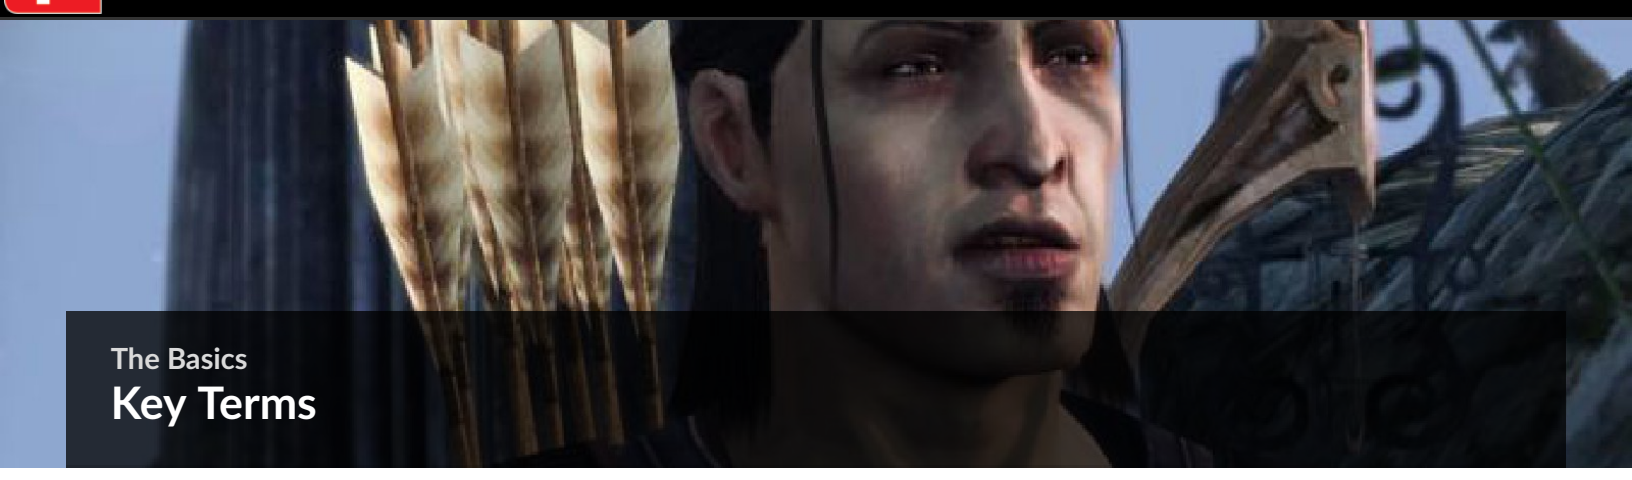
Travelling across the countryside isn't always a stroll in the park. You may encounter bandits, blood mages or even fen witches. Our handy random encounter runthrough lists all the encounters, triggers, important plotpoints and strategy tips on how to come out on top.

Achievements & Trophies

Who doesn't have fun collecting titles? Get the scoop on the storyline unlocks, plus what you have to do to master the eight new *Awakening* Achievements/Trophies.

Caution

If you haven't played through *Dragon Age: Origins* , you may want to return to the land of Ferelden and play through the whole original story, or many elements will be spoiled for you should you ever wish to return there. Many plot points and story secrets may be revealed in these chapters while explaining strategy and tips for the game. Please read carefully and look for Spoiler Alerts if you want to avoid learning key turning points in the story.



The Basics

Key Terms

Here are some of the key terms that the game and this guide will use while discussing various play styles and tactics. Familiarize yourself with these so you're up on the lingo.

AoE: "Area of Effect." A talent or spell that affects a radius, not just a single target. AoE spells and attacks damage multiple targets at once and can help greatly against large groups of enemies. Keep in mind that you may hit multiple targets, but you also may draw additional threat and possibly nullify existing effects on the targeted enemies.

Armor Stat: Reduces damage done to a character from physical attacks. A weapon's armor penetration score directly counteracts the opponent's armor rating.

Attack Stat: Increases the likelihood of successfully landing physical attacks.

Buff: A talent or spell that delivers a positive effect for a prolonged time.

Camp : To remain in one spot in order to kill a specific NPC or monster, or trigger a certain event.

Cold Resistance: Measures resistance or vulnerability to cold-based attacks against the character. Cold damage is reduced (if green) or increased (if red) by this percentage.

Constitution: Constitution represents health and resilience. Higher constitution directly increases the amount of damage a character can take before falling on the battlefield.

Crit: Short for "critical chance" or "critical strike chance."

Cunning: Cunning determines how well a character learns and reasons. Most skills, such as Survival or Combat Tactics, require a quick mind to master—and an observant eye can more easily find weaknesses in enemy armor. Rogues benefit most from this statistic, as many of their class talents and special attacks rely on subtlety or reading the target, not raw strength.

Damage Stat: The equipped weapon's potential damage against an unarmored opponent, adjusted for the speed of the weapon.

Debuff: A skill or ability that delivers a negative effect for a prolonged time.

Defense Stat: Increases the chance of dodging or parrying physical attacks.

Dexterity: Dexterity is the measure of agility, reflexes, and balance. Higher dexterity improves a character's chances to hit, makes the character more likely to dodge incoming blows, and contributes to the damage dealt by piercing weapons such as bows or crossbows. Archery and dual-weapon fighting styles demand high dexterity to master, making this attribute a favorite for rogues.

DLC: Abbreviation for "downloadable content."

DoT: "Damage over time." Talents or spells that deal initial damage and then additional damage every few seconds for a set amount of time.

DPS: "Damage per second." A stat that factors in the speed and power of a weapon to gauge its average damage every second. DPS is also used as a generic reference to damage and dealing damage.

DPSer: A character whose primary role in the group is to deal damage.

Electrical Resistance: Measures resistance or vulnerability to electricity-based attacks against the character. Electrical damage is reduced (if green) or increased (if red) by this percentage.

Fatigue: Wearing armor causes fatigue, which is a percentage increase of the basic mana or stamina cost to activate a spell or talent.

Follower: A companion who travels with you on your quests. There can only be four people in your party at one time: the main (player) character, plus three followers. The rest stay back at party camp and level as you level.

Fire Resistance: Measures resistance or vulnerability to fire-based attacks against the character. Fire damage is reduced (if green) or increased (if red) by this percentage.

Health: How much damage a character can sustain without falling in battle. A character whose health is completely depleted may sustain an injury.

Injuries: When one of your party members has fallen in combat, he or she may sustain a serious injury. These injuries cause penalties that can only be cured with an injury kit, certain high-level spells, or returning to camp.

Loot: Another term for treasure or rewards.

Magic: In the general sense, it's energies beyond the material world. In a stat sense, magic is the measure of a character's natural affinity for the arcane. This attribute is crucial for mages, because it directly increases a character's spellpower score, which determines the potency of all spells. The magic attribute also determines how effective potions, poultices, and salves are for all classes.

Mana: Magical energy consumed when casting spells.

Mental Resistance: Measures the character's ability to resist mental effects such as a sleep spell.

Mob: An enemy or group of enemies.

Nature Resistance: Measures resistance or vulnerablity to nature-based attacks against the character (such as poisoning). Nature damage is reduced (if green) or increased (if red) by this percentage.

NPC: "Non-player Character." Any character in the game not in your party.

Party: A group of characters who adventure together, limited to four. You can always return toparty camp to recruit other followers.

PC: Abbreviation for "Player Character."

Physical Resistance: Measures the character's ability to resist physical effects such as being knocked down.

Pull: To draw an enemy toward ypu, usually to avoid engaing other enemies as well.

Root: To freeze an enemy in place with a special talent or spell

Spawn Point: A spot where the game generates a mob.

Spirit Resistance: Measures resistance or vulnerability to spirit-based attacks against the character. Spirit damage is reduced (if green), or increased (if red) by this percentage.

Stamina: Physical energy consumed when using talents or skills.

Stength: Stength measures a character's physical prowess, and directly affects the damage a character deals in physical combat. It also contributes to the accuracy of melee attacks. High strength is essential for warriors, in particular if they wish to wield two-handed weapons, and is nearly as critical for rogues.

Tank: A character who draws threat well and holds a mob's attention. An "off-tank" is a secondary character who holds the attention of the second strongest mob. Warriors generally tank the best, especially with their "Weapon and Shield" talent tree.

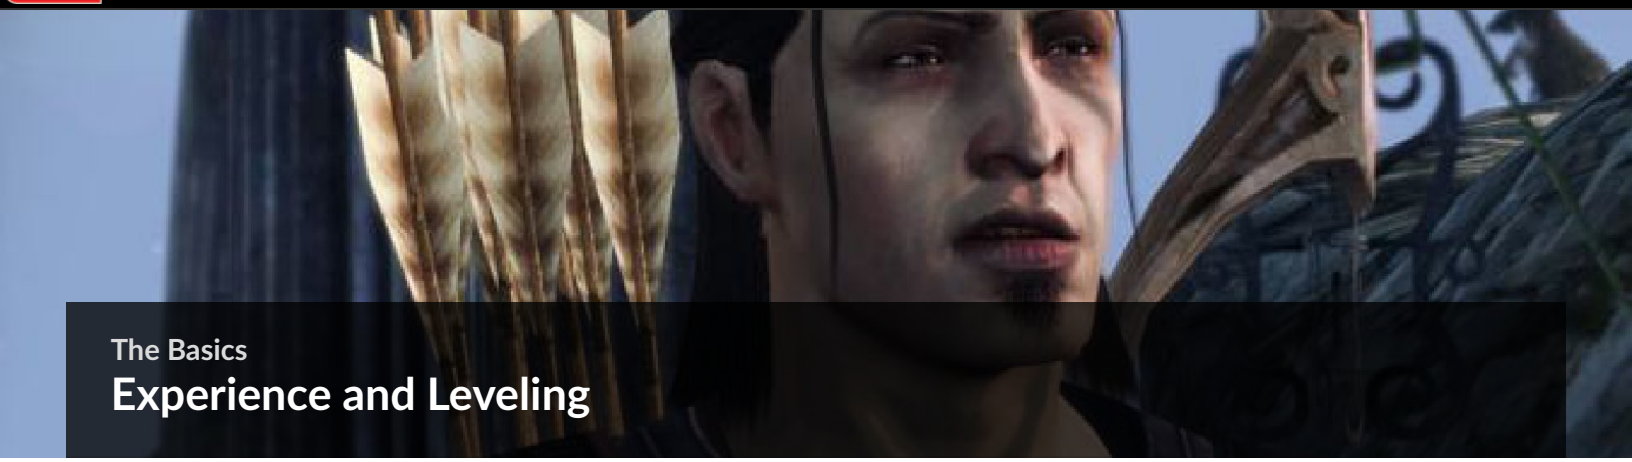
Taunt: To enrage a mob so that it focuses its threat and attention on you.

Threat: Sometimes referred to as "aggro" or the "aggression" of a mob. The game ranks threat based on your actions, generally revolving around the amount of damage or healing you do. The more threat you generate, the greater the chance that a monster will attack you.

Willpower: Willpower represents a character's determination and mental fortitude. With high willpower, mages can cast more spells thanks to a deeper mana pool. For warriors and rogues, willpower grants more stamina for combat techniques and special attacks.

Wipe: A term for the death of everyone in the party.

XP: Stands for "experience points."Experience marks your progress as you level up in your class.



The Basics

Experience and Leveling

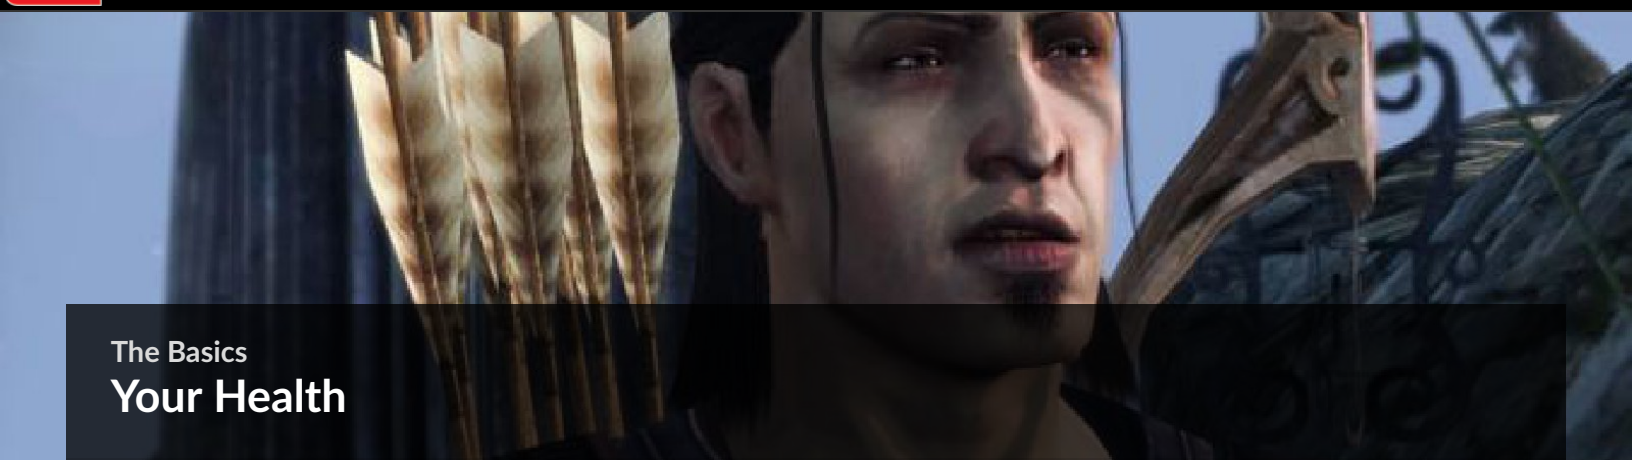
Everyone loves to level. The thrill of watching your warrior, mage, or rogue gain levels and earn new skills comes second only to slaying darkspawn in a heroic last stand.

Your companions also gain experience (XP) at roughly the same rate that you do. Don't worry about the companions you leave back at Vigil's Keep; they progress at the same rate as the rest of your party. If you leave Anders home at level 8, travel around on a few adventures, and return at level 12, he won't still be stuck at level 8. He will most likely be level 12, or close to it.

Each class gains levels at the same rate and gains the same points to spend, although each class will spend those points very differently.

For every level you gain, you gain three attribute points and one talent point.

Mages and warriors get one skill point every three levels, while rogues get a skill point every two levels. You gain specialization points at levels 7, 14, and 22. Points are precious, so spend them wisely.



The Basics

Your Health

Obviously, staying alive is your first priority whenever you're out adventuring.
Those with high constitution scores will have more health, and thus take a lot more hits before perishing.

Warriors generally want high health to stay on their feet, despite being the punching bags for enemies.

Rogues may have high health, depending on how much they like to mix it up in combat.

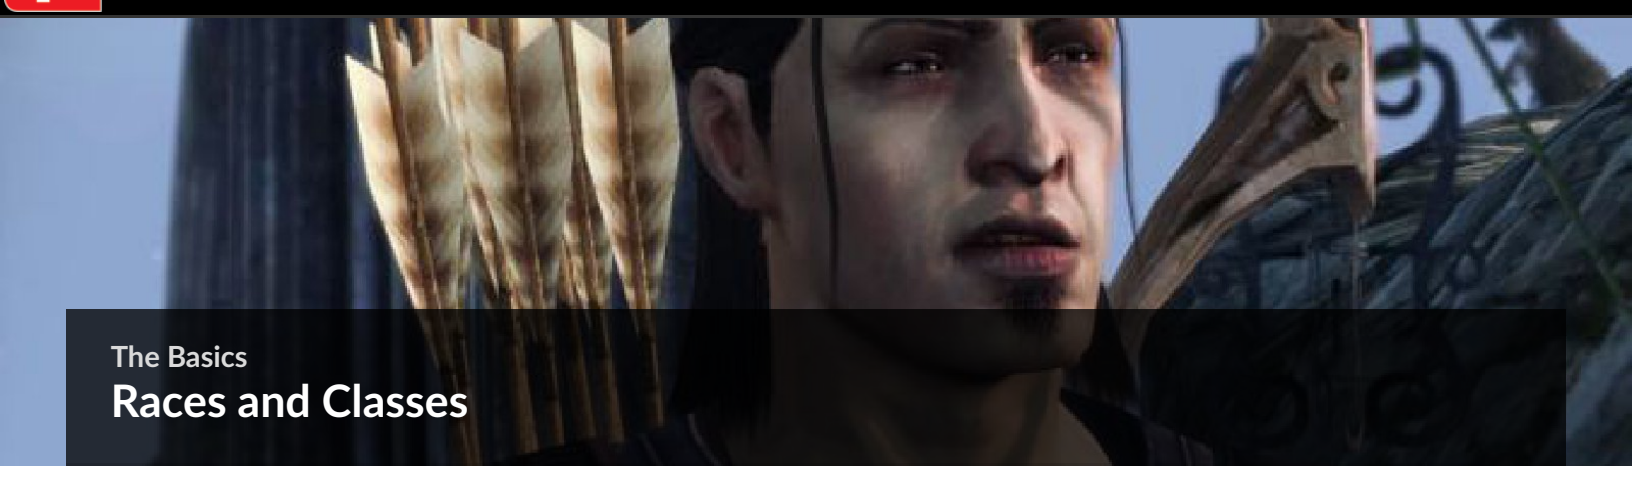
Mages usually concentrate on less-physical attributes and may be more fragile in the midst of swinging swords and smashing clubs.

Your best ally against loss of health is a healer. A simple Heal spell can do wonders, and Group Heal keeps everyone up in a fight. Health poultices serve the same purpose. Judge how much damage you've taken and use the appropriate level poultice: lesser if your health is still above 50 percent, regular if your health dips below 50 percent, and greater when you're knocking on death's door.

If you do drop in battle, you won't lose the game unless all your party members fall as well. In a fight where you fall, but your allies manage to win the day, you will climb back to your feet after the battle. Check this character for wounds. A persistent injury penalizes you according to the following chart:

Injuries

Injury Name	Penalty To
Bleeding Health	Regeneration
Broken Bone	Dexterity
Concussion	Magic
Coughing Blood	Fatigue
Cracked Skull	Cunning
Crushed Arm	Damage
Damaged Eye	Attack
Deafened	Defense
Gaping Wound	Maximum Health
Head Trauma	Willpower
Open Wound	Nature Resistance
Torn Jugular	Constitution
Wrenched Limb	Attack Speed

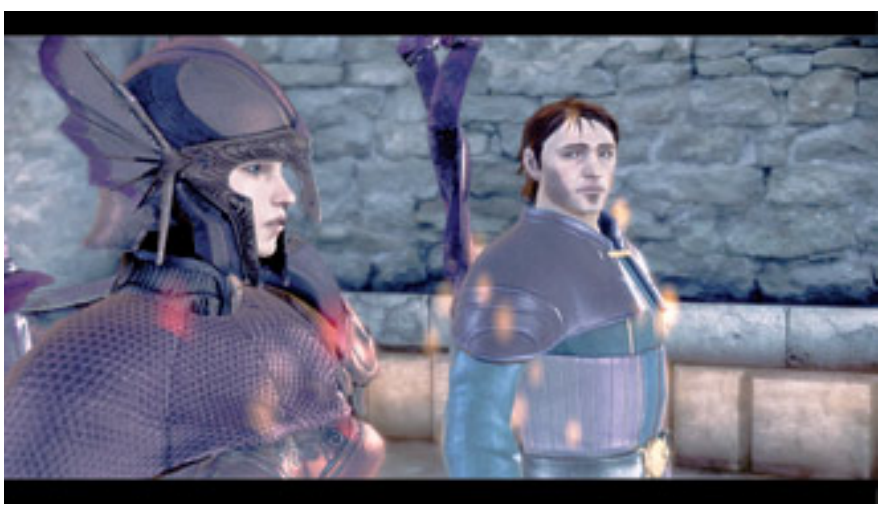


The Basics

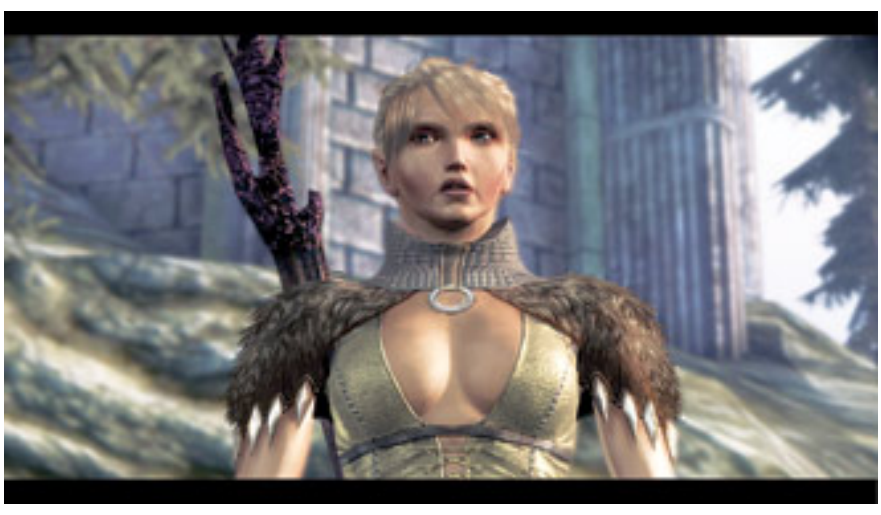
Races and Classes

During character creation, you will choose a race and class, unless you decide to transfer a character over from Dragon Age: Origins. Not only do race and class give different bonuses to different stats, but they may affect how certain characters in the game interact with you. Here are brief descriptions of the three races and classes.

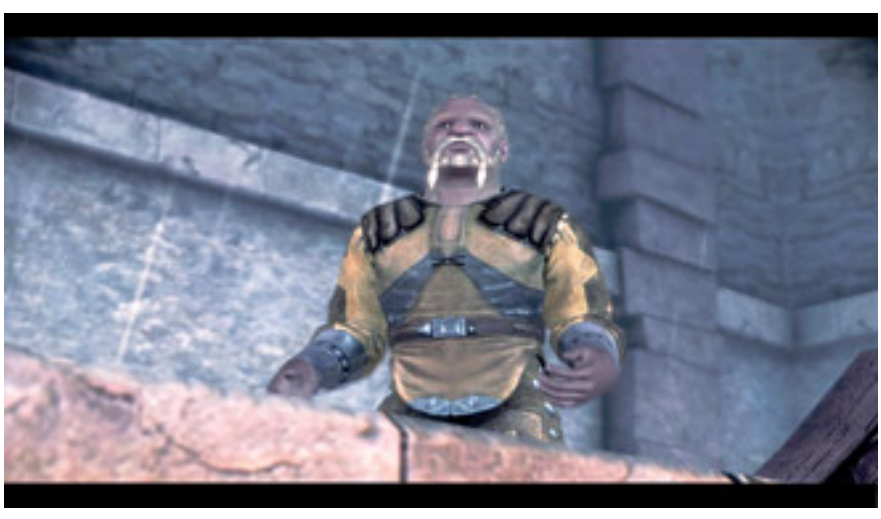
Races



Human: The most numerous, yet the most divided of all the races. Only four times have they ever united under a single cause, the last being centuries ago. Religion and the Chantry play a large part in human society. It distinguishes them culturally from elves and dwarves more than anything else. Humans can be warriors, rogues, or mages.



Elf: Once enslaved by humans, most elves have all but lost their culture, scrounging an impoverished living in the slums of human cities. Only the nomadic Dalish tribes still cling to their traditions, living by the bow and the rule of their old gods as they roam the ancient forests, welcome nowhere else. Elves can be warriors, rogues, or mages.



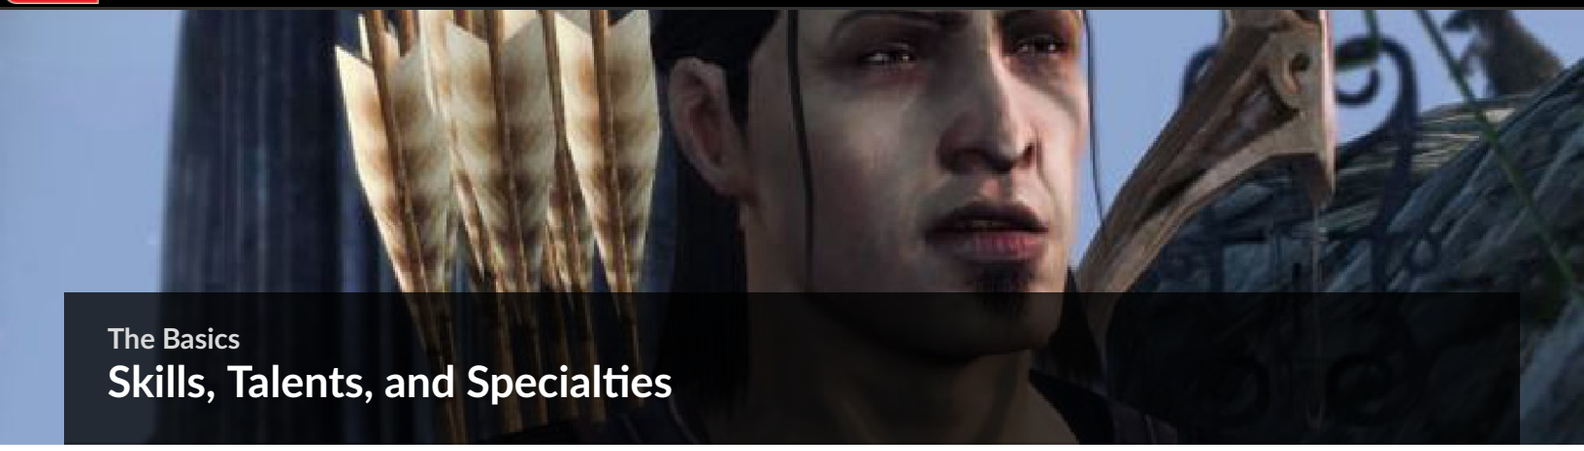
Dwarf: Rigidly bound by caste and tradition, the dwarves have been waging a losing war for generations, trying to protect the last stronghold of their once-vast underground empire from the darkspawn. Dwarves are very tough and have a high resistance to all forms of magic, thus preventing them from becoming mages. As such, dwarves can only be warriors or rogues.

Classes

Warrior: Warriors are powerful fighters, focusing on melee and ranged weapons to deal with their foes. They can withstand and deliver a great deal of punishment, and have a strong understanding of tactics and strategy.

Mage: As dangerous as it is potent, magic is a curse for those lacking the will to wield it. Malevolent spirits that wish to enter the world of the living are drawn to mages like beacons, putting the mage and everyone nearby in constant danger. Because of this, mages lead lives of isolation, locked away from the world they threaten.

Rogue: Rogues are skilled adven turers who come from all walks of life. All rogues possess some skill in picking locks and spotting traps, making them valuable assets to any party. Tactically, they are not ideal front-line fighters, but if rogues can circle around behind their target, they can backstab to devastating effect.



The Basics

Skills, Talents, and Specialties

Besides attributes, your skills, talents or spells, and specializations define who you are and how effective you'll be in combat. Each level you get more powerful as you add points in these areas. For more specifics on skills, talents, and specializations, see the Classes chapter.

Skills

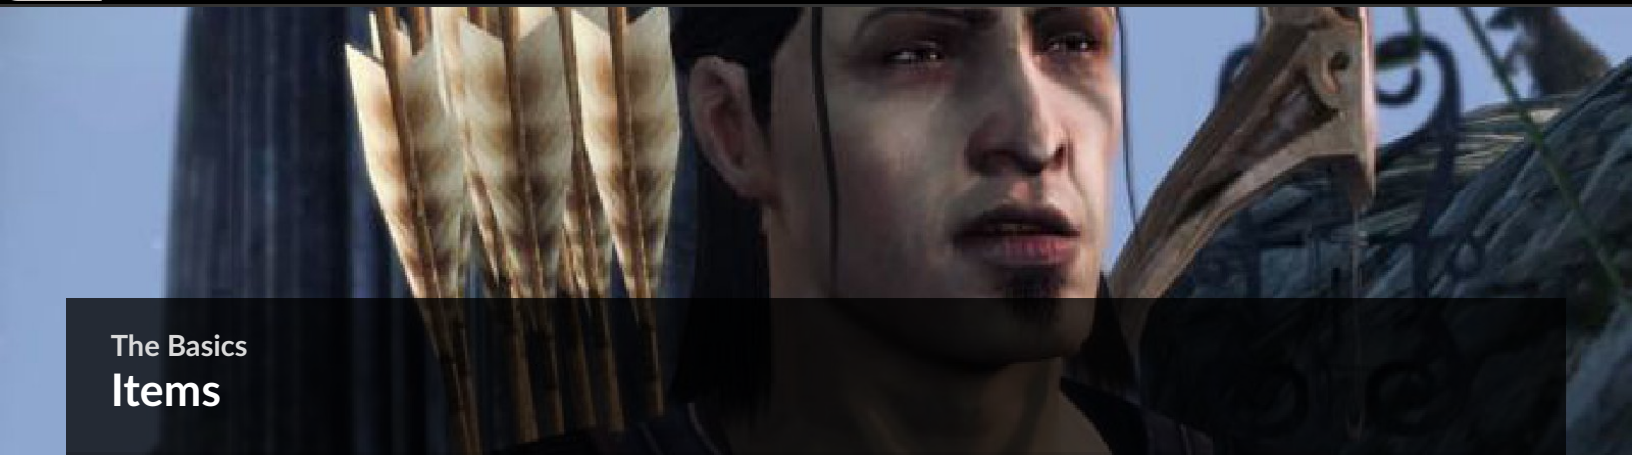
All three classes share the same skill tree, which includes the following: Coercion, Stealing, Trap-Making, Survival, Herbalism, Poison-Making, Combat Training, Combat Tactics, Runecrafting, Vitality, and Clarity. Whether you want to focus on persuading others, detecting enemies, crafting health potions, or learning combat tricks, among other things, you gain skill points every three levels (or one every two levels if you're a rogue) to explore the skill tree. Because you can fill out only two to three skills, put some serious thought into which ones you want to master.

Talents and Spells

Talents are specific to warriors and rogues; mages learn spells. You can't take everything, so choose talents/spells that fit into your play style. For example, a warrior can dual-wield weapons, fight with weapon and shield, rely on a two-handed weapon, or strike at range with bow and arrows. All talents don't complement each other; choose a path and stick with it to unlock the better talents/spells at higher levels. Talents require stamina, while spells cost mana. Keeping some sustained talents or spells active ties up a certain amount of stamina/mana, which could prevent a character from using other abilities when starting a new encounter. Keep an eye on your stamina/mana levels before and during combat.

Specializations

You unlock your first specialization at level 7, your second at level 14, and your third at level 22. Specializations give an array of attribute bonuses and open up unique talent chains. They are very powerful abilities in the right situation. Specializations for a warrior include Berserker, Templar, Champion, Reaver, Spirit Warrior, and Guardian. Mage specializations include Spirit Healer, Shapeshifter, Arcane Warrior, Blood Mage, Keeper, and Battlemage. Rogue specializations are Ranger, Bard, Duelist, Assassin, Legionnaire Scout, and Shadow.

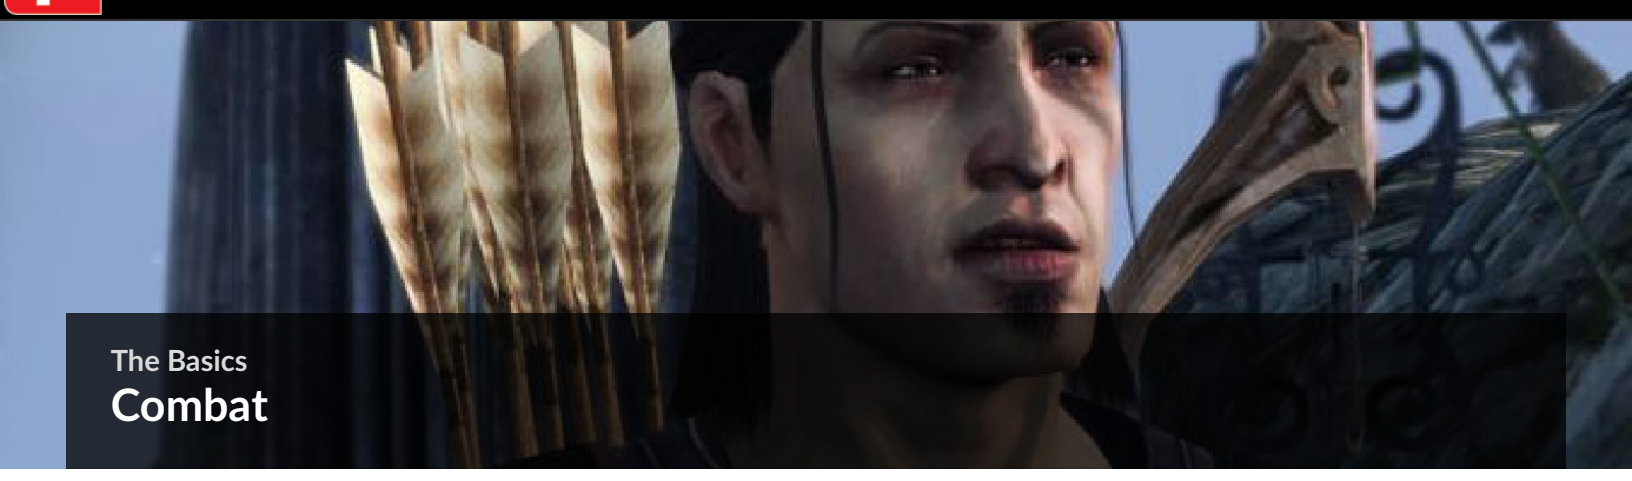


The Basics

Items

Gear can be just as important as your abilities. The proper items can vault you from normal soldier to tweaked-out death-dealer.

Make sure items go to the appropriate party member, depending on his or her role. Equip a warrior focusing in the Weapon and Shield talent train with the best set of armor, while the warrior focused in Archery takes the next best set.



The Basics
Combat

Parties work the best when you know the strengths, and limitations, of each class and plan your battle strategies accordingly. Each class falls into one of these general categories: tank (warrior), DPS (rogue, mage, warrior), and healer (mage). As the name implies, a tank's job is to draw fire and take as much damage as possible to protect everyone else.

This job is executed right at the front lines of a battle and generally never shifts from that location. Tanks have talents that force enemies to attack them for a short time and high damage potential to keep the threat on them instead of their companions. Warriors make the best tanks.

The second category, DPS (or damage), is divided into two subcategories: ranged and melee. Ranged DPS characters do lots of damage, and as a result, generate large amounts of threat and will die very quickly when their ranged advantage is lost and there's no tank protection nearby. Ideally a ranged DPS character should stay in the back of a battle and let the tanks and melee DPS protect them.

On the other hand, a melee DPS character is usually more durable and can try to let the tanks take the hits while they kill off enemies directly. Rogues make great DPS characters, as do mages focusing on damage and area-effect spells. Though you generally need one warrior to be a tank, a warrior studying the art of two-handed weapons can deal major DPS.

The third category, the healer, is a key support role in any group. Your job as a healer is to keep everyone alive. For a healer to be successful, they need to stay as far away from the enemies as possible and avoid getting hit. A healer who can do this, while keeping his fellow companions healthy, is one of the most effective members of a group.

Just watch your mana and always keep lyrium potions available in case you need to gain extra mana for a crucial healing spell. Mages concen- trating on Creation magic prove to be strong healers.

Mobs

Mobs are the monsters and people you fight to complete quests and gain experience. There are two types of mobs: normal and ranked. Normal mobs have a white name above their heads. One of your party members is generally more than a match for a normal monster.

Ranked creatures have different colored names. Opponents with yellow names are more challenging and aggressive than average. Orange names represent extremely powerful enemies capable of threatening a full party of adventurers by themselves.

Threat

Threat is a score used to determine who an enemy will attack. Simply put, the more threat you generate toward a target, the greater chance it will attack you, and continue to attack you even after others join in.

Threat is commonly generated by damage, so the more DPS you deliver, the greater the chance you'll attract attention. Luckily, there are some threat-reduction talents in the game that allow you to shed the threat temporarily (or possibly completely if you don't jump back into the fight).

Tanks are the ones most concerned with threat. They generate the most threat with special talents (sometimes known as "taunts") that automatically attract an enemy's attention and lock it on the tank. It's generally good form to allow your tank to build up threat by leaving him alone for the first few seconds of the combat as he launches a few damaging attacks.

If you have an off-tank, he should be ready to grab threat on any target that breaks free of the main tank or any extra monsters that show up unannounced.

When monsters in Awakening perceive a character, they evaluate a base level of threat. That base level is influenced by the class of armor the character is wearing at the moment of perception. Robes generate extremely low levels of threat, while massive armors generate the most. Outfit your party accordingly.

You can control the initial flow of threat by distributing gear based on each companion's role. An off-tank, for example, can avoid catching most of the damage by wearing heavy or medium armor, while the main tank wears massive.

Tip

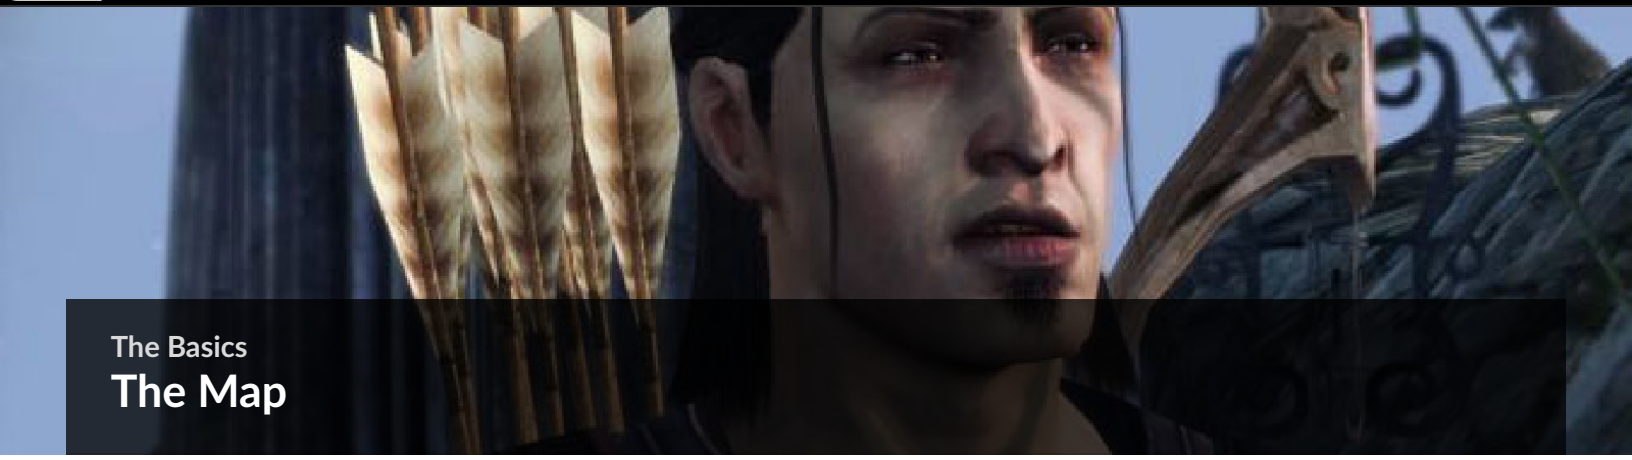
Some specific creatures target casters. Rogues and shrieks are the key monsters with this behavior, and they may beeline for a healer at the start of a fight.

A DPS specialist has a relatively simple task: Don't out-damage the tank so much that you gain threat. It might take some practice in the group, but you'll eventually learn how many talents you can launch, and how frequently, to maximize your damage without surpassing the tank's ability to hold threat. The biggest mistake to avoid as a DPSer is to start attacking too soon in the fight; allow the tank a few seconds to build up threat before you dive in.

Tactics

All characters have tactic slots that can be programmed with automatic behavior based on a certain set of circumstances. You may want to slot an action that says to use a health poultice if your health drops below 50 percent, or an action that dictates you defend the healer whenever they are attacked by an enemy.

You can always pause combat and manually choose your characters' action; however, at some point in every fight, your characters will act on their own, and tactics allow them to function effec- tively based on the skill sets of their fellow party members. For more on tactics, see the "Tactics" section of the Party chapter.

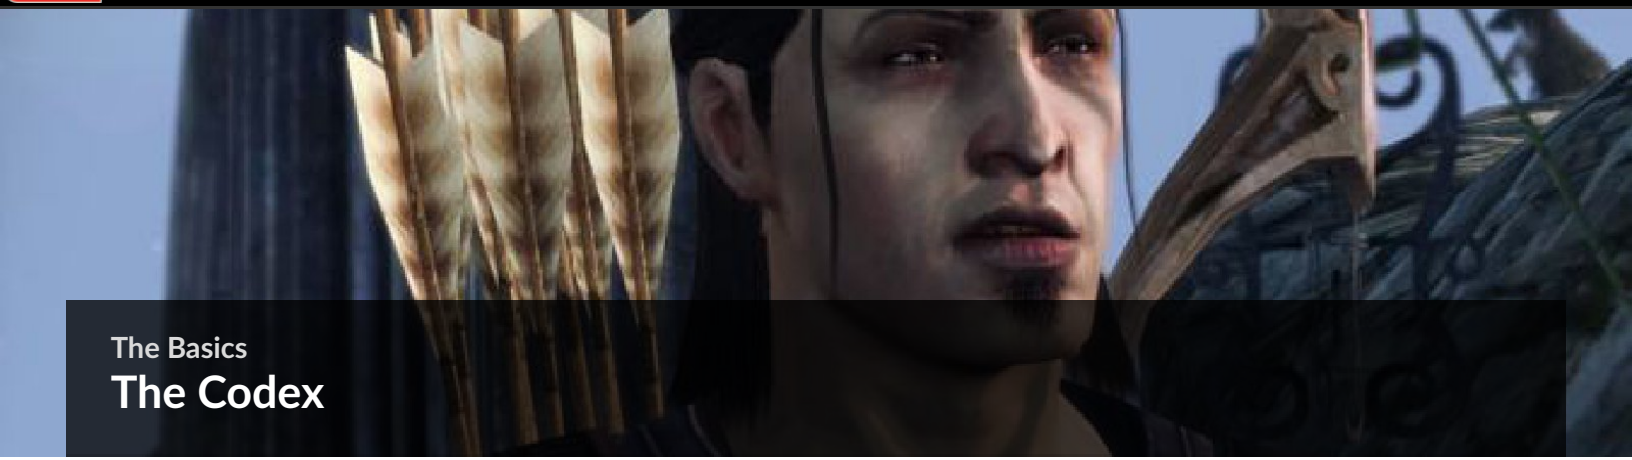


The Basics

The Map

Of course, you can't really get anywhere unless you understand the map. The map will be used for so many things, but the most useful aspect is to view plot helpers. Unless the option is turned off on the Options menu, plot helper arrows display on the map at various key quest points, especially where you have to go for the next leg of your journey.

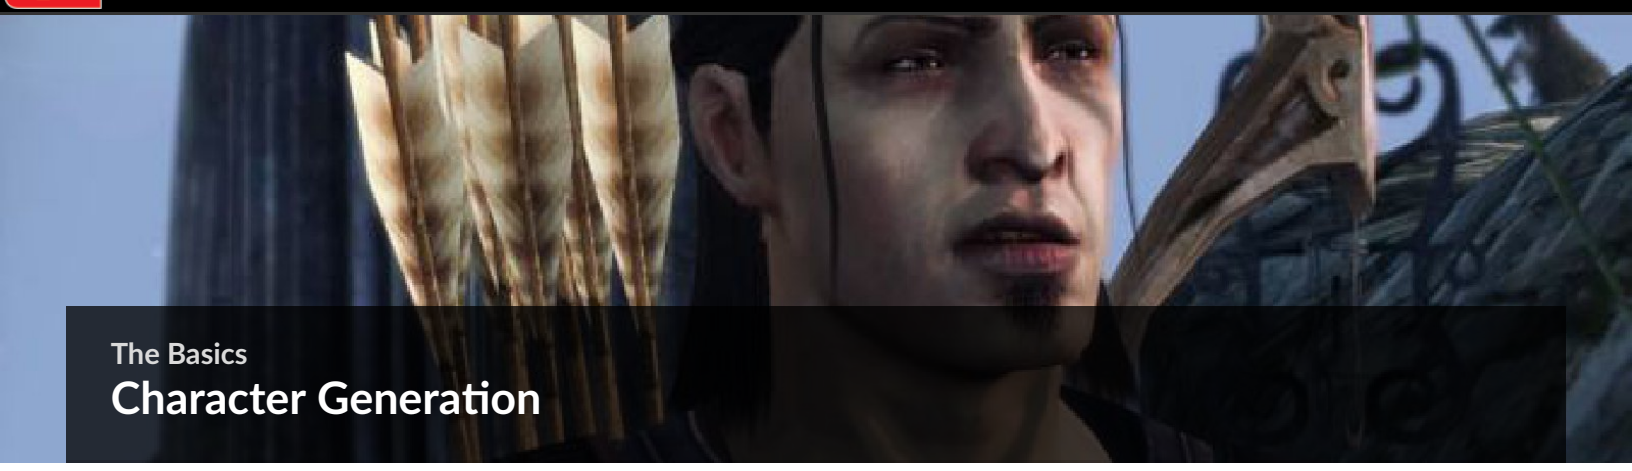
On the map, a yellow dot represents a party member, and a yellow dot with a circle around it represents the PC. A blue dot signifies an ally, and a red dot equals an enemy. Plot givers show up as white exclamation points, and key locations display as white Xs. A vendor or store looks like a house, and map exit points appear as white-rimmed black circles.



The Basics

The Codex

The codex is the parchment icon on your Journal screen and is the repository of important knowledge uncovered in the game. It falls into 10 categories: creatures, items, magic and religion, culture and history, characters, books and songs, notes, spell combinations, control, and quest-related. As you unlock a codex entry, a scroll appears in the appropriate category and you can read volumes on the various topics. Check it regularly for information, especially if you need a clue to a puzzling mystery on your current quest.



The Basics

Character Generation

Unlike *Dragon Age: Origins* where you started from scratch with barely a talent under your belt, *Awakening* presents you with two main options to vault your PC up to level 18: create a new character or import an existing character over from *Dragon Age: Origins* .

Create a New Character

When you choose to create a new character, you get many of the same options that you had if you created a character for *Dragon Age: Origins* .

You can choose a race and class (your starting origin story is Grey Wardens only), plus the various face and voice customization options. Remember, though, you're on the fast track to level 18. You get to choose two of your class's original specializations (such as Assassin and Bard for rogue), and you're given 62 points to spend on attributes.

See the appropriate class chapter for how you should spend your attribute points. As tempting as it may sound to drop them all in your primary stat, you may regret that decision when you begin to falter in other areas of the game with frail secondary attribute scores.

After attributes, you get to purchase skills and talents/ spells up to level 18. Plan how you want to spend all your important talent/spell points before you spend a single one. Does your warrior want to concentrate in the Weapon and Shield tree, or load up on Two-Handed talents? Should your mage spend a full eight points on specializations, thus reducing how many mainline spells he takes?

See the appropriate class chapter for suggestions on how to spend your talent/spell points. Before you begin the game at Vigil's Keep, each new character is given a decent set of starting gear, an inventory of helpful poultices and potions, and 55 sovereigns.

Note

Depending on how long and hard you played through Dragon Age: Origins, experienced characters may have better gear and more gold than newly created characters. As a general rule of thumb, if your PC is armed to the gills with high-end gear, holds a full inventory of cool loot, or has more than 55 sovereigns socked away, it's probably best to import your old character, even if you aren't the nostalgic sort.

Importing a Character

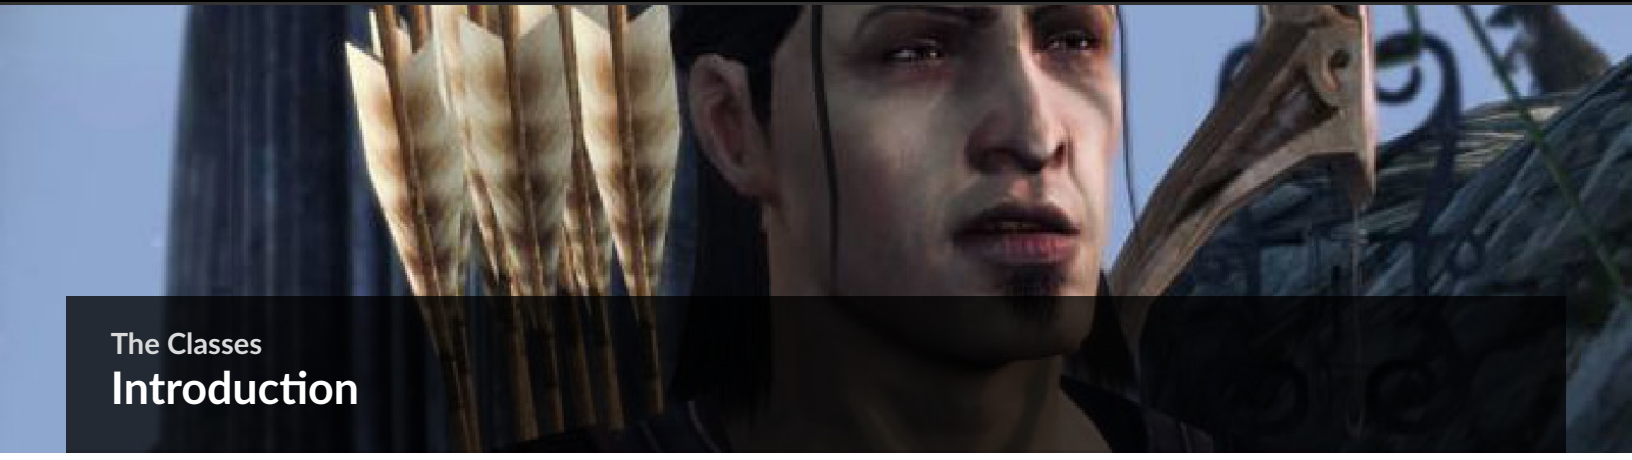
If you played through Dragon Age: Origins, even if you didn't finish the game, you can import a character. Any level character can be imported. Lower level characters will be boosted up to level 18. If you import a character higher than level 18, your imported character maintains its previous level.

You keep your attribute scores, and are awarded extra points to spend to reach level 18. All talents/spells remain the same, as do skills, and you buy new ones if you need to catch up to level 18. As with a new character, see the appropriate class chapter for hints on how best to spend your points for higher level characters.

You also get to keep your equipment. This can be a significant advantage if you stacked your previous character with nifty loot. If you want to ensure that your character has access to the same equipment, you must import your character at the game's start.

Tip

Stock up on crafting ingredients, advanced runes, and anything else you might think useful to carry over into Awakening, then save your Origins game. Only your main PC's equipment and the general inventory port over to Awakening, so load up. Anything on your Origins companions will be lost.



The Classes

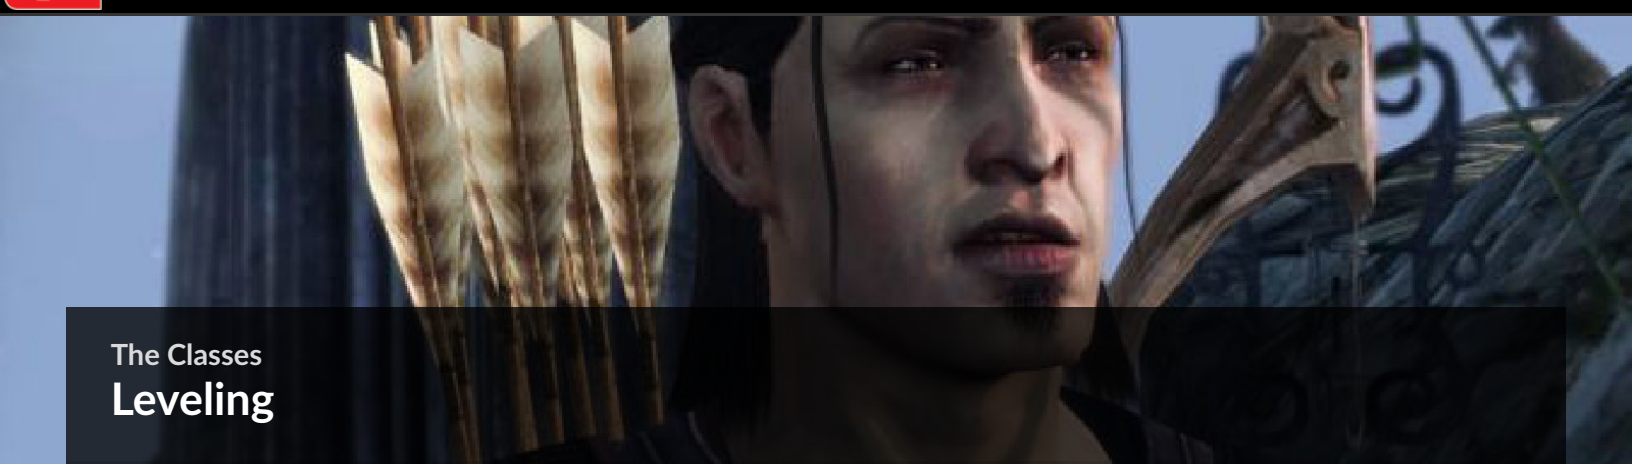
Introduction

Grey Wardens come from all backgrounds in life, hone many skills, and walk the path of adventure as one of the three classes: warrior, mage, or rogue.

As a warrior, you brave the heart of the enemy vanguard with solid steel in hand and sturdy shield to guard your side. You punish foes with great two-handed weapons or a spray of arrow volleys.

A mage draws mana from the Fade and bombards enemies with freezing blasts or blistering infernos. Their command of ranged attacks and unparalleled healing powers triumphs on the battlefield.

Hiding in the shadows, a rogue slays the unwary from behind and detects dungeon traps with a discerning eye. His thieving hands collect more coin than a covetous merchant. The possibilities are nearly endless no matter which class you choose.



The Classes

Leveling

Each level you gain three attribute points and one talent point. Attribute points can be spent on raising your core stats, while talent points can purchase new talents (for warriors and rogues) or new spells (for mages). Mages and warriors get one skill point every three levels, while rogues get a skill point every two levels. You gain specialization points at levels 7, 14, and 22.

Using this information, spend your points wisely. Don't be caught with a level 18 warrior who has only the first couple of abilities in many chains. His contribution to the party will be limited, and you don't get a second chance at spending these points unless you
purchase a special Manual of Focus, which allows you to re-spec your character.

Tip

A useful trick is to re-spec your character after level 24 using the Manual of Focus. This allows you access to a far greater number of high-level abilities than at previous levels. Using this trick also grants you access to both of the new specializations, which can make for a devastating character.

Experience Gain

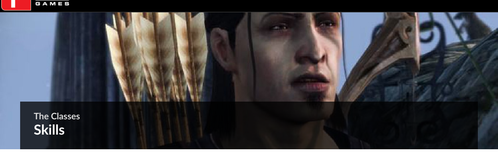
33	18500	316001
34	19000	334501
35	Max	353501

Note

It is possible to reach level 35 in Awakening, but it's a challenging feat to accomplish. You must complete almost everything in both Origins and Awakening to attain that level.



The Classes
Skills

All characters have the same set of skills from which to choose (not to be confused with talents/spells, which are unique for each class). Skills range from Coercion, which influences how well you can change NPCs' points of view, to Combat Tactics, which gives you more options in battles, to Runecrafting, which enables you to create runes to power up certain magic weapons and armor.

For the most part, your cunning score and level affect how far you can advance in a skill. Raise your cunning to 16 to access all of Coercion, Stealing, Survival, and Combat Tactics. Gaining level 10 opens up all of Trap-Making, Herbalism, and Poison-Making. Combat Training has no restrictions on it. Reach level 20 to begin acquiring the new Awakening skills: Runecrafting, Vitality, and Clarity.

When you purchase a skill for the first time, you start at its basic effect, and with each upgrade your ability grows and more options open up. For example, a basic herbalist can create lesser potions, while an improved herbalist can craft normal lyrium and health potions, and so on up the ladder to expert and master Herbalism.

Only one skill point is available every three levels (or every two if you're a rogue), so make your skill choices count. At most you will max out two to three skills during the game, or you may master one skill and dabble in others. To aid in choosing the best skills for you, here are some pointers.

> **Note**
>
> For a list of all crafting items, ingredients, and recipes, see the "Crafting" section of the Items chapter.

Coercion

You can access more game areas and information, bargain for better rewards or terms, and talk your way out of many difficult situations with this skill. While all classes can intimidate effectively (given a high Coercion skill and some fearsome party members), warriors can use their strength score (instead of cunning) to gain a bit of an edge in their intimidations.

For convincing companions to follow your lead without serious approval drops, you will likely gain the most use out of this skill. When in doubt, put your points into Coercion.

Herbalism

Gain the ability to make your own potions, poultices, and salves with this skill. These are invaluable items, and you'll always want at least five in any difficult fight. Regardless of class, all parties should have at least one person proficient in Herbalism.

Stealing

You are quick enough to pilfer small items from others, whether friendly or hostile, as long as they aren't too alert. Of course, you may have to pay the price if someone catches you in the act.

Poison-Making

The ability to create poison works best for rogues, or warriors who want a boost to damage. You need at least one point in Poison-Making to use poisons and bombs. If you already have a character crafting health and mana potions, it never hurts to increase your offensive potential as well, even with just one level in this skill.

Trap-Making

Learning how to make traps and lures seems like a good rogue talent, but this can be very useful for mages as well. If you're not all that strong in melee range, use traps and lures to draw in enemies and deal some preliminary damage while you cast a barrage of spells from afar. Even a warrior can throw a trap around once in a while to root extra enemies.

Combat Training

The more points you spend here, the better your warrior or rogue performs in combat. It's essential for any melee-based character. Warriors and rogues gain access to new weapon talents, stamina regeneration, attack bonuses, and armor upgrades. Mages can take more damage before it interrupts spellcasting.

Survival

The more you advance this skill, the better chance you have to detect creatures on your mini-map before they surprise you. This skill can save you from more than a few ambushes. In addition, you get a bonus to nature resistance, which protects against poison attacks of all sorts as well as spells such as Stonefist, Walking Bomb, and Virulent Walking Bomb.

Combat Tactics

Spending points in this skill gives you more tactics slots for your character. If you make all the decisions yourself, it's not that important; if you allow the characters to act on their own in combat, it's a big deal to get more tactics slots to better customize your combat strategies.

Runecrafting

This skill enables you to create your own runes for weapons and armor. It's expensive to craft potent runes, because you must create two runes of a lesser level and then destroy them in the process of creating the higher-level rune. Despite this, the power to customize your weapons and armor with extra abilities is worth having in any party.

Vitality

Bulk up your health with this skill. Each level increases your health gain, which should prove a necessity for warriors or any other characters frequently taking blows in the heart of combat. At higher experience levels, if you don't have any other skills you want to take for a character, think about Vitality to maximize defense.

Clarity

Improve your stamina/mana pool with this skill. Each level increases your stamina or mana gain, which works for just about any character, especially mages and DPSers who constantly rely on heavy stamina talents. At higher experience levels, if you don't have any other skills you want to take for a character, think about Clarity to increase how many spells or talents you can use in a fight.

NPC Crafters

Not every skill has to come from you or your party; some NPCs around the world can craft items for you. You might not have the hands of a blacksmith, for example, but if you bring special items to Herren and Wade in the Vigil's Keep courtyard, they will craft you a superior weapon, piece of armor, bow, or shield, depending on the original materials. Look for help wherever you go.

> **Note**
>
> See the Side Quests and Random Encounters chapters for details on side quests that lead to special items.

Choosing Skills

You should choose skills that appeal to your play style, and vary it from character to character. A rogue may enjoy Stealing, while Herbalism is a natural fit for a mage because it benefits from a high magic score. That doesn't mean a rogue shouldn't learn Herbalism or a mage learn Stealing. Always have fun with your choices, and remember that between the four characters in your party, you can play with most, if not all, of the game's skills.

However, some skills influence the game directly more than others. Coercion is the most important. It can give you options in dialogue to avoid fights or open up new areas of play that you might not have received without the art of persuasion. Survival points out enemies on the mini-map, which helps you set up your party for fights and avoid deadly ambushes.

Herbalism creates super-useful health poultices and lyrium potions. Unless you want to spend tons of coin on these essential accessories, invest in Herbalism to make your own at a fraction of the price. Runecrafting works similar to Herbalism, only with creating runes and with a higher price associated with the crafting materials. Without a doubt, Combat Training is vital to warriors and rogues who want access to top-tier weapon talents.

Warrior Combat Skils

A warrior primarily concerned aout combat and dialogue options with eight points to spend on skills might lean toward this configuration to start with:

Combat Training +4

Coercion+4

Survival+1

Mage Healing and Coercion Skills

A mage primarily concerned about dialogue options and healing and with eight points to spend on skills might lean toward this configuration at the outset:

Coercion +4

Herbalism +3

Combat Training +1

Rogue Combat Skills

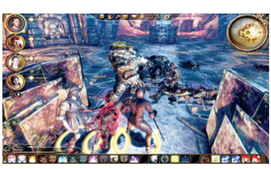
A rogue primarily concerned about combat and Poison-Making with 11 points to spend on skills might lean toward this configuration when starting out:

Combat Training +4

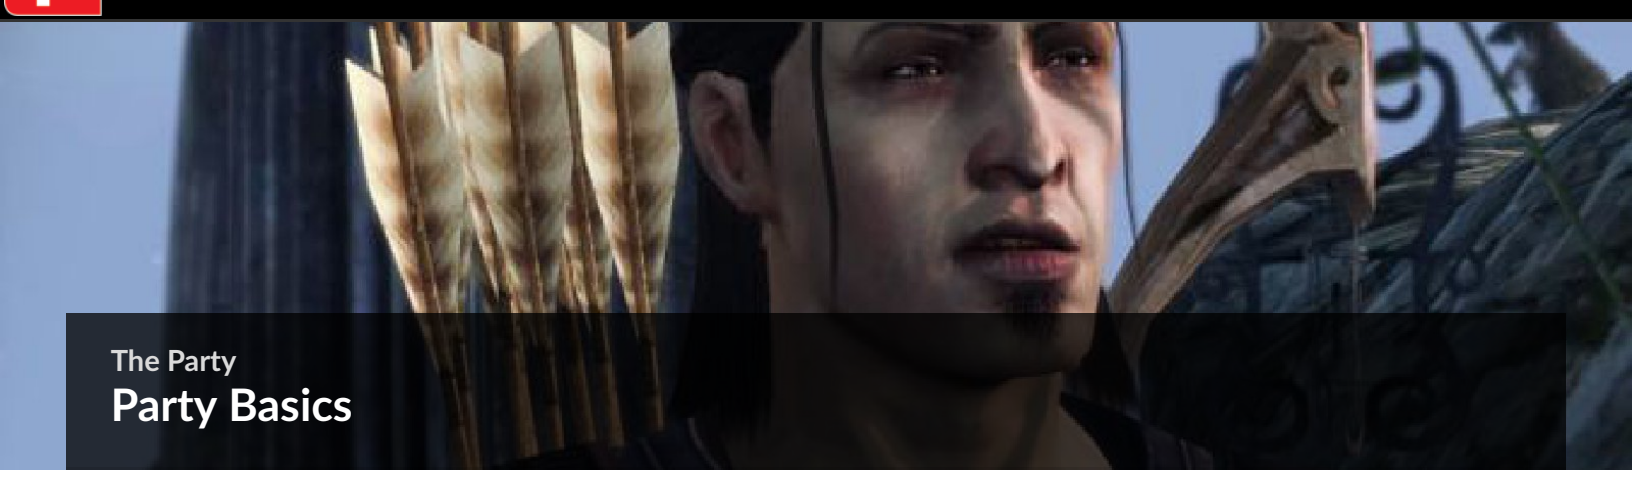
Poison Making +3

Coercion +3

Stealing +1



The biggest choice of your early career comes next: Do you play a warrior, mage, or rogue? All experiences are rewarding, but each is unique in the origin story you play through, the talents/spells you gain and your ability to affect combat and influence the storyline. Which type of Grey Warden will you be?



The Party
Party Basics

The name of the game should give you a clue that monstrous beasts are in store for you. From dungeon depths to snowy mountaintops, your four-person party will battle anything from devastating dragons to drooling darkspawn. Unless you want to end up as chew toys for ogres, hone up on the basics and learn expert party dynamics.

Buddy Basics

You begin your adventuring career on your own. As the story unfolds, you meet companions who join your party and become your allies in battle. A companion could be a mage such as Anders, or the unlikeliest of allies, Justice, a spirit from the Fade unexpectedly pulled back to the material world. It's up to you to decide which companions you travel with, because you can have only three companions at once.

The rest remain behind at Vigil's Keep, a place easily reached from the world map that serves as haven for you and your companions, fully equipped with merchants and allies who may give you political advice or join you on future quests. Each time you leave the Vigil's Keep throne room, you can pick three new companions to accompany you, and in certain non-hostile regions, you can use the Party Configuration button on your top menu to immediately switch companions. For more on each companion, flip to the Companions chapter.

Group Dynamics

Each of the three classes has a distinct role in the party. In general, class roles fall into categories that take best advantage of class talents. However, be prepared to improvise at any given moment. For example, if you're a rogue bard intent on keeping a second monster away from the party and you see the first enemy about to defeat your tank, you may want to switch to offense and help out with the first enemy.

The party's main tank responsibilities fall on the shoulders of a warrior. His superior defense and ability to hold the mob's threat safeguard the group in the heat of battle. If the tank falls, it generally spells doom for the rest of the party as the enemies split and attack the more vulnerable companions. The warrior's primary job is to the hold the line and keep the enemy's attention on him at all times so that others can do their thing.

Every party needs a healer, and a mage has excellent spells for the job. When not healing, the mage can augment the party with stat-enhancing buffs. Mages can also focus on DPS, stacking up on a single target and AoE damage spells to obliterate whole enemy groups.

A rogue acts as the scout for the party. He slips into the shadows with stealth and recons the area for enemy positions, traps, treasure locations, and quest objectives. When going up against enemies, a rogue can hide until the opportune moment to dart in for a backstab. In the heat of battle, the rogue adds extra DPS to the fight with superior Dual Weapon talents and bonuses to critical hit chances.

As you adventure with the same team, you gain experience, loot, and better skills. Develop your team as a whole and not just individuals. For example, you don't need four party members with Herbalism. One person who's mastered Herbalism can supply all the potions, leaving the others free to spread out their points to other valuable skills. It's fine to have two party members with Poison-Making so they can both enhance their weapon DPS, but also try out Trap-Making, and leave crucial skill points open for your PC to put into Coercion and possibly Survival.

At level 20 and higher, look toward Runecrafting to create weapon and armor runes, Vitality to pump up health, or Clarity to enhance your mana/stamina reserves. After a successful quest run, distribute your gear to the most appropriate characters. Don't always give the best items to your PC (though he or she should certainly get great loot whenever possible). It's much better to hand the top-notch armor to your tank than your rogue PC, and it makes little sense to give an accessory with magic bonus to your melee DPS character.

Dealing with Threat

If anyone in your party does manage to pull threat, always make sure to run to the tank to have it picked up. Attempting to run away only increases the time it takes to get the mob pulled off, likely resulting in the character's death or even the whole party's. Monitor the threat from critical hits. If you land a couple of high critical strikes in a row, disengage for a second then reengage. Critical strikes increase your threat, so consider this when monitoring your threat output.

If you have an off-tank in a party, don't use the off-tank's threat-generating abilities unless a difficult enemy breaks from the main tank or the main tank dies. Pulling off of the main tank will interrupt his threat generation, and your healer may not have enough mana, or time, to heal both.

If the main tank loses threat, everyone in the party must disengage until he regains it. Use any threat-reducing abilities, such as the rogue's Feign Death, if you have them. Once the main tank picks the enemies back up, wait a few seconds for the tank to build threat, then reengage.

Healing

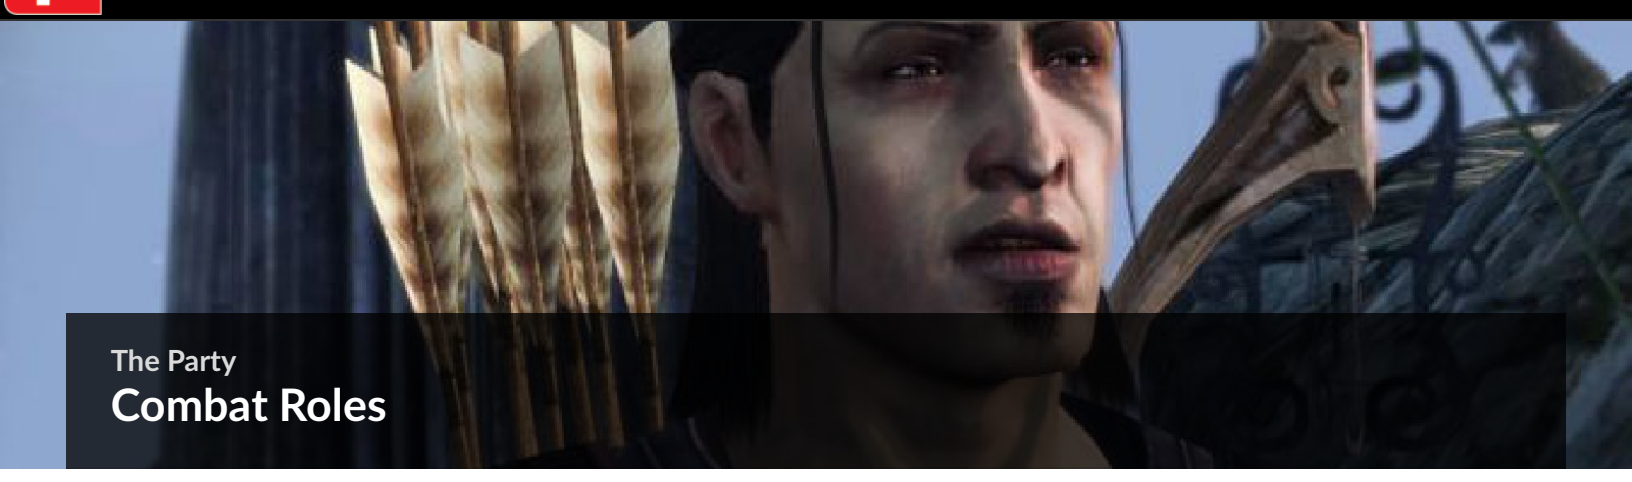
The party's healer will save or damn a group when an encounter gets hot and heavy. As a healer, you have to know when to launch your Group Heal, when to throw around a Heal or Regeneration, and when to avoid healing. In general, save your big heal to counteract large spike damage (unexpected damage that crits through a party members' defense for a significant amount of health), or if you desperately need to float a party member's health back up to a manageable level.

Those levels will depend on the enemy's damage and how much backup healing and mana you have at your disposal, but you shouldn't panic unless a party member's health is consistently dropping below the one-third mark. Even then, the healer's main responsibility is to the tank, then himself. Keep the tank alive, even if it means losing a DPSer in the fight. If the tank falls, the whole party will most likely perish. A good rule of thumb is to never switch off the main tank unless another companion's health is dropping rapidly. If you have to heal elsewhere, switch to the party member that needs help, throw a single Heal or Regeneration, and return to the main tank immediately.

Tip

Don't always burn your healer's mana. You may need to pop a healing potion from time to time and save the healer's magic for tougher stretches of the fight. If it looks like a companion is going to die despite the heals, use your best health poultice to help you climb back up to full.

A healer definitely must learn when not to heal. Obviously, you must conserve your mana so you don't run out at a crucial time, but you must also look at the big picture. You only have so many heals you can throw around, and the majority will be directed at the tank. You don't want to let anyone drop, but if you find yourself limited, you may have to skip a heal or two that you would have normally cast and let everyone's health bars get much closer to zero. Unless you are cruising through an encounter, you should never heal a non-party member, such as a blue-circled ally or one of the ranger's summoned animals. These allies are expendable, and the ranger's pets can always be re-summoned.



The Party
Combat Roles

Combat Roles

Each companion's role in a party will be different based on their spells, talents, and what you expect them to accomplish during the fight. As you level, choose the talents and spells that best fit your party configuration, and gear up appropriately. The following general strategies should work well for a tank, healer, mage DPS, general melee DPS, and general ranged DPS.

Tank

A tank doesn't muck around with fancy spells or dainty arrows; he charges at a foe and hacks at it with his weapon of choice. It's the tank's job to engage all enemies and direct their attention on him. Taunt abilities, such as Threaten and Taunt (of course!), increase threat against a target and force that target to become more hostile toward the tank; you can never get a foe mad enough as a tank, so load up the threat and keep those enemies foaming at the mouth!

Also, keep aware of the ever-changing battlefield, because it only takes one stray mob to veer toward one of your fellow DPSers (even worse, a healer) to turn an otherwise controlled fight into a free-for-all. Make sure you rope in all the enemies so others are free to aid the party as they should.

Because all the damage is focused on you, carry a lot of health poultices and the best gear you can scrounge up. Good gear will mitigate damage, making the healer's job easier and allowing you to go longer in fights, especially boss fights and ones where you handle several foes at once.

Healer

Harnessing great magical powers, a mage healer's primary role is that of savior in a group. They can deal some damage to enemies, but their focus is keeping the party members, and primarily the tank, alive. The tank is the first priority because he is the keystone of your assault—without him, the group quickly falls apart. The healer may also apply buffs (bonuses) to their party that help them do more damage or defend better.

One skill a healer needs to master is where to stand and when to move. Most of their magic requires them to remain motionless, yet on some fights, the party can be spread out so the healer needs to move to get within range. The healer has to balance running around and leaving enough time to heal everyone who needs it, while keeping the tank alive.

Anyone can stand in one spot and heal. A truly skilled healer can move, heal, and buff with ease. Remember to watch your mana, and if you have to make tough choices, keep the tank alive first and yourself second. A dead healer is no use to the party.

Mage DPS

Some mages incinerate their enemies from afar, others freeze them solid or crumble the earth down around them. The end result is always the same: mass destruction. Their damage makes them extremely valuable in a party, but they also need to control their power, allowing the tank enough time to build up threat before they unleash their destruction.

DPS mages do so much damage in such a spectacular way that they often attract unwanted attention. If an opponent gets too close, the mage, wearing only basic robes, could be done for. Mage spells also have decent range. If a mage stands far from the tank and draws the monster's threat, it becomes harder for fellow companions to save the mage. So the mage needs to stand in the right spot and learn the right spell timing. It often is not about how fast one can cast, but knowing when to cast.

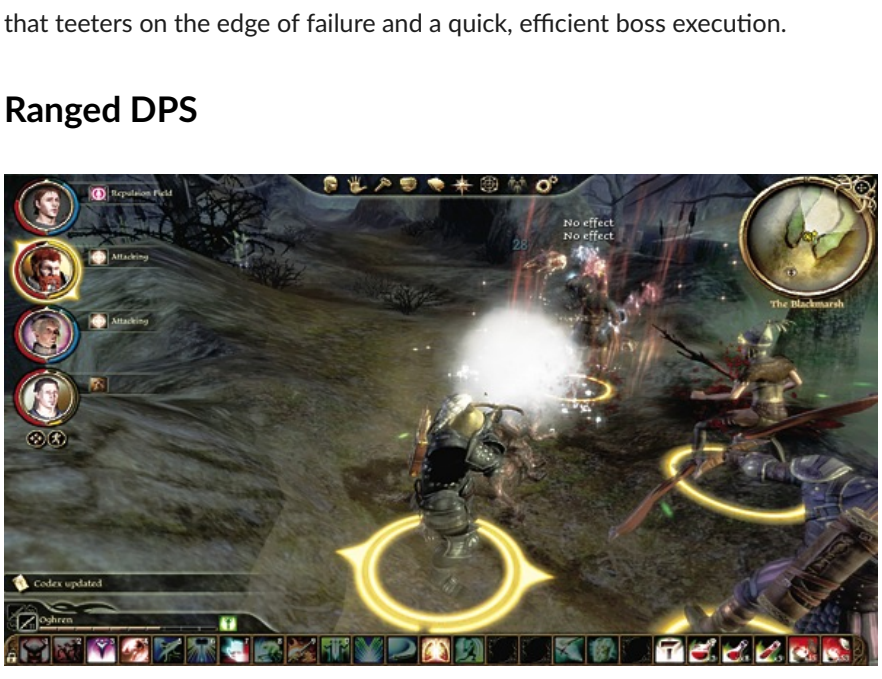
Melee DPS

The rogue DPS character, or the non-tank warrior DPSer, relies on cunning and savagery to take down his target as quickly as possible. Melee DPSers are not built for long one-on-one fights like a tank, nor can they usually handle large groups of foes; however, they are excellent damage-dealers who offer support DPS in a party.

After the tank engages and holds threat, a rogue DPSer can prowl unseen behind the enemy, then unleash crippling backstab blows to stagger the opponent. A warrior DPSer can dish out damage on the tank's target, then grab threat on a stray creature if it breaks from the pack. Because melee DPS characters have the talents to deal huge damage very quickly (especially critical strikes), they must be extremely careful not to pull threat away from the party's tank.

This usually means holding back and not running through the best regimen of combos, except on boss fights or with one creature left standing. You may also choose to slow down your combos so you don't trigger them as quickly. Depending on your skill choices, a melee DPSer can add even more support damage through Runecrafting, Poison-Making, Trap-Making, or certain usable items. A competent and poised melee DPSer can be the difference in your party between a long, drawn-out fight that teeters on the edge of failure and a quick, efficient boss execution.

Ranged DPS

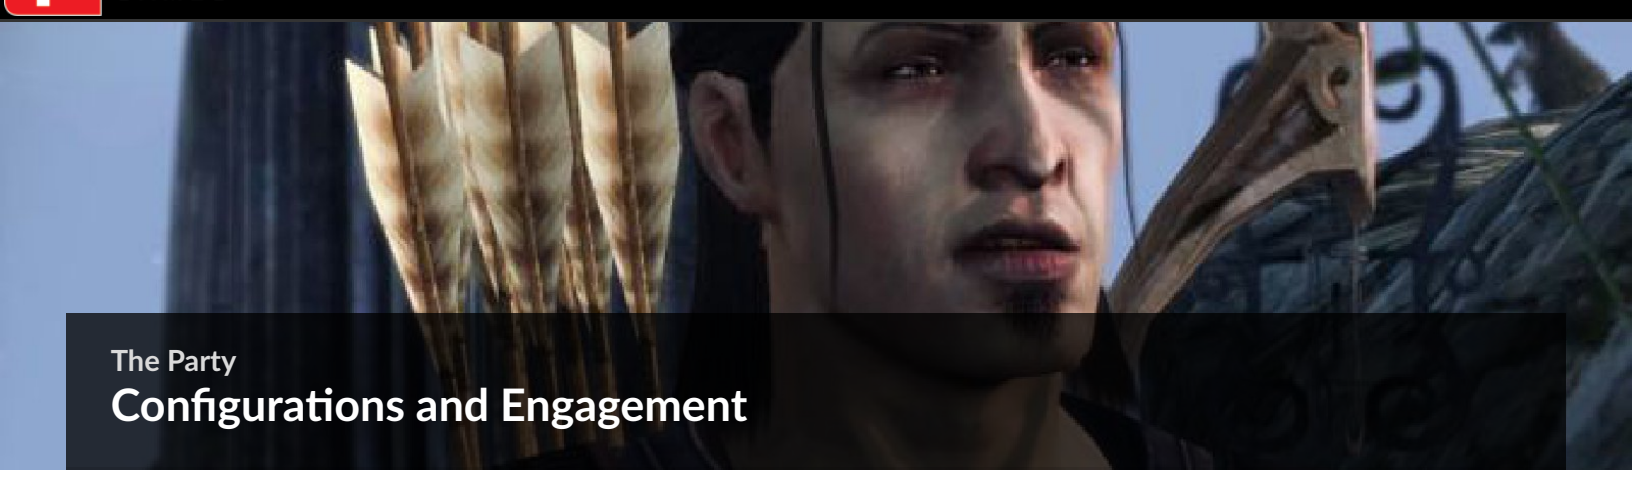


Lightly armored but fast, the ranged DPS character adds similar firepower to the party as a mage DPS character. They can close and deal melee damage, but they are at their best when firing a barrage of arrows from afar. In addition to dealing out damage, the ranged DPSer can snare (slow down movement), stun opponents, and set up defensive fire.

Because ranged DPSers have few ways to eliminate the threat they generate, they need to remain focused on when to attack and how hard to attack any given opponent. It is critical to their survival and group success that the monster stays focused on the tank. Make sure to bring health poultices to heal yourself and avoid getting the attention of the mobs.

Note

See the Classes chapter for how to spec each of the classes to exactly what you need to satisfy your party's demands.



The Party
Configurations and Engagement

The ideal party depends on a number of factors: nature of the encount er, size of the enemy group, play style, and more. Here are four configurations that serve in many all-purpose situations.

Balanced

Warrior (Tank) Mage (Healing) Rogue (Scouting, DPS) Mage or Warrior (DPS).

Blitzkrieg

Warrior (Tank) Warrior (Off-Tank) Mage (Healing) Rogue (DPS).

Control

Warrior (Tank), Mage (Healing), Rogue (DPS), Mage (Crowd Control).

Unbalanced

Warrior (Tank) Warrior (DPS, Off-Tank) Warrior (Ranged) Mage (Healer).

A balanced party contains a warrior as the tank, mage as the healer, rogue as the scout, and mage or warrior as support. This configuration spreads the talents around and prepares the group for any challenge. Some abilities overlap, which helps in cases where a companion may be overwhelmed at a critical time, or has already fallen in battle.

The "blitzkrieg" configuration emphasizes speed and damage over healing or defense. You carry at least two tanks on the team, a combat-oriented rogue for more damage and some light healing with a mage who also has offensive spells at his fingertips. This type of party plans to rip through one enemy group before a second can engage them; they don't have the defenses for prolonged fighting, so it's got to be swift or not at all.

Engagement 1: Enemy Group

The tank waits for the enemy front line and engages the toughest creature, or the center of an enemy swarm. His job is to hold threat from as many creatures as possible and deal damage as he can. The two DPS characters swing out and attack from the flank (or rear in the case of a rogue). Their jobs are to deal as much damage as possible, without drawing too much threat. The healer holds position in the rear and casts heals as needed to keep the party intact. In general, each companion should target the enemies the tank has and pick off the weakest ones first to reduce the enemy numbers against you.

A party that concentrates on control stands behind healing and crowd control abilities. You still need a warrior tank, and you need a dedicated healer, which falls to a spirit healer mage. The rogue lays down a lot of DPS, but must be flexible enough to off-tank once in a while or throw out some crowd control (such as a bard's Captivating Song). A second mage brings offense to the table, of course, but also spells like Grease and Crushing Prison that can slow or stop extra enemies from engaging. This particular party may enter long fights, battling for continued periods of time with solid healing and abilities that dictate when enemies confront them.

An unbalanced party may not share abilities optimally, but it can be a lot of fun nevertheless. The idea is to overbalance with a single class or strategy and pursue it to the max. You can generally get away with any combination, so long as you have a mage healer in the mix (parties without a healer won't do well unless you have unlimited health poultices at your disposal, and that gets very expensive). In this example, we have three warriors, fully armed and armored, who can charge into melee if there aren't any ranged threats, or engage and leave one warrior back to shoot down targets at range and act as bodyguard for the healer in the rear. A three-warrior group dishes out tremendous damage and has serious defensive resilience, even if it lacks the finesse of a rogue's touch or the all-out AoE firepower of a DPS mage.

We all know that the perfect combination of party members doesn't automatically mean success. You have to apply your skills and react quickly to the challenges that will inevitably assault you during quests. Smart parties will identify which mobs they can handle and which they can't, and as long as you dodge or control the additional enemies that wander in your direction, your team will thrive in style.

Engagement 2: Boss Fight

The tank waits for the boss to approach, or charges in if the boss has ranged attacks. His job is to keep the boss's attention focused on him and deal damage when he can. The two DPS characters swing out and attack from the flank (or rear in the case of a rogue). Their jobs are to deal as much damage as possible, without drawing too much threat. The healer holds position in the rear and casts heals as needed to keep the party intact, mainly healing the tank who will likely take big damage spikes from the boss. In general, each companion should go all-out with their best talents/spells as long as they don't pull the boss off the tank. Note that this strategy works the same for a single enemy of any kind; it will just fall that much faster if it's not a boss.

Let's take a look at a sample fight with a tank (warrior), healer (mage) and two DPSers (rogue, mage DPS). You've cleared a path to the boss, and now it's time to take the ugly mug down. Before you launch the first attack, make sure all characters have the proper gear, usable items, and talents ready to go.

As the tank readies his weapon, the healer throws a precautionary Regeneration on him, which serves as a little extra health at the start of the battle and absorbs a few shots. Only then does the tank charge in and hit the boss with Taunt, or whack him a few times to activate Threaten, to draw the monster's attention for the first few seconds.

The mage DPSer holds his ground. He will out-damage the tank if he rains down destruction alongside the tank. The rogue circles behind the boss to get into backstab position (but not close enough for the boss to strike him with AoE attacks). The tank rolls into his offensive routine, smacking the boss with his best chain of attacks.

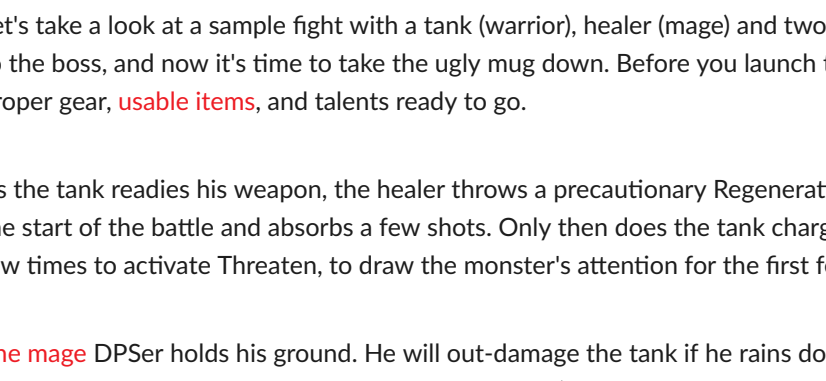
After three or four attacks from the tank, it's the DPSers' turn. The mage begins his offensive rotation of spells, while the rogue darts in and backstabs the boss. The rogue continues the assault until the boss turns its attacks on him.

Tip

Let the tank attack twice for every one of the DPSer's attacks unless you're in a position to finish off the boss very quickly.

If this were a full group instead of a single enemy, the roles would stay the same, except the party would generally concentrate damage on the weakest foe to reduce the numbers quicker. If there was a dangerous foe on the battlefield—for example, a genlock emissary casting spells—charge it with your tank and DPSer, unless the ranged DPSers can take it out.

Engagement 3: Strategic Retreat

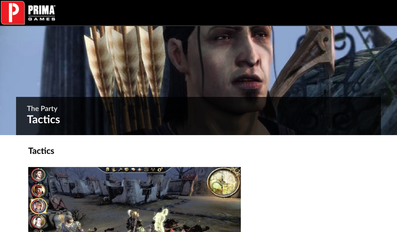


Given time, all companions retreat to defensive positions in a doorway, corridor, or even a corner. If there isn't time, the tank holds the line with as many creatures as possible, while the group positions itself away from the swarm. If the tank can slowly retreat near the party, he should do so; otherwise, all other companions use single-target ranged attacks. The tanks's job is still to hold threat from as many creatures as possible and deal damage. The two DPS characters use ranged attacks, or may be forced to do the best they can head-to-head in melee with creatures. The healer holds position in the rear and casts heals as needed to keep the party intact. In general, each companion should focus on the tank's targets and pick off the weakest ones first to reduce the enemy numbers against you.

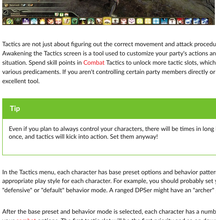
With the tank dealing steady damage, the mage and rogue supporting as DPSers, and the healer concentrating heals and regenerations on the tank to keep him healthy, the party will take down the boss after a short fight. If the boss pulls out AoE attacks, or brings in enemy allies, the healer should cast Group Heal when possible to keep everyone's health up.

It's important for every member of the group to keep the self buffs, group buffs, and debuffs up at all times! If it's about to drop, refresh it and continue your DPS on the boss. Group buffs/debuffs can have a dramatic effect over the course of a battle. Remember: Damage-reducing and damage-mitigating buffs can translate directly into heals and mana saved for your healer over the course of a fight.

In the end, a team playing the right roles will conquer dozens of enemies.



Tactics



Tactics are not just about figuring out the correct movement and attack procedure in a battle. In Dragon Age: Origins—Awakening the Tactics screen is a tool used to customize your party's actions and reactions based on the current combat situation. Spend skill points in Combat Tactics to unlock more tactic slots, which can be used to customize behavior patterns in various predicaments. If you aren't controlling certain party members directly or you want to play in real time, tactics are an excellent tool.

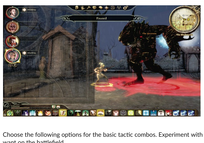
Tip

Even if you plan to always control your characters, there will be times in long battles where you can't manage them all at once, and tactics will kick into action. Set them anyway!

In the Tactics menu, each character has base preset options and behavior patterns from which to choose. First, set these to the appropriate play style for each character. For example, you should probably set your tank with a "defender" preset and a "defensive" or "default" behavior mode. A ranged DPSer might have an "archer" preset and "ranged" behavior mode.

After the base preset and behavior mode is selected, each character has a number of customizable slots, which really open up your combat options. The first tactic slot will be the first priority and so on down the slots in descending priority order. You can choose options that affect your self, ally, enemy, individual party member, or controlled party member. Tactics can trigger actions based on status (rooted, slowed, grabbing, movement impaired), health percentages, mana or stamina levels, armor type, type of attack, surrounded by enemies, and more. Once conditions are met, you can deactivate and activate whatever combination of talent/spells you desire. For example, you can set one slot to check if you are surrounded by at least two enemies and then activate Captivating Song, or set your final slot to switch to your melee weapon if all spell options are exhausted. Remember to save your new preset as a Custom save for future use.

Basic Tactics



Choose the following options for the basic tactic combos. Experiment with various conditions to get exactly what you want on the battlefield.

Attack: Enemy, condition (such as nearest or magic-using), Attack (or activate a specific talent/spell)

Defense: Self, condition (such as low health or being attacked), Use Ability or Use Mode (any defensive talent or spell)

Aid Ally: Ally, condition (such as low health or being attacked), Use Ability or Use Mode (any defensive talent or spell)

Use Potion (or any item): Self, condition (such as Health < 50%), Use health poultice (most powerful or least powerful)

Let's take a look at how you could program a balanced party of warrior (tank), mage (healer), rogue (DPS and crowd control), and mage (ranged DPS):

Warrior (Tank)

Preset: Defender
Behavior: Defensive

1. Enemy: Rank = Normal (Peon's Plight)

2. Enemy: Nearest Visible Mage (Holy Smite)

3. Self: Any (Activate: Threaten)

4. Self: Being attacked by a ranged attack (Activate: Shield Cover)

5. Self: Surrounded by at least two enemies (War Cry)

6. Enemy: Health >= 50% (Overpower)

1. Start every fight determining which normal creature needs to die if you have the Peon's Plight talent. A successful attack automatically kills a target of normal or lesser rank, and inflicts critical hits against lieutenants and bosses. Normal spellcasters are prime targets for your opening move.

2. This warrior is also a templar. Whenever he spots an enemy mage, he casts Holy Smite to smack the spellcaster with spirit damage and drain the caster's mana.

3. The warrior activates Threaten at the start of each battle to direct all future threat at himself.

4. If enemies are attacking at range, the warrior activates Shield Cover (instead of standard Shield Defense).

5. This warrior is a champion. When surrounded by more than a single enemy, he triggers War Cry. If he also has Superiority, this combination may knock enemies off their feet in addition to buffing companions.

6. Against a moderately healthy opponent, the warrior tries Overpower second to chip away at health.

Note

At higher levels, replace Threaten with Grievous Insult and Overpower with Massacre for a truly deadly warrior.

Mage (Healer)

Preset: Healer
Behavior: Defensive

1. Self: Being attacked by a melee or ranged attack (Activate: Fade Shield)

2. Self: Mana or Stamina < 50% (Group Heal)

3. Self: Mana or Stamina < 25% (Use Lyrium Potion)

4. Self: Health < 75% (Heal)

5. Self: Health < 75% (Regenerate)

6. Ally: Health < 75% (Heal)

7. Ally: Health < 75% (Regenerate)

8. Ally: Mana or Stamina < 25% (Rejuvenate)

9. Enemy: Target using ranged or magic attack (Earthquake)

10. Enemy: Target of Justice (Switch to ranged weapon)

1. If an enemy targets the healer, she will activate Fade Shield for a significant chance to resist hostile spells or evade physical attacks.

2. This is a timer effect. You don't want to cast Group Heal early in the fight or it will be mostly useless. Once the healer's mana drops below 50 percent, the tactics will check to cast Group Heal. As soon as its available for the rest of the battle (unless the healer gains mana above 50 percent), Group Heal goes off.

3. Once the healer's mana drops below 25 percent, the healer quaffs a lyrium potion to replenish mana.

4. The healer checks for damage on herself. If health is below 75 percent, she casts Heal on herself.

5. If Heal isn't available due to cooldown, or the healer's health is still below 75 percent, she casts Regenerate on herself.

6. The healer checks for damage on an ally. If health is below 75 percent, she casts Heal on the ally.

7. If Heal isn't available due to cooldown, or the ally's health is still below 75 percent, she casts Regenerate on the ally.

8. If an ally's mana or stamina drops below 25%, the healer casts Rejuvenate to replenish mana or stamina.

9. If all healing options are clear, the healer switches into offensive mode and casts Earthquake (or your favorite AoE spell) at a ranged or magic-wielding enemy. Avoid casting on melee targets or else you may catch your party members in the AoE. To counteract this problem, you can switch to a single-target spell such as Stonefist.

10. If mana is exhausted, or there are no ranged enemy targets, the healer uses her staff to fire at the tank's enemy.

Rogue (DPS)

Preset: Scrapper
Behavior: Default

1. Self: Any (Venom)

2. Self: Any (Dueling)

3. Enemy: Target of Justice (Pinpoint Strike)

4. Enemy: Target rank is elite or higher (Upset Balance)

5. Self: Being attacked by a melee attack (Dirty Fighting)

6. Enemy: Target of Justice (Attack)

1. The rogue coats his weapon with poison at the start of the fight for extra DPS.

2. The rogue is a duelist. He activates Dueling for added bonuses.

3. Once he is in position, the rogue will attack the tank's target with a series of critical blows.

4. If the enemy is ranked above the normal foe, the rogue will try to stun the foe with Upset Balance.

5. If an enemy attacks the rogue in melee, he'll stun it with Dirty Fighting.

6. When he's out of special options, the rogue will always attack the tank's target.

Mage (DPS)

Preset: Damager
Behavior: Ranged

1. Self: Surrounded by at least two enemies (Repulsion Field)

2. Enemy: Target using magic attack (Crushing Prison)

3. Enemy: Target between medium and long range (Fireball)

4. Enemy: Target rank is elite or higher (Paralyze)

5. Enemy: Target using magic attack (Mana Drain)

6. Enemy: Nearest visible (Lightning)

7. Enemy: Nearest visible (Arcane Bolt)

1. If surrounded by more than a single enemy, the mage defends himself with this spell. Waves of repulsive energy emanate from the mage, which knock back nearby enemies unless they pass a physical resistance check.

2. If a foe is using a magic attack, the mage attempts to root it with Crushing Prison.

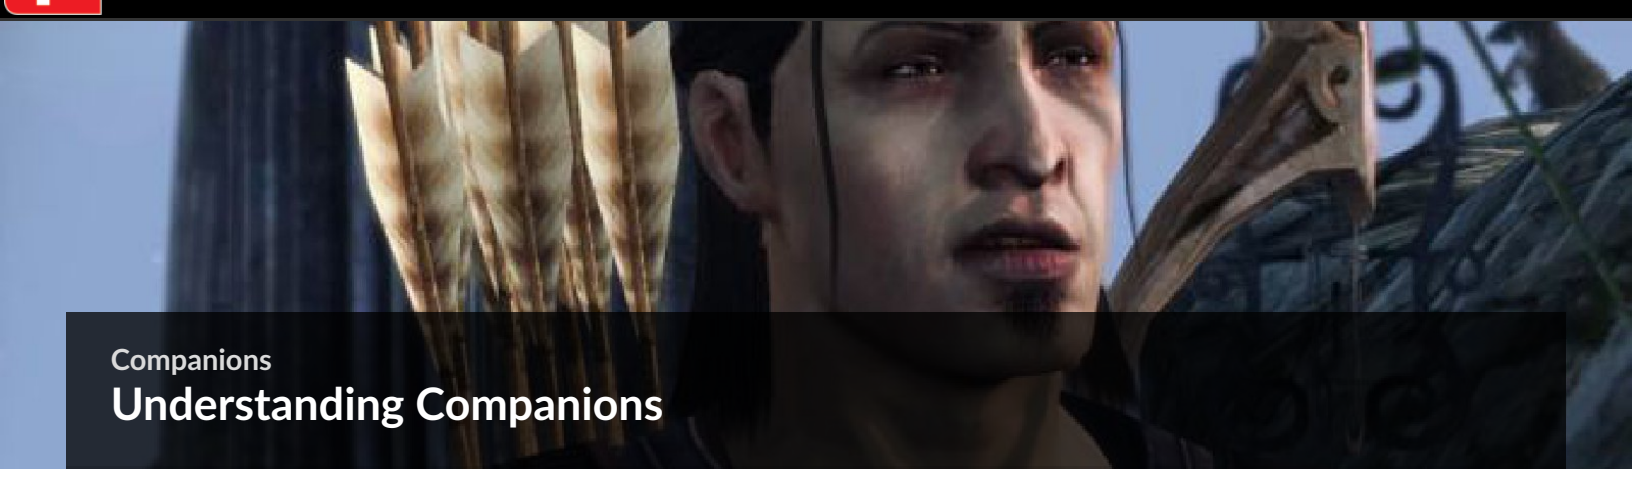
3. The mage casts a medium- or long-range Fireball at the enemy.

4. If a foe is ranked higher than normal level, and Crushing Prison failed, is on cooldown, or there is a second opponent who fulfills the conditions, the mage attempts to root it with Paralyze.

5. If the mage spots an enemy spellcaster, he will sap its mana with Mana Drain.

6. Otherwise, the mage will chose the nearest target and blast away with Lightning (or your favorite single-target spell).

7. If Lightning is on cooldown, the mage will hit the nearest target with Arcane Bolt (or another single-target spell).



Companions

Understanding Companions

If you thought the companions who rallied with you against the archdemon were a fascinating lot, wait till you meet this new group. Companions are your allies in battle, the NPCs who team with your PC and who you control on your quests. Choose companions based on your PC's needs. If you play a mage, you will definitely need a warrior like Justice, possibly a rogue like Nathaniel Howe, and maybe another rogue like Sigrun or another mage like Anders for healing if you concentrate on DPS.

You run into only a handful of companions on your travels, as they are scattered from Knotwood Hills to the Blackmarsh. Know them well, for they are as vital as your own flesh and blood.

Grey Warden Companions

Companion	Class	Location
Anders	Mage	Vigil's Keep
Justice	Warrior	Blackmarsh
Mhairi	Warrior	Vigil's Keep
Nathaniel Howe	Rogue	Vigil's Keep
Oghren	Warrior	Vigil's Keep
Sigrun	Rogue	Knotwood Hills
Velanna	Mage	Wending wood

Understanding Companions

Companions aren't simple NPCs who point you toward the next quest; they think, have opinions, fall in and out of favor with your decisions, and level along with you. Without companions, you would be a one-person party.

To grasp the intricacies of companion interaction, read through the following pages and familiarize yourself with what works and what doesn't work for your current party make-up. After companion basics, each companion receives a dedicated section with everything you need to know about your favorite ally. The Supporting Cast chapter details other famous characters of the land; consider it a list of the important NPCs and relevant game info to aid you on your quests.

Approval Ratings

Your approval ranges from -100 to 100, with all companions beginning at zero when you first meet them. The higher the approval rating, the more the companion enjoys your company and will be willing to follow your lead. A low approval rating equals a disgruntled companion, and one who might walk out on the group at any moment. In most cases, the approval rating caps at 74 unless you are "friendly" with a companion. You can warm up to companions by talking with them every chance you get and exploring all their dialogue options; you get a friendly rating with a companion by doing each NPC's personal quest.

Approval Chart

Your approval rating with companions ranges from -100 to 100. However, you can only get to max positive approval if you are "friendly" with the companion. You can get "friendly" if you do each companion's personal quest.

Gifts

You can give some specific items from your inventory to companions to increase approval. All gifts can be given to all companions, but each companion prefers a specific type of gift that gives a higher approval rating if you match companion and gift appropriately. Dialogue can also be initiated based on gifts being given.

Companion Gifts

To give a gift, switch to the follower in the character record screen, then select an item in your inventory and choose "Gift." A gift given provides a bonus from +1 to +10 to that character's approval rating, depending on how much that follower likes the gift and what their current approval rating is.

Only certain items labeled as "gift" can be given for approval rating boosts. Giving the wrong gift to the wrong companion will raise the companion's approval by only half of what it would if given to the correct companion. "Plot" gifts are given back to the player if they are given to the wrong character. When you donate gifts to companions, listen for the audio clue and watch for the rising heart that displays the approval bump number. Because there are limited gifts in the game, don't just give them away randomly; it's always better to hear a "Wow!" than a "Thanks, I guess."

Companion Quests

Most companions have a personal quest that you can help them undertake. Some are more involved than others. For example, you have to try to steal a phylactery for Anders's personal quest, but only hang out with Oghren at the Vigil Keep's throne room for his. Complete all your companions' quests if you can, because this will solidify your friendship with them. See the individual companion sections for how to unlock each one.

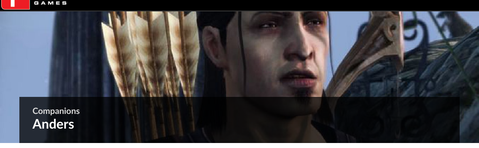
Plot Abilities

Companions can be inspired by your leadership. If you increase a companion's approval rating high enough, they will gain one of several bonuses to their primary attribute. For example, a warm Velanna will gain "Inspired: Minor Magic" and a warm Justice will gain "Inspired: Minor Constitution." There are four levels for the plot abilities—minor, moderate, major, and massive—and each level increases the bonus the companion gets to an attribute, so keep pumping up the approval rating of the companions you prefer to travel with, and they'll become better party members. Plot abilities can degrade, though, if you lose sufficient approval with a companion.

Crisis Moments

When talking to the companions, or if you make decisions in the game that are contrary to a companion's goals, the companion will definitely not approve. If they disapprove, you lose approval rating and they will certainly have words with you.

If you continue on this negative approval path, they will reach a "crisis" point where they say they have to leave. You still have a chance to talk them out of it, and if you're successful, they will stay. But if they reach crisis for a second time, it's over. The companion will leave for good. See the individual companion sections for possible crisis moments and how to avoid them.



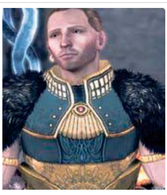
Companions
Anders

Spoiler Alert

You discover Anders when you first enter Vigil's Keep; he is surrounded by dead templars and is fighting for his life against darkspawn. It would seem he's an evil apostate mage, but in truth, he just doesn't like being trapped (he'll readily fight against the darkspawn). You can ask him to join the party, or leave him there (although he will return later).

When meeting the king or queen at the end of "The Assault on Vigil's Keep" introduction, you can choose to conscript Anders as a Grey Warden (against the advice of the templars), let him be taken by the templars (but with a good word put in for him), or just let him be taken by the templars outright.

Anders at a Glance



Starting Attributes

Strength	11
Dexterity	11
Willpower	33
Magic	41
Cunning	17
Constitution	17

Class

Mage

Healer : Despite his fire-roasting stunt when you first meet him, Anders makes for the best party healer. He starts with the Spirit Healer specialization with points already spent on a good healing base.

Starting Talents

Spirit Healer : Group Heal, Revival, Lifeward

Mage : Arcane Bolt, Arcane Shield

Primal : Winter's Grasp, Frost Weapons, Cone of Cold

Creation : Heal, Heroic Offense

Spirit : Walking Bomb, Mind Blast

Entropy : Weakness, Paralyze, Drain Life

Location

Vigil's Keep Interior

Unlock Condition

In the corridor off the entrance chamber in the keep interior, you meet up with Anders. He's slain some templars after him, but will gladly join your group to fight the darkspawn.

Combat Advice

If you choose Anders as your party healer, get him Rejuvenate and Regeneration as soon as possible. Spirit Healer's Cleansing Aura would be a nice addition too. Definitely upgrade Mind Blast one point to Force Field for extra defense when an ally nears death. Once you reach level 20, invest in the Mage school's Fade Shield chain, especially for the mighty Time Spiral at level 28 which can reset all your healing cooldowns.

In combat, leave Anders in the rear to protect him from melee. Heal at range and toss in a damage spell like Winter's Grasp or Cone of Cold if you want to speed up damage against wounded enemies. If you have a few extra points available, you may want to spec Anders into the Keeper specialization. One with Nature and its upgrade abilities can trap enemies surrounding Anders, thus keeping them off the mage during healing and slowing them down while attacking other allies.

Personal Quest

The one thing Anders wants most of all is freedom from the Circle. He had arranged with a cohort, Namaya, to get his phylactery away from the templars. When you meet with Namaya in the city of Amaranthine (see Amaranthine map in Side Quests chapter for Namaya's exact location), she tells Anders where he can find it: in a warehouse across the city.

Alas, the whole thing is a setup by the templars. There is no phylactery in Amaranthine. The templars are waiting, and if you don't give Anders to them outright, they will battle the party to the death. For more details, see "Freedom for Anders" in the "Companions" section of the Side Quest chapter.

Gifts

Anders's "plot gift" is a kitten (found in eastern section of the Vigil's Keep courtyard). His other gifts are a knitted scarf (found in the Chantry), gold earring (Vigil's Keep basement), engraved silver bracers (Kal'Hirol), a bell collar for the cat (Amaranthine), and a book on phylacteries (Silverite Mine in the Wending Wood).

Gift	Found In	Location
Bell Collar	Homer's Toys	Amaranthine
Engraved Silver Bracers	Pile of Bones	Kal'Hirol
Gold Earring	Knight's Corpse	Vigil's Keep Basement
Kitten	Plot item	Eastern Section of Vigil's Keep courtyard
Knitted scarf	Lost and found box	Amaranthine Chantry
Phylacteries: A History Written in Blood	Books	Silverite Mine

Dialogue Choices

As with any companion, Anders has dialogue choices whenever you interact with him, and sometimes he will pull you aside to speak with you about a topic. However, at important points in the game, you should know about plot-specific, area-specific, and throne room-specific dialogue that could change the game for your companion.

Plot-Specific Dialogue

If Ser Tamra doesn't speak to the player about the growing conspiracy for the "A Brewing Conspiracy" side quest, Anders will have the same information for you during the fealty ceremony. After you give Anders the gift kitten, the Ser Pounce-a-Lot item will appear in your inventory. If you interact with this item with Anders in the party, you will hear Anders talking to the kitten.

Area-Specific Dialogue

Anders has a conversation related to the statue of Andraste (there are two in the game: he talks about the one in Vigil's Keep after you upgrade the walls), a tree in the city of Amaranthine, and the lyrium basket in the Trade Quarter of Kal'Hirol. You can gain serious approval bumps if you sympathize with Anders about his hopes for freedom and dislike for authority.

Throne Room-Specific Dialogue

Anders may tell you about the Circle Tower's cat, which relates to the kitten gift you can present to him. This results in a positive approval bump. After you complete Anders's personal quest and save him from the templars' trap, Anders may tell you that you're an "all right" sort for sticking by him. This results in a positive approval bump.

Approval Increase

Banter with Anders, or tease him.

Remind him that he is free and appreciated.

Kill the templars in the warehouse to save him (you will be eligible to reach his friendly status). Stand up for him with the templars.

Take the information on the statues to the merchants ("Maferath's Monuments" side quest). Hire Velanna (a pretty girl) to the Grey Wardens.

Mess around with the revered mother for the orphans, or steal her sermons (the series of Blight Orphans side quests in the Crown and Lion Inn).

Rescue the hostage Eileen ("A Daughter Ransomed" side quest).

Leave him behind at the keep when you march to Amaranthine at the start of the "Assault on Vigil's Keep" main quest.

For even more approval, come back to the keep to rescue him if you did leave him behind.

If you include him in the party for the siege, however, save the city rather than Vigil's Keep.

Approval Decrease

Tell him that the templars are right to keep the mages trapped.

Engage him in overly serious conversation.

Make him feel like he's trapped in the Grey Wardens.

Give him over to the templars—a move that permanently removes him from your party. Take Ser Rylien up on her quest to seek out the malefcars in the city ("Out of Control" side quest).

Turn in the sylvanwood to the Chantry ("From the Living Wood" side quest).

Add Nathaniel to your party.

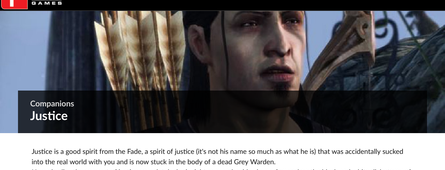
Side with Justice instead of the baroness.

Kill the hostage Eileen, or let her be killed ("A Daughter Ransomed" side quest).

Ally yourself with the Architect in Drake's Fall. He disapproves, but won't leave the party for it.

Crisis Moment

Anders does not have a specific crisis moment. You can only reach a crisis with Anders through poor approval rating. You can beg him to stay when you first hit the approval low point, but he will definitely leave the second time.



Companions
Justice

Justice is a good spirit from the Fade, a spirit of justice (it's not his name so much as what he is) that was accidentally sucked into the real world with you and is now stuck in the body of a dead Grey Warden.
He embodies the concept of justice completely: he is righteous and noble,always focused on the black and white dichotomy of right and wrong, nothing in between. Interesting enough, Justice is the only companion who doesn't need to take the Joining ritual, because the decomposing body of Kristoff has already joined.

Justice at a Glance

Starting Attributes	
Strength	49
Dexterity	31
Willpower	20
Magic	11
Cunning	11
Constitution	20

Class

Warrior

Tank : Unless your main character wants to tank, Justice is the best warrior at holding a party together in the heat of combat.

Starting Talents

Spirit Warrior : Beyond the Veil

Warrior : Powerful, Precise Striking, Taunt

Weapon and Shield : Shield Bash, Shield Pummel, Overpower, Shield Block, Shield Cover, Shield Tactics, Shield Defense, Shield Balance, Shield Wall, Shield Expertise

Location

Blackmarsh Undying (the Fade)

Unlock Condition

In the Blackmarsh Undying, Justice tries to help the villagers who have been trapped in the Fade by the evil baroness. When you slay the baroness, Justice may join the party or leave his body to travel the world unhindered.

Combat Advice

If you choose Justice as your tank warrior, fill out his Weapon and Shield talents as soon as you can, especially Shield Mastery and Assault. Rather than continue with the Precise Striking chain in the Warrior school, concentrate on the Powerful chain instead (better for defense). With your extra talent points, start on the new Second Wind chain, continue with the Spirit Warrior specialization, and fill out the new Weapon and Shield talents, beginning with Juggernaut at level 20. You may want to specialize in Guardian or Champion, or both, to increase Justice's ability to protect the party.

In combat, send Justice into the fray. He excels in the midst of constant melee where his Weapon and Shield talents shine. Once you reach higher levels, invest in the new Weapon and Shield's Carapace (for super defense) and Air of Insolence (the ultimate taunting ability). Justice will take a pounding, and his dead body will live to tell about it.

Personal Quest

After the events in the Blackmarsh, when you return to Vigil's Keep with Justice, you run into Kristoff's wife, Aura. She's very upset to see her dead husband's body walking around with another spirit inside. Justice tries to explain, but Aura runs off. Justice asks you to help find her so he can make amends.

Find Aura in the Amaranthine Chantry, and she and Justice come to an understanding when they finally talk. You can reach friendly status with Justice after this quest completes. For more details see "Justice for Kristoff" in the "Companions" section of the Side Quest chapter.

Gifts

Justice's "plot gift" is a lyrium ring (found in Kal'Hirol's Main Hall); he tells the PC at one point that lyrium calls to him, and that he wishes to have an object made of it. His other gifts are a book on lyrium (warehouse in Amaranthine), Kristoff's locket (Blackmarsh), a book of poetry about the Fade (Vigil's Keep throne room), a box of Kristoff's mementos (Crown and Lion Inn), and the elven prayer for the dead (Wending Wood).

Gift	Found In	Location
Eleven Prayer for the Dead	Crate	Wending Wood
Kristoff's Locket	Pile of Rocks	Blackmarsh
Kristoff's Mementos	Chest	Crown and Lion Inn
Lyrium Ring	Chest	Kal'Hirol's Main Hall
Lyrium: The Voice of the Maker	Bookshelf	Abandoned Warehouse in Amaranthine
Verses of Dreams	Pile of Books	Vigil's Keep Throne Room

Dialogue Choices

As with any companion, Justice has dialogue choices whenever you interact with him, and sometimes he will pull you aside to speak with you about a topic. However, at important points in the game, you should know about plot-specific, area-specific, and throne room-specific dialogue that could change the game for your companion.

Plot-Specific Dialogue

When you find the lyrium ring in the depths of Kal'Hirol (see the Main Hall map in the "Last of the Legion" chapter), Justice appreciates your efforts to bring him happiness and jumps up a significant amount on the approval meter.

Area-Specific Dialogue

The statue of Andraste in Amaranthine invokes a conversation with Justice. As with all the area-specific dialogue possibilities, if you seek to console and befriend Justice, you gain positive approval.

The elven body in the Dalish camp in the Wending Wood, where you finally confront Velanna during "The Righteous Path" quest, presents another opportunity to gain positive approval if you listen sympathetically to Justice.

Taking Justice back to the Crown and Lion, where Kristoff was staying, gets some interesting reactions from the patrons.

Throne Room-Specific Dialogue

Kristoff's chest behind Justice in the throne room gives you more insight into the spirit inhabiting the Grey Warden body. Justice may tell you about his attachment to lyrium in the throne room, which puts you on the path for lyrium ring in Kal'Hirol.

After his talk with Aura in the Chantry, Justice may tell you about his feelings on humanity.

Approval Increase

Encourage him to follow his human side.

Explain how his situation is different from demons.

Appreciate him and thank him.

Seek justice, even vengeance, on any occasion.

Aid Constable Aidan against the smugglers ("Law and Order" side quest).

Rescue the hostage during the "A Daughter Ransomed" side quest, even if you kill the hostage-takers after promising them money.

Kill the Statue of War's foe, the animated magister corpse ("Brothers of Stone" side quest in the Wending Wood).

Tell Velanna she doesn't deserve the honor of being a Grey Warden.

Give Melisse flowers in the final "Making Amends" ("Blight Orphans") side quest.

Take him to Amaranthine for the siege, or leave him and then come back to rescue him. Choose saving the city over saving Vigil's Keep.

Approval Decrease

Be sarcastic with him.

Hold his ignorance against him.

Dismiss his opinions.

Make him feel bad for being in Kristoff's body.

Aid the smugglers against Constable Aidan ("Law and Order" side quest).

Kill Steafan in the cage in Kal'Hirol ("Wrong Place, Wrong Time" side quest).

Kill the hostage or let her be killed ("A Daughter Ransomed" side quest).

Take Velanna into the Grey Wardens, or into the party at all.

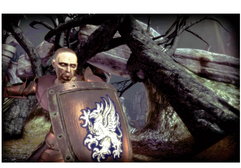
Take Nathaniel into the party.

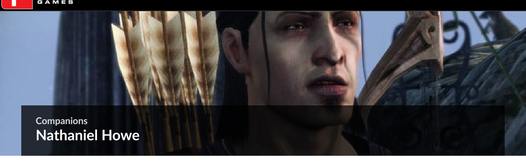
Cause the revered mother difficulties on the orphans' behalf: give the orphans the sermons, or scare Melisse, the orphan's ex-girlfriend, with the scarecrow ("Blight Orphans" side quests).

Release the Architect's messenger during the siege on Amaranthine.

Crisis Moment

Justice will not abide by a decision to help the Architect in Drake's Fall as you approach the Mother's nest. He considers aiding the Architect an evil act. Justice may actually leave and battle the party if you still choose to side with the Architect, although Justice can be persuaded to stay if you're friendly with him.





Companions

Nathaniel Howe

Before the war, the Howe family name was respected. However, Nathaniel's father sided with Loghain during the events of the last Blight and was executed for the treachery. Now the Grey Wardens have assumed his land, and Nathaniel, not believing the accusations against his father, blames the Grey Wardens for his family's ruin. He just wants to restore his family name, and resents that he's been forced to become a pariah, when he believes the Howes deserve better.

Nathaniel at a Glance

Starting Attributes	
Strength	24
Dexterity	38
Willpower	23
Magic	11
Cunning	36
Constitution	10

Class

Rogue

Ranged DPS: The party's resident archer can deal formidable damage if he stays out of melee combat. Nathaniel can break out a backstab in combat if the situation calls for it, but he's more comfortable putting an arrow between the eyes.

Starting Talents

Assassin: Mark of Death

Rogue: Dirty Fighting, Combat Movement, Below the Belt, Deft Hands, Improved Tools

Archery: Melee Archer, Aim, Defensive Fire, Pinning Shot, Crippling Shot, Critical Shot, Arrow of Slaying, Rapid Shot, Shattering Shot

Location

Vigil's Keep Dungeon

Unlock Condition

The private outside the Vigil's Keep throne room informs you that a prisoner has been taken in the dungeon. When you investigate during "The Prisoner" quest, you learn that Nathaniel Howe returned home to try to kill you, then changed his mind and was simply looking for a family keepsake when the guards caught him. You can conscript Nathaniel into the Grey Wardens on the spot, or set him free, in which case he'll return later in a random encounter and ask to join the Wardens.

Combat Advice

If you choose Nathaniel as your party rogue and ranged DPS contributor, spend points to fill out his Archery school as quickly as possible, especially to gain Master Archer and Scattershot. Buy the four new Archery talents as soon as you can (Nathaniel's starting dexterity score will enable you to purchase Accuracy and Arrow Time immediately). His starting Assassin specialization isn't a must, unless you plan on using him in melee frequently. Once you reach level 20, invest in the new Rogue talents, particularly Ghost and Weak Points.

In combat, let Nathaniel hang back out of the usual melee brawl. Pick off targets at range, keying on the tank's target or any enemy low on health. Nathaniel can build up his critical chance to deal the most single-target damage in the group, which is a huge bonus to a party already strong in melee DPS.

Personal Quest

Nathaniel learns from the keep's groundskeeper, Samuel, that his sister Delilah is alive and married to a shopkeeper in the city of Amaranthine ("The Howe Family" side quest). When you find Delilah in Amaranthine (see the Amaranthine map in the Side Quests chapter), Nathaniel and Delilah catch up. Delilah tells him that she's happy to be where she is; that she loves her husband; and that their father, Rendon Howe, was not the hero that Nathaniel has been led to believe. After this conversation, Nathaniel can become friendly with the player.

Gifts

Nathaniel's "plot gift" is a his grandfather's bow (found in Vigil's Keep's basement). He tells the PC at one point about his grandfather the Grey Warden (although he probably failed the Joining) and how he would like to have something of his as a memento.

His other gifts are his sister's letters (Vigil's Keep's basement), locksmith's tools (Smuggler's Cave), a bronze sextant (Wending Wood), a golden vase (a store in Amaranthine) and a whetstone (Kal'Hirol).

Gift	Found In	Location
Bronze Sextant	Corpse	Wending Wood
Delilah Howe's Letters	Howe Correspondence	Vigil's Keep Basement
Golden Vase	Octham's Goods	Amaranthine
The Howe Bow	Bag	Vigil's Keep Basement
Locksmith's Tools	Crate	Smuggler's Cove
Whetstone	Stone Container	Kal'Hirol

Dialogue Choices

As with any companion, Nathaniel has dialogue choices whenever you interact with him, and sometimes he will pull you aside to speak with you about a topic. However, at important points in the game, you should know about plot-specific, area-specific, and throne room-specific dialogue that could change the game for your companion.

Plot-Specific Dialogue

When you find the Howe Bow at the end of the "Dark Theurge" side quest chain, Nathaniel will be most grateful. Expect a large approval increase.

Area-Specific Dialogue

The statue of Andraste in Amaranthine triggers a discussion with Nathaniel. A tree just inside the Blackmarsh triggers a discussion with Nathaniel about the swamp's creepy landscape and haunted reputation. If you are a male human noble from Dragon Age: Origins, Nathaniel's sister Delilah will make disparaging remarks about the suitor her father had found for her—and then realize it was you.

Throne Room-Specific Dialogue

Behind where Nathaniel stands in the throne room hangs a portrait of his mother. He's not too happy with her, but if you sympathize with his tough times, you can gain some positive approval. Nathaniel may tell you about his grandfather who was a Grey Warden. After his talk with Delilah, Nathaniel may apologize for misjudging you.

Approval Increase

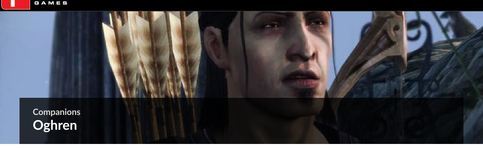
Speak well, or at least soothingly, of his family.
Encourage him to redeem his family name as a Grey Warden.
Allow him to see himself as a hero.
Allow Velanna to join the party.
Aid Constable Aidan against the smugglers during the "Law and Order" side quest.
Give money to the merchant Mervis for the families of the slain in Amaranthine.
Give flowers to Melisse, an ex-girlfriend of one of the orphans ("Blight Orphans" side quests).
Offer to help Keenan in the Silverite Mine ("Last Wishes" side quest).
Help the Statue of Peace (the Wending Wood's "Brothers of Stone" side quest).
Rescue Eileen, even if it means killing her kidnappers ("A Daughter Ransomed" side quest).
Gently look after the dog in the keep basement.
Side with Justice rather than the baroness.
Choose him to go to Amaranthine for the siege (if he is warm or higher).
Rescue him if you leave him behind for the siege.
Save Vigil's Keep instead of the city of Amaranthine.

Approval Decrease

Insult his family.
Dismiss his quest.
Aid the smugglers against Constable Aidan ("Law and Order" side quest. Give up Anders to the templars in the warehouse during Anders's "Freedom for Anders" personal quest. Cause the revered mother trouble on behalf of the orphans, or give the orphans the sermon ("Blight Orphans" side quests).
Kill Steafan in the cage in Kal'Hirol during the "Wrong Time, Wrong Place" side quest.
Kill Eileen or let her die ("A Daughter Ransomed" side quest).
Don't choose him to go to Amaranthine for the siege.
Release the Architect's messenger during the Amaranthine siege.
Deny the Architect and miss the opportunity to end the Blights.

Crisis Moment

Nathaniel Howe does not have a specific crisis moment. You can only reach a crisis with Nathaniel through poor approval rating. You can beg him to stay when you first hit the approval low point, but he will definitely leave the second time.



Companions

Oghren

One of your fellow companions from Dragon Age: Origins has returned! Oghren, the gruff but amusing dwarf warrior, beats you to the keep to take on the darkspawn. This time around he's ready to become a Grey Warden and really hew some heads.

Oghren at a Glance

Starting Attributes	
Strength	48
Dexterity	18
Willpower	23
Magic	10
Cunning	10
Constitution	24

Class

Warrior

DPSer or Off-Tank : In a pinch, Oghren can tank in place of Justice. If you do that, however, you negate his specialization: Berserker. The Berserker talents increase damage, which fits into a DPS role, and the only way a stamina-deprived Berserker can hold threat well is to out-damage everyone else.

Starting Talents

Berserker : Berserk

Warrior : Powerful, Threaten, Bravery, Death Blow

Two-Handed : Pommel Strike, Indomitable, Stunning Blows, Sunder Arms, Shattering Blows, Sunder Armor, Destroyer, Mighty Blow, Powerful Swings, Two-Handed Strength

Location

Vigil's Keep (Inner Keep)

Unlock Condition

During the "Assault on Vigil's Keep" introduction, you meet Oghren near the end of your run through the Inner Keep before you encounter the Withered. He joins you automatically and wants to become a Grey Warden.

Combat Advice

Fill out Oghren's Berserker specialization and Two-Handed school as soon as you get the chance, especially Critical Strike. By adding all the Two-Handed talents, including all the way up to the new Reaving Storm, you can seriously increase his damage potential and make him an excellent DPS addition to the party. As with rogues, Oghren should allow the tank to control enemy groups and then attack from the rear or flank. Because Oghren is so durable, he doesn't have to watch his spacing as much as a rogue, and he can off-tank easily if you need him to grab a creature that the tank can't hold threat on. His skills are best used with heavy or massive armor, either sword and shield or two-handed weapons, with a crossbow for ranged attacks.

Berserk ramps up Oghren's damage and a well-placed Mighty Blow or Critical Strike can hammer an adversary. Sunder Armor rips through a heavily defensive melee attacker, while Pommel Strike and Stunning Blows can knock an enemy out of combat for several seconds. Two-Handed Sweep is great at the end of the fight, or at striking multiple foes—as long as you don't steal threat away from the tank. Final Blow deals massive damage but drains the rest of Oghren's stamina. The new Reaving Storm can wreck multiple foes in a tight melee free-for-all.

Personal Quest

Shortly after your adventures begin, Oghren's wife, Felsi, tracks him down at Vigil's Keep. She angrily accuses him of abandoning their family, which he doesn't disagree with, but he tells her that marriage really isn't for him. Regardless of whether you say anything or simply sit back and listen to the whole thing, Oghren will be eligible for friendly status after the conversation.

Gifts

Oghren's "plot gift" is a toy horse (found in the Blackmarsh), and he tells you that he wants his own horse one day. His other gifts are all alcohol-related, and may be found at the Crown and Lion, Hubert's Den, the warehouse in Amaranthine, Knotwood Hills, and the Vigil's Keep basement.

Gift	Found In	Location
Aqua Magus	Crate	Abandoned Warehouse in Amaranthine
"Dragon-Piss"	Crate	Hubert's Den in Amaranthine
Hirol's Lava Burst	Chest	Knotwood Hills
Mackay's Epic Single Malt	Crate	Crown and Lion Inn
Toy Horse	On the Ground	Blackmarsh
West Hill Brandy	Crate Vigil's	Keep Basement

Dialogue Choices

As with any companion, Oghren has dialogue choices whenever you interact with him, and sometimes he will pull you aside to speak with you about a topic. However, at important points in the game, you should know about plot-specific, area-specific, and throne room-specific dialogue that could change the game for your companion.

Plot-Specific Dialogue

Bizarre as it might sound, Oghren's special gift is a toy horse, which brings back fond memories for the dwarf. You'll get a big approval bump by handing him this prize and not making fun of him.

Area-Specific Dialogue

If you interact with the boat when you first enter the Fade, Oghren spouts angrily about how dwarves don't dream and aren't supposed to be in the Fade. There is an anvil in Kal'Hirol that Oghren talks to you about. At the inn in Amaranthine, interact with the message board outside; Oghren pulls you aside and talks to you too.

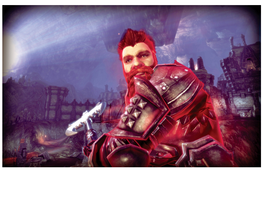
Throne Room-Specific Dialogue

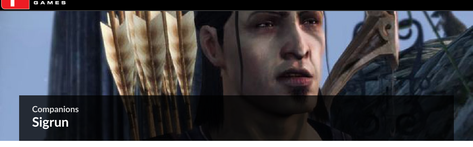
If you interact with the cask behind Oghren, you catch the dwarf in a drunken stupor. Be careful not to offend him too much or you'll lose approval. You can interact with the cask multiple times for different drunken reactions from Oghren. While in the throne room, Oghren will ask about Grey Warden dreams. Oghren will also ask about Grey Warden salaries in the throne room, which is when you find out about his desire for a pony. After Felsi's visit, if your relationship is warm, Oghren will eventually discuss his feelings of guilt about leaving his family.

Approval Increase
Appreciate him. Occasionally "straight talk" with him.
Encourage him to try harder in the future.
Tease him.
Ask how he's feeling.
Tell him he's a great warrior.
Recruit him.
Recruit Sigrun to the Grey Wardens.
Help the Statue of War ("Brothers of Stone" side quest).
Kill the hostage-takers ("A Daughter Ransomed" side quest).
Side with either Justice or the baroness, as long as there's a fight to be had!
Help the orphans' with their pranks against the revered mother and Melisse ("Blight Orphans" side quests).
Take him with you to the siege on Amaranthine, especially if you're a woman.
Leave him behind from the siege, but come back to rescue him.
Save Vigil's Keep instead of Amaranthine during the siege.
Side with the Architect to get rid of the Blights.
Approval Decrease
Tell him he did a bad thing with his family.
Make fun of him (especially about Branka, his ex-wife who left him for a woman).
Mock him for drinking too much.
Leave Sigrun behind.
Kill Eileen ("A Daughter Ransomed" side quest).
Deny the Architect and miss the chance to get rid of the Blights.

Crisis Moment

Oghren does not have a specific crisis moment. You can only reach a crisis with Oghren through poor approval rating. You can beg him to stay when you first hit the approval low point, but he will definitely leave the second time.





Companions

Sigrun

Sigrun was a former casteless cutpurse, who was convicted of a crime and sentenced to fight for the Legion of the Dead. She went with the Legion to Kal'Hirol, where the darkspawn slaughtered her entire regiment. Sigrun survived when she ran away in fear. She wishes to return to see if she can avenge the Legion.

Sigrun at a Glance

Starting Attributes	
Strength	47
Dexterity	46
Willpower	20
Magic	10
Cunning	15
Constitution	16

Class

Rogue

Melee DPSer : With all the Dual Weapon talents in her repertoire, Sigrun is made for dealing heavy damage in melee combat. You can tweak her to tank too if you take the rest of the Legionnaire Scout specialization.

Starting Talents

Legionnaire Scout : Mark of the Legion

Rogue : Dirty Fighting, Below the Belt, Deadly Strike, Lethality, Stealth

Dual Weapon : Dual-Weapon Training, Dual-Weapon Finesse, Dual-Weapon Expert, Dual-Weapon Mastery, Dual Striking, Riposte, Dual-Weapon Sweep, Flurry, Momentum

Location

Knotwood Hills

Unlock Condition

During the "Last of the Legion" main quest, you come upon Sigrun at the entrance to Kal'Hirol, being attacked by darkspawn. The PC can rescue her and ask her to join them, or let her go on her own.

Combat Advice

When spending Sigrun's points, you can fill in the Rogue and Dual Weapon schools, and the Legionnaire Scout specialization. Start with the Dual Weapon and Rogue schools. You can fill those in early, because the older talents don't have level restrictions. Start with Cripple, Punisher, and Whirlwind in Dual Weapon, then pick up Evasion, Combat Movement, Coup de Grace, and Feign Death in Rogue. Once you hit the level thresholds for the new Rogue talents, grab them immediately.

The Rogue and Dual Weapon talents will increase your effectiveness in melee combat. Let the tank grab the threat and then strike away from the rear. If you want to gain more toughness and tank a little, dip into the remaining three Legionnaire Scout talents: Strength of Stone, Endure Hardship, and Blessing of the Ancestors.

Personal Quest

If you have Sigrun in your party, you will eventually bump into the merchant Mischa in Amaranthine, who recognizes Sigrun and accuses her of being a thief and of betraying their friendship. Later, Sigrun will ask if you can go back to find Mischa again. Mischa is at the Crown and Lion Inn. Sigrun offers a ring as an apology for her previous wrongdoings. The player can let Sigrun give her the ring, or offer money instead to pay the debt. Mischa is satisfied with either of these, and Sigrun feels better about having let down her friend (and will be "friendly" eligible at this point).

Gifts

Sigrun's "plot gift" is a spyglass (found in the Silverite Mine). Her other gifts are a snow globe (can be bought in a store), a toy chariot (Smuggler's Cave), a potted plant (outside the Amaranthine Chantry), a book on warriors (throne room) and soap on a rope (Vigil's Keep dungeon).

Gift	Found In	Location
Potted Plant	Pot	Outside Amaranthine Chantry
Snow Globe	Glassric's Wares	Amaranthine
Soap on a Rope	Supplies	Vigil's Keep Dungeon
Spyglass	Soldier's Corpse	Silverite Mine
Toy Chariot	Toy Box	Smuggler's Cove
The Warrior's Heart	Pile of Books	Vigil's Keep Throne Room

Dialogue Choices

As with any companion, Sigrun has dialogue choices whenever you interact with her, and sometimes she will pull you aside to speak with you about a topic. However, at important points in the game, you should know about plot-specific, area-specific, and throne room-specific dialogue that could change the game for your companion.

Plot-Specific Dialogue

Sigrun has conversations all through Kal'Hirol as she guides the party through the area.

Area-Specific Dialogue

Sigrun has a conversation about a tree in the Wending Wood. At a market stall in Amaranthine, Sigrun worries about being able to afford to buy things.

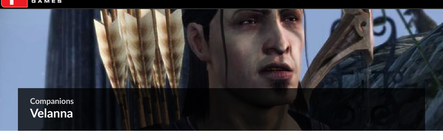
Throne Room-Specific Dialogue

If you examine the books behind Sigrun in the throne room, she engages in conversation with you about literature and reading. Keep a friendly tone with her and you'll gain positive approval. Sigrun discusses her desire for a spyglass. She talks about her guilt over betraying Mischa after meeting the merchant in Amaranthine. After making amends with Mischa, Sigrun thanks you for recruiting her to the Grey Wardens, but swears she will return to the Legion after she has finished her tasks with the Grey Wardens and Amaranthine.

Approval Increase
Stick up for her.
Give her your trust.
Understand that the Legion is important to her, and she still belongs to it.
Talk about how the Grey Wardens differ from the Legion.
Help Constable Aidan against the smugglers ("Law and Order" side quest).
Give money to the merchant Mervis to help the families of those who were killed in Amaranthine.
Give Melisse flowers ("Blight Orphans" side quests).
Kill the kidnappers ("A Daughter Ransomed" side quest).
Help the Statue of Peace ("Brothers of Stone" side quest in the Wending Woods).
Help Keenan send his last words to his wife ("Last Wishes" side quest).
Ask Velanna to join the Grey Wardens. Side with Justice.
Choose her to go to the siege of Amaranthine.
Rescue her if she's left behind at the keep.
Kill the Architect's messenger who comes to Amaranthine after the siege.
Save Amaranthine during the siege.
Approval Decrease
Denigrate her choices as stupid.
Kill Steafan while he is caged in Kal'Hirol ("Wrong Place, Wrong Time" side quest).
Help the orphans' with their scarecrow or itching powder pranks ("Blight Orphans" side quests).
Give Anders over to the templars.
Kill or allow Eileen to be killed ("A Daughter Ransomed" side quest).
Side with the baroness.
Let the Architect's messenger who comes to Amaranthine after the seige go.

Crisis Moment

Sigrun will not abide by a decision to help the Architect in Drake's Fall as you approach the Mother's nest. She considers aiding the Architect an evil act. Sigrun may actually leave and battle the party if you still choose to side with the Architect, although Sigrun can be persuaded to stay if you're friendly with her.



Companions

Velanna

An angry elf who intensely dislikes humans because of what they have done to her people in the past, Velanna runs into the party as the primary figure in "The Righteous Path" main quest. Velanna is strong-willed and often defensive, and she has a tendency to lash out at people. She is, however, devoted to her people and very protective of her sister, Seranni, her only family.

Velanna at a Glance

Dexterity	10
Willpower	40
Magic	50
Cunning	18
Constitution	20

Class

Mage

Ranged DPS : With death magic, nature magic, and a little fire thrown in for good measure, Velanna can slay or stifle even the most ruthless of enemy mobs.

Starting Talents

Keeper : One with Nature

Mage : Arcane Bolt

Primal : Flame Blast, Flaming Weapons, Fireball, Inferno, Rock Armor, Stonefist

Creation : Heal

Entropy : Vulnerability Hex, Affliction Hex, Misdirection Hex, Drain Life, Death Magic, Curse of Mortality

Location

Wending Wood

Unlock Condition

Velanna will interact with the party a number of times in the Wending Wood. Eventually she will battle you as you confront her on the truth about what's happened to her clanmates. When she finally surrenders, she may join your party.

Combat Advice

You can take Velanna in many different ways with her extra talent points. Assuming you don't need an extra healer, fill out her Entropy school with Death Hex and Death Cloud. Pick up the last two Primal earth spells: Earthquake and Petrify. In keeping with her nature theme, buy the three remaining Keeper abilities: Thornblades, Replenishment, and Nature's Vengeance. The rest of her points can go toward new Mage school spells and another Primal attack chain.

In combat, avoid melee and drop powerful AoEs on enemy groups, such as Earthquake, or blast them dead with single-target spells such as Drain Life. If the enemy comes to Velanna, use One with Nature to set up a natural barricade around her. With the various upgrades to Keeper, she can root and crush opponents.

Personal Quest

With Velanna in your party, you may come across a random encounter of Dalish elves. You learn that Velanna was cast out of her clan because of her fanatical hatred of humans. Later on, she may confide in you how this came about. For more details see "Velanna's Exile" in the "Companions" section of the Side Quest chapter.

Gifts

Velanna's "plot gift" is a blank journal (found in the Chantry). She tells you at one point that she wishes the Dalish had more records of their history and stories, and you give her the blank book to write them in. Her other gifts are a discarded journal (Amaranthine), shiny malachite (Silverite Mine), an ornate silver bowl (Blackmarsh), an elven runestone (Deep Roads), and a carved greenstone (Kal'Hirol).

Gift	Found In	Location
Blank Journal	Pile of Rocks	Amaranthine Chantry
Carved Greenstone	Stone Container	Trade Quarter in Kal'Hirol
Discarded Journal	Crate	Amaranthine
Elven Runestone	Pile of Rocks	Vigil's Keep Deep Roads
Ornate Silver Bowl	Pile of Filth	Blackmarsh
Shiny Malachite	Pile of Rocks	Silverite Mine

Dialogue Choices

As with any companion, Velanna has dialogue choices whenever you interact with her, and sometimes she will pull you aside to speak with you about a topic. However, at important points in the game, you should know about plot-specific, area-specific, and throne room-specific dialogue that could change the game for your companion.

Plot-Specific Dialogue

Inside the Silverite Mine, Velanna has several conversations relating to the quest as she guides you from chamber to chamber. Velanna wants desperately to save her sister; she is willing to spare the Architect's life in Drake's Fall just to get her sister back. If you give her the blank journal, at first she scoffs at the gift. However, keep your tone friendly and eventually she comes around and you gain positive approval.

Area-Specific Dialogue

At the statue of Andraste in the Vigil's Keep courtyard after you've upgraded the walls, Velanna will start up a conversation with you. Velanna has a conversation with some city elves outside Amaranthine about a Vhenadahl tree in the city.

Throne Room-Specific Dialogue

Velanna may tell you about her sorrow that the Dalish have lost their history. After completing her personal quest, if you are warm with her, Velanna may confide in you what happened with her clan. After this conversation, you are eligible to be friendly.

Approval Increase

Stand up for her.

Tell her she's interesting.

Show her new ideas or perspectives on the world.

Give her hope for finding her sister.

Offer to aid her sister Seranni when you meet her in the Silverite Mine.

Don't tease her in front of the merchant Mervis, ("The Righteous Path" side quest). Stand up for yourself with the Dark Wolf ("A Brewing Conspiracy" side quest).

Speak harshly to the bartender or the innkeeper Inside the Crown and Lion Inn.

Steal the sermons for the orphans ("Blight Orphans" side quests).

Stick up for Anders with the templars in the warehouse during the "Freedom for Anders" side quest.

Kill the kidnappers during the "A Daughter Ransomed" side quest.

Side with the baroness to get out of the Fade.

Choose her to fight at the siege of Amaranthine.

Rescue her if she's left behind at the keep.

Save Vigil's Keep instead saving the city during the siege.

Approval Decrease

Lump her in with city elves.

Call her on her harshness.

Apologize on her behalf.

Reminded her of what she couldn't have.

Defend the Chantry, humans, or city elves.

Tell her she made a bad decision, or that sister can't be rescued.

Ignore her, tease her, or be sarcastic with her.

Speak harshly to her sister Seranni when you meet her in the Silverite Mine.

Take Keenan's side quest ("Last Wishes").

Insult her for being cynical about Keenan's request ("Last Wishes" side quest).

Tease her in front of the merchant Mervis ("The Righteous Path" side quest).

Give the sylvanwood to the Chantry ("From the Living Wood" side quest).

Kill Eileen, or allow her to be killed during the "A Daughter Ransomed" side quest.

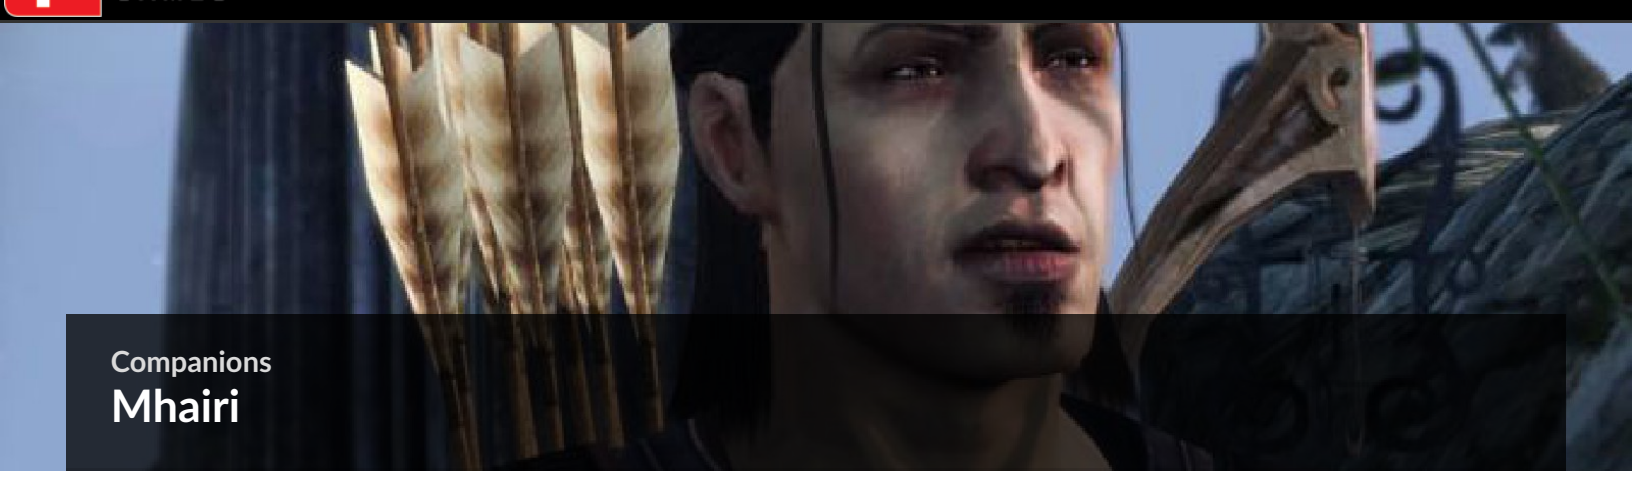
Side with Justice to get out of the Fade.

Kill the Architect before the final battle against the Mother.

Help the Architect before the final battle against the Mother.

Crisis Moment

Velanna does not have a specific crisis moment. You can only reach a crisis with Velanna through poor approval rating. You can beg her to stay when you first hit the approval low point, but she will definitely leave the second time.



Companions

Mhairi

Mhairi is a new recruit to the Wardens. She joins you just outside the keep and is as surprised as you to find it under attack. She is determined and eager to prove herself, and her warrior talents will prove helpful in the battle to retake Vigil's Keep from the darkspawn. Unfortunately, becoming a Grey Warden is not as easy as wielding a sword and repeating an oath. After the "Assault on Vigil's Keep" quest completes, Mhairi perishes in the Joining ritual and another shining spirit is sacrificed to the cause.

Tank : Unless you are a tank yourself, Mhairi and her Weapon and Shield talents will help keep the darkspawn off of you. Let her soak up damage while you hit the enemy back hard.

Starting Talents

Champion : War Cry, Rally, Motivate, Superiority

Warrior : Powerful, Threaten, Bravery

Weapon and Shield : Shield Bash, Shield Pummel, Overpower, Shield Block, Shield Cover, Shield Tactics, Shield Mastery, Shield Defense, Shield Balance, Shield Wall, Shield Expertise.

Location

Vigil's Keep

Unlock Condition

You begin with Mhairi when you first arrive at Vigil's Keep at the beginning of the game.

Combat Advice

It's just you and Mhairi at the beginning of your story as you approach Vigil's Keep. If you're a warrior yourself and specced to Sword and Shield, plunge into the fray and let Mhairi serve as extra damage. If you aren't a tank, allow Mhairi to take the lead and grab threat from approaching darkspawn. Give her a few seconds to hammer at a foe, then break out your offense. A mage can sit back and pick off targets with damage spells (being careful not to catch Mhairi in any AoE attacks), while melee warriors and rogues can sneak in from the side or rear to devastate the enemy.

For the most part Mhairi is the party's early damage shield, sucking up as many hits as possible, and should think defense first. Trigger Shield Bash and Shield Pummel when you want to keep foes off balance, especially if they break free to harass other party members. When the fight is under control, Mhairi can add a little extra offense herself with Overpower on the main enemy combatant.

Even when your second warrior, Oghren, joins up with you later in the keep, Mhairi should remain the tank. Oghren's talent lies in DPS, and though he can tank in a pinch by dealing large amounts of damage to keep the enemy's attention, Mhairi's talents more naturally fit into defensive tactics. She's a reliable rock, even when the darkspawn tide swells and threatens to sweep you all away.

Equipment

Mhairi is a warrior and a champion; she can wear any kind of armor and fights with a sword and shield. Save good drops for later companions, unless you need to load her up temporarily to clear out Vigil's Keep.

Gifts

Because Mhairi doesn't survive long, she has no specific gifts associated with her. Don't waste any gifts on her, even though she's a loyal companion during your run through Vigil's Keep. It's much better to save any gifts you may find for future companions.

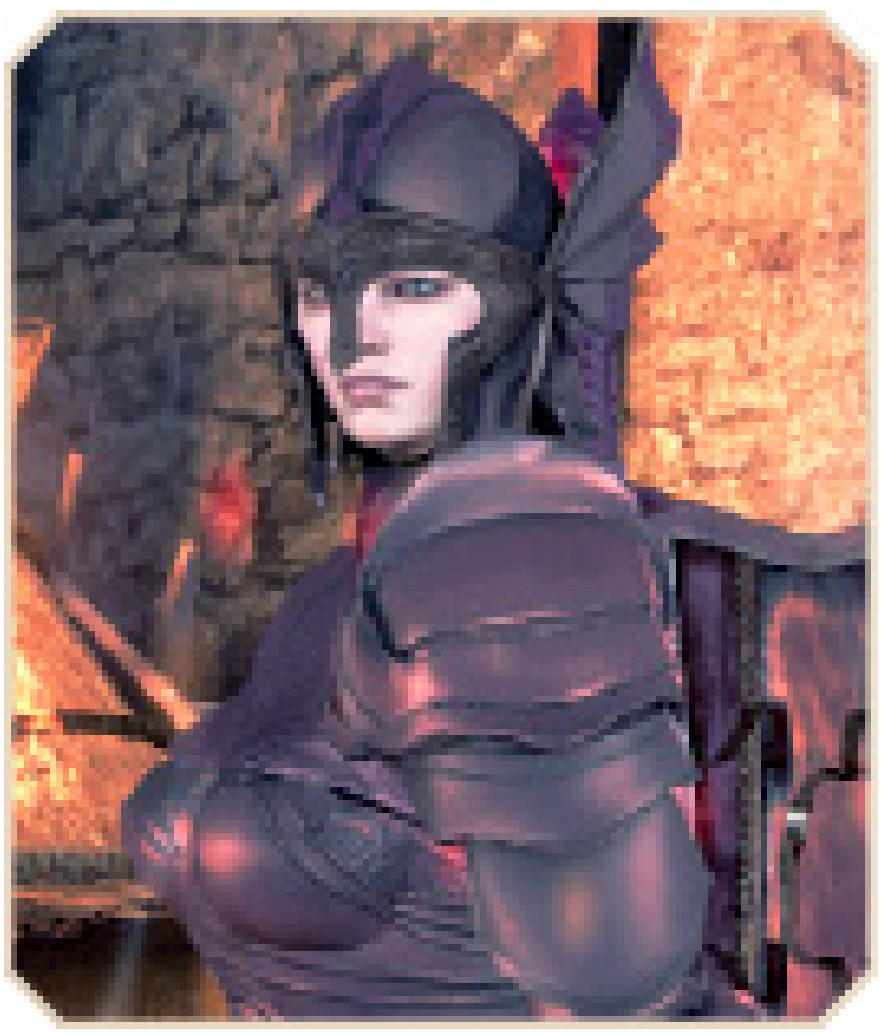
Dialogue Choices

Mhairi introduces the player to the keep, and later voices the shock the player must feel at finding the keep under siege by the darkspawn, even after the Blight is finished.

Approval Increase
Make her feel necessary to the cause.
Try to help her Warden Friend, Rowland.
Approval Decrease
Patronize her as a new recruit.
Ask her to hold back Kill her Warden friend Rowland.

Crisis Moment

It's a rather big one, as Mhairi involuntarily leaves the party when she fails the Joining. All other potential companions you meet are safe from the perils of the Joining. Alas, poor Mhairi didn't have the right genes for the job.



Abu

First appearance: Hot Pie's Pies

Abu, a minor character in A Clash of Kings, first met a goatherd named Gage. Shortly afterward, Abu agreed to accompany Gage to Harrenhal, where Gage's mother was a servant. Abu was killed by Ser Amory Lorch's men when they attacked the Harrenhal refugees. Abu's body was caught by the Tully Blackfish, who took the body to Riverrun and had it buried in the crypts.

Equipment

Note

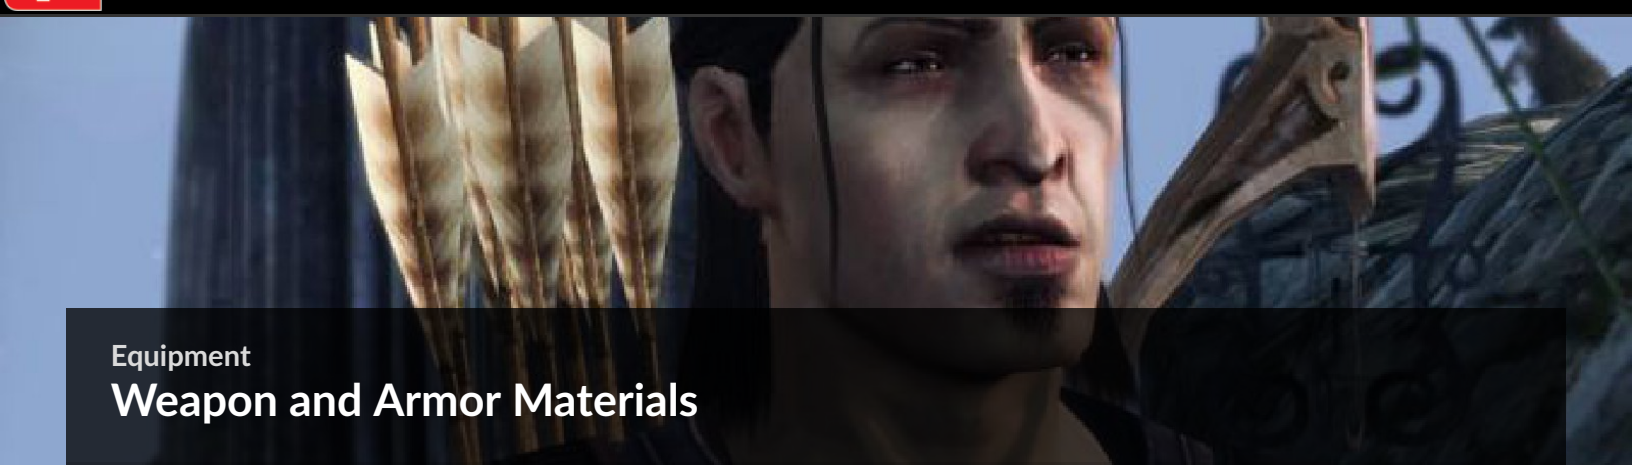
This chapter includes only the equipment found in Awakening. Although you can import other equipment from Origins with your character, you will quickly want to upgrade to the better Tier 8 and Tier 9 equipment found only in Awakening.

Suit up in the Sentinel armor, intimidating foes with a look as black and scary as the deepest abyss, and you'll love to see your warrior strut into every fight. Gather the exotic components and ask Master Wade to craft you Vigilance, the mightiest sword in the game, and your PC will cut through all but the strongest monsters with a stroke or two. Each upgrade to your gear is another step on the path toward adventuring godhood.

All party members need good weapons, helmets, gloves, chest pieces, boots, and various accessories. Magical or otherwise, these items bulk up your defense, improve attribute scores, and give you special powers. Whatever you don't fit in your character equipment slots goes into your party inventory, which you can draw from with any character.

Tip

Companions back at Vigil's Keep can hold onto items as well. If you don't have enough space in your inventory to store everything, load up your extra companions or drop items in the Personal Storage chest in the throne room.



Equipment

Weapon and Armor Materials

When purchasing weapons and armor from vendors or upgrading from monster drops or treasure finds, pay close attention to the items' material types. The game breaks items down into nine different tiers in several different materials. For example, Tier 1 iron won't provide as much damage or damage reduction as the Tier 4 veridium. In general, a higher tier means a better item, if you have the requirements to use it. However, some items may hold special bonuses that override the tier system. If, for example, you're a warrior and find a Tier 9 weapon with bonuses to cunning, you may want to hold on to your old Tier 8 weapon with its strength bonus. Unless you rely on a lot of your old equipment, in Awakening, you will generally deal only with Tier 8 and Tier 9 gear.

Most of your equipment comes from vendors, monsters, or treasure; however, you can also find very special items as you complete side quests. You can collect the full set of the super-cool Sentinel armor, for example, in the Blackmarsh during your brush with the First and on the "Tears in the Veil" side quest.

Eyewear - Weapons

Tue Jun 15

If your character loves to rock and stack, you'll be happy to collect every weapon. Even if you don't jump into the thick of it, you'll want to have a few options on hand for different situations and types of enemies.

What weapon is the right fit for you? First, identify what sort of weapon you want to use and then look at each melee weapon, a new hammer, or a ranged rifle that has a higher damage rating. Check out the weapon's tier level. The range is 1 to 5, with 5 being the highest. Tier 5 weapons are the most powerful, but you can't get your hands on them right away—you have to other weapons you have in inventory (or at local vendors) and choose the highest damage rating or tier 5 weapon (which don't matter. For stats on the general Tier 4 and Tier 5 weapons in Awakening, see the following table.

Certain weapons have restrictions, such as you need a [stat](#) and [proficiency](#) with attribute bonuses and special [abilities](#) to use them. Check out the [Weapon Skills](#) section for more details. Each weapon has a set number of rune slots, which determines how many runes you can equip. Weapons also have the most important factor: if you use style is more versatile, bonuses tend to be the way to go. Ability, you will find a weapon that has the maximum damage score for your level range and bonuses to power your character up.

Tip

Higher tier weapons may come with rune slots (generally three), which you can to customize your weapon with [Runes](#). Runes can be purchased from vendors or found in the world. Runes can be removed from weapons and armor if they're better to hold a rune and choose different runes to equip. Runes can be removed from weapons and armor by talking to [Runesmiths](#).

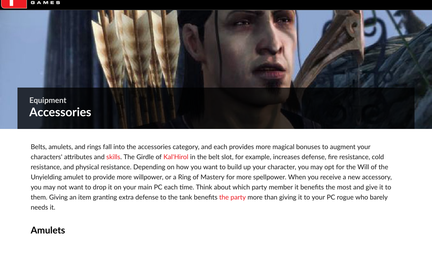
K



Equipment

Accessories

Belts, amulets, and rings fall into the accessories category, and each provides more magical bonuses to augment your characters' attributes and skills. The Girdle of Kal'Hirol in the belt slot, for example, increases defense, fire resistance, cold resistance, and physical resistance. Depending on how you want to build up your character, you may opt for the Will of the Unyielding amulet to provide more willpower, or a Ring of Mastery for more spellpower. When you receive a new accessory, you may not want to drop it on your main PC each time. Think about which party member it benefits the most and give it to them. Giving an item granting extra defense to the tank benefits the party more than giving it to your PC rogue who barely needs it.

Runes

Ambassador Cera enchants weapons and armor for you in the Vigil's Keep throne room. Any time you find or buy a rune, check back with Ambassador Cera to see about slotting the rune in your present equipment. You can use a rune if your weapon or armor has an open slot.

When you speak to Cera, the rune interface shows you which weapons and armor have rune slots in your inventory, who wields the weapon or wears the armor, and the available runes with which to enchant. Simply drag the rune into the open weapon or armor slot to add its ability to the item. If you want to make a change, drag the active rune back to the rune inventory section and add a new rune to the weapon or armor.

There are seven rune categories, which increase in potency with each level: novice, journeyman, expert, master, grandmaster, masterpiece, and paragon. A novice flame rune, for example, grants +1 fire damage, while a grandmaster flame rune gives +5. See the following charts for weapon, armor, and special rune powers.

Weapon Rune Powers

Rune Name	Ability
Cold Iron	Damage vs. Spirits
Dweomer	Spell Resistance
Flame	Bonus Fire Damage
Frost	Bonus Cold Damage
Hale	Bonus Physical Resistance
Lightning	Bonus Electrical Damage
Paralyze	Chance to Root Target
Silverite	Damage vs. Darkspawn
Slow	Reduce Movement Speed

Armor Rune Powers

Rune Name	Ability
Barrier	Increases Armor
Immunity	Cold, Electricity, Fire Resistance
Reservoir	Increases Willpower
Stout	Increases Constitution
Tempest	Defense Against Missiles

Special Rune Powers

Rune Name	Ability
Amplification	Increase Cold, Fire, Lightning, Nature, and Spirit Damage +5
Diligence	Flank Immunity
Elemental	Deals Chromatic Damage (+1 all damage types at once)
Endurance	Fatigue Reduction
Evasion	Increases Dodge Chance
Intensifying	Increases Crit Chance and Crit Damage
Menacing	Increases Hostility
Momentum	Grants Haste

As you collect runes and add them to your weapons and armor, parcel them out based on party needs and class specialties. The damage-based runes generally go to DPS characters or the tank. Hale and barrier, of course, go to a tank, while dweomer and reservoir tend to go on mages (they tend to draw the return fire from enemy spellcasters in the rear and need the extra mana).

Paralyze and slow runes are excellent on a tank or DPSer weapon to keep the enemy in place while they wallop on them. Special runes can go anywhere, based on your characters' tactics and your play style. As with everything, play to your party members' strengths and mind their weaknesses. If your tank keeps getting hurt by ranged fire, naturally give him the tempest rune.

Crafting

Trap-Making creates simple but effective mechanisms for snaring and injuring enemies, such as claw traps and cutting traps. Poison-Making extracts potent poisons from deadly plants and venom from reptiles to coat weapons with various effects detrimental to your enemies. Herbalism is absolutely essential in any group, and usually a mage will take up the craft due to their high magic score. Trap-Making is the only craft that requires the Dexterity stat and points to speed on it. Any warrior or rogue who wants a little extra kick and nice crowd-pleasing tricks can learn it.

Poison-Making and Runecrafting (PM and RC) can be quite expensive to level. Runecrafting can seriously increase the effectiveness of your [armor](#) as long as you have the runes to spend on it (it's expensive). One of your characters should be trained in the [Runecrafting](#) Rune Mastery feat. Your PC should probably spend skill points on the critical talents, such as Coercion and [Combat](#) Training (for warriors and rogues), which each companion can take a crafting skill to maximize your effectiveness in that craft.

Now that you've decided you want to study up on Herbalism, Poison-Making, or Trap-Making, what requisites do you need? At what cost can you make each crafting item? Read through the following tables for the [essentials](#) you need to craft every item in the game.

Equipment

Usable Items

Anything you can craft, and many of the crafting components, can be considered usable items. The most common ones are health poultices and tyrium potions (Herbalism), poisons (Poison-Making), and trap kits (Trap-Making). Click on the item and you gain the effect, using up one of the item in the process.

If you use an item often, add it to your quickbar/shortcut for easy access. Something that early adventurers may not be aware of is that crafting reagents also have effects if used directly. For example, deep mushroom restores 10 stamina, while lifestone gives +10 nature resistance for one minute. In general, though, if you plan on crafting, hold off on the small one-time reagent effects to gain the larger effects from crafted items.

Gifts

Note

See the "Gifts" section of the Companions chapter for the complete rundown on gifts, approval ratings, distribution recommendations, and more.

Everyone loves to receive gifts, even grumpy, never-smiling companions such as Velanna. Presenting a gift to a companion raises their approval rating, and you always want your approval rating with a companion as high as possible. Approval rating affects how the companion responds to you, including inviting you on personal quests, following your lead, or even leaving the group permanently.

As you journey around the land, you will find or buy gifts. Consult the gift charts here for the companion who would best benefit from the new gift you have. If you deliver the gift to the correct companion, you will gain a big approval boost for that companion. If you give the special gift to another companion, expect only a minor approval boost (after a while it will only be +1). If you don't care too much about a companion—for example, you only use Justice instead of Oghren—feel free to give that companion's gifts away to whomever you want to improve relationships with more.

There are also many gifts that provide a small approval boost but can be given to any companion. You need all the gifts you can get to raise a companion's level up to 100 if you ever want to max out a companion's affection for you.

Update 1.1

Minion Abilities

Each player with Brawlhalla Gold's Bandit Abilities. If some players don't have a unique ability, they'll have a unique ability of the Bandit's type.

Minions are Brawlhalla's version of summons. They are controlled by you and are destroyed if they leave the stage without a minion party.

Minions are no longer affected by stuns, statuses or knockbacks. All they can do is be attacked or used. This makes for a challenging way to destroy minions, as you can't just knock them off the stage. Minions also have a new health bar to show their health.

Tip

Minions have scaling health, so getting the minion into the arena, even if it's particularly difficult and costly, boosts, and it's often worth it. Minions also have a new health bar to show their health.

Tip

There are many minion names using the Spawnables font. For example, you could have a Bronzebeing whether a minion Bronze or Diamond. Minion names are the same. You could, however, type minion names, but you can't use the Spawnables font.

Creature classes are included when the Creature type is Minion. Each class has unique stats and attack/ability attributes and general multiple times. The possible monster specific classes are:

Class	Description
Minotaur Trunk	
Minotaur Damage	
Minotaur Resistance	
Minotaur Balanced Physical	
Minotaur Balanced Elemental	
Minotaur Balanced Normal	
Minotaur Balanced Special	

Creature attributes are all existent or non-point-scale, their they can be found. The possible attributes exist, there but are not:

Type	Description
Minion	
Very High	
High	
Above Average	
Average	
Moderate	
Low	
Very Low	

Knowing these attributes assigns you the advantage to counter the example, a creature with a high strength could be a good choice to counter a creature with low resistance. A creature with low resistance could be a good choice to counter a creature with high resistance.

Tip

When creatures deliver and receive a problem, there is no difference for a creature's size. For example, projectiles will deliver and receive a problem, there is no difference for a creature's size. For example, a creature's size doesn't affect the amount of the creature's size. The size of a projectile doesn't affect the amount of the creature's size. The size of a projectile doesn't affect the amount of the creature's size.

Features and Traits

Favored Enemy: Beasts. You have advantage on Wisdom (Survival) checks to track beasts, as well as on Intelligence checks to recall information about them.

Natural Explorer: Forest. You are adept at navigating forests and wilderness areas. Your group can't become lost except by magical means. You are always alert to your surroundings and can't be surprised while you are conscious. You can move stealthily at a normal pace. Finding edible plants, food, and fresh water for yourself and up to five other people is easy for you. You can track other creatures, but only if they are tracking beasts.

Fighting Style: Archery. You gain a +2 bonus to attack rolls you make with ranged weapons.

Spellcasting: You have learned to use the magical essence of nature to cast spells, much as a druid does. You know two 1st-level spells from the ranger spell list: *Hunter's Mark* and *Cure Wounds*. You have two 1st-level spell slots.

Primeval Awareness: You can use your action and expend one ranger spell slot to focus your awareness on the region around you. For 1 minute per level of the spell slot you expend, you can sense whether the following types of creatures are present within 1 mile of you (or within up to 6 miles if you are in your favored terrain): aberrations, celestials, dragons, elementals, fey, fiends, and undead. This feature reveals the creature's general location and type, but not its number or exact location.

Ability Score Improvement: At 4th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, you can't increase an ability score above 20 using this feature.

Extra Attack: Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn.

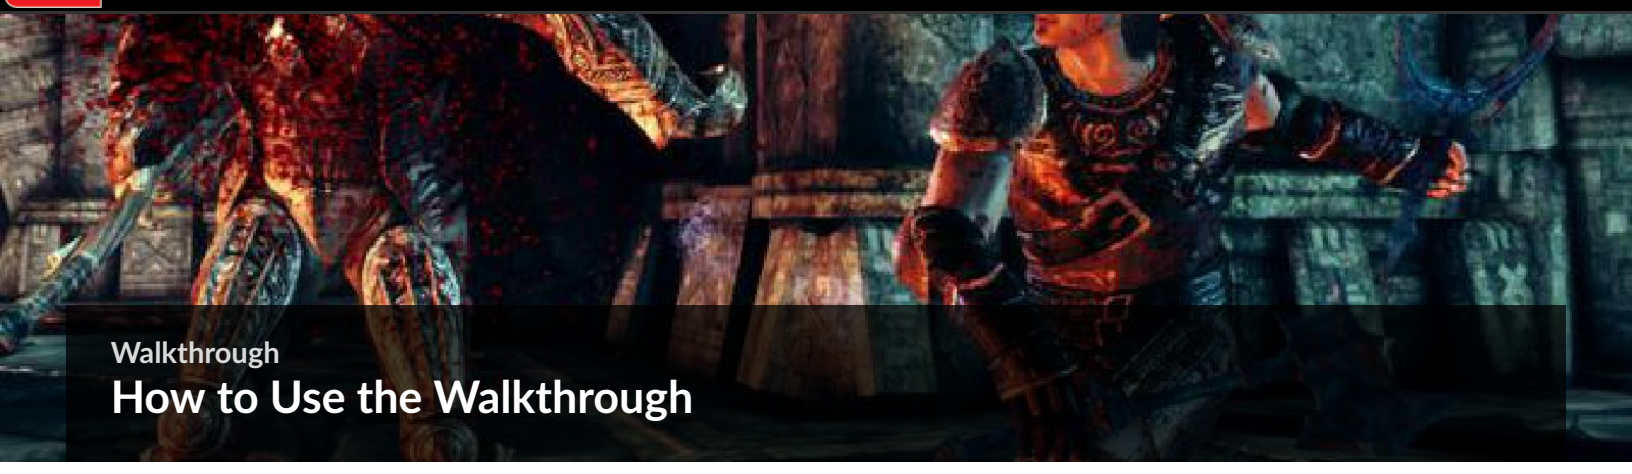
Lands Stride: Starting at 8th level, moving through nonmagical difficult terrain costs you no extra movement. You can also pass through nonmagical plants without being slowed by them and without taking damage from them if they have thorns, spines, or a similar hazard. In addition, you have advantage on saving throws against plants that are magically created or manipulated to impede movement, such those created by the *Entangle* spell.

Hide in Plain Sight: Starting at 10th level, you can spend 1 minute creating camouflage for yourself. You must have access to fresh mud, dirt, plants, soot, and other naturally occurring materials with which to create your camouflage. Once you are camouflaged in this way, you can try to hide by pressing yourself against a solid surface, such as a tree or wall, that is at least as tall and wide as you are. You gain a +10 bonus to Dexterity (Stealth) checks as long as you remain there without moving or taking actions. After you move, take an action or a reaction, or leave your camouflage behind, you can't gain this benefit again until you camouflage yourself anew.

Vanish: Starting at 14th level, you can use the Hide action as a bonus action on your turn. Also, you can't be tracked by nonmagical means, unless you choose to leave a trail.

Feral Senses: At 18th level, you gain preternatural senses that help you fight creatures you can't see. When you attack a creature you can't see, your inability to see it doesn't impose disadvantage on your attack rolls, nor can invisible creatures gain advantage against you.

Foe Slayer: At 20th level, you become an unparalleled hunter of your enemies. Once on each of your turns, you can add your Wisdom modifier to the attack roll or the damage roll of an attack you make against one of your favored enemies. You can use this feature before or after the attack roll, but before any effects of the attack are applied.



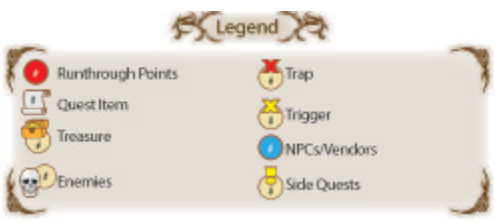
Walkthrough

How to Use the Walkthrough

Main quests around Amaranthine can sometimes seem complex and daunting. The following walkthroughs provide in-depth, precise explanations for every main quest line in the game. If it doesn't appear in this chapter, it's not a main quest and will appear in the Side Quests or Random Encounters chapters. The walkthroughs that follow this introduction are presented in the most efficient sequence, from your introduction at Vigil's Keep to the endgame quests. Here's a quick breakdown of what's in each walkthrough:

Map

Each walkthrough contains all the necessary maps to navigate from the quest's starting point to ending point. Labels on the maps indicate NPCs, enemies, quest spots, treasure locations, general points of interest, and runthrough markings to show the best route through the area. A walkthrough will generally contain multiple maps to all the important locations.



Runthrough

This small sidebar boils the walkthrough down to essential steps. The steps are marked on the map in red numbered circles. To progress through an area effectively, start with "1" and continue in numerical order to the last number. If you're familiar with an area, you can use the runthrough as a guide to moving through a map very quickly.

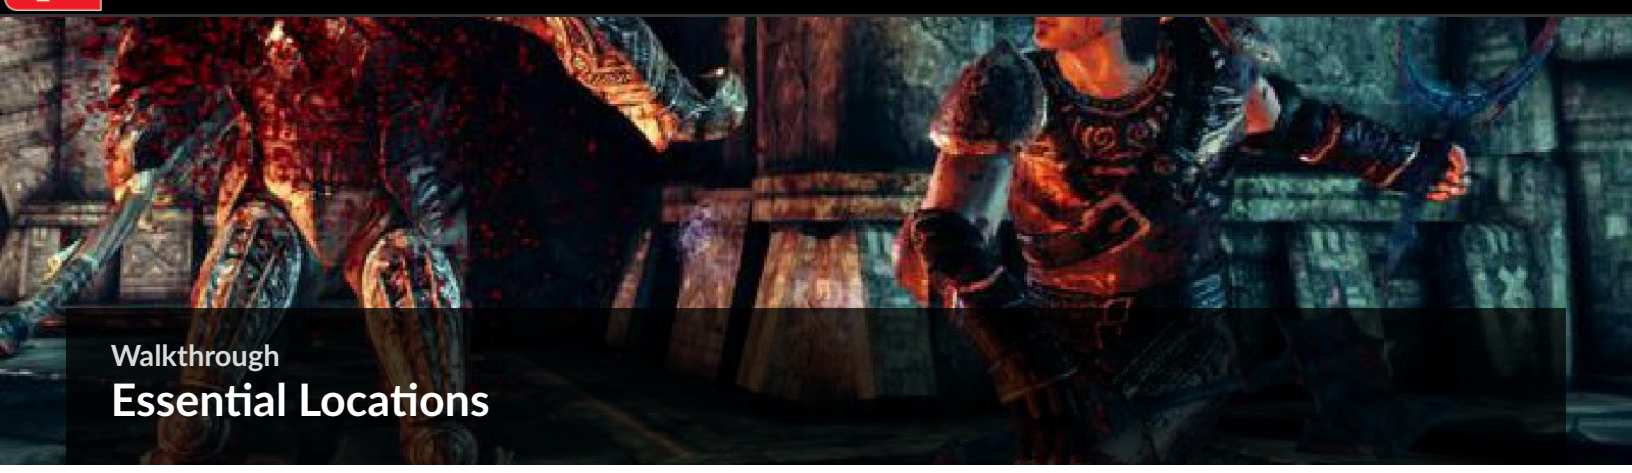
Cheatsheet

Each main map has a cheatsheet that tracks the main quest, important NPCs, key items, monsters, and side quests. Use this cheatsheet to make sure you didn't miss anything critical on your journey, or to scout out what you need to accomplish in the area.

Walkthrough Text

We pack as much comprehensive strategy and expert guidance as we can into each section. The runthrough can give you a nice overview, but if you really want to know how to avoid the traps, tackle the monsters, and collect the important items, read the walkthrough. Whenever you encounter a really difficult enemy—whether it be a boss or other ranked, troublesome adversary—we'll give you tips on its battle tendencies and how to defeat it.

Reference the world map for your global questions, then flip to the appropriate walkthrough section for the nitty gritty of that quest line. We'll get you through the underground maze of Kal'Hirol and show you how to escape the Fade that has swallowed the Blackmarsh.



Walkthrough

Essential Locations

The Arling of Amaranthine both mystifies and terrifies its inhabitants with places of vast beauty and unflinching peril. You can journey around Amaranthine, but unless you've unlocked all major quests and the majority of side quests, it will take several plays to fully explore its majesty. For those who want a sneak peek of what's in store on your travels, study the essential locations here and the detailed world map on the pages that follow.

Spoiler Alert

Sequence of Events

No matter whether you begin a new character or import an existing character, the following quest line serves as the introduction to the game and must be completed first:

Assault on Vigil's Keep

The following three main quest lines can be completed in any order, though they are listed in most practical order:

Shadows of the Blackmarsh
The Righteous Path
Last of the Legion

The primary city, Amaranthine, serves as a bustling trade center with lots of vendors and side quests. Visit this area early in your pursuit for the main quests, and return often.

Amaranthine

Once you have completed all three main quests, you can speak with Seneschal Varel to trigger the final two quest lines to end the game:

Siege of Vigil's Keep or Assault on Amaranthine
Lair of the Mother

Vigil's Keep

Vigil's Keep occupies a strategic gateway between the coastal lowlands of Amaranthine and the rest of Ferelden. Fortifications have stood here since the time of the Avvar barbarians. This is your base of operations, and has been the home of the Grey Wardens since they acquired it from the traitor Arl Howe in Origins.

Amaranthine

The city of Amaranthine is the jewel of Ferelden's north and the economic heart of the arling. In more prosperous times, merchant ships filled the port to bursting. Now, the city overflows instead with refugees and despair. You will visit here many times on your various quest runs.

The Blackmarsh

Winds off the Amaranthine Ocean leave the Blackmarsh unpleasantly cold. A settlement was once located here, but no longer. The whole coast is reportedly haunted. You'll find out for yourself firsthand when you attempt the "Shadows of the Blackmarsh" main quest.

Wending Wood

This has long been the most perilous segment of the Pilgrim's Path, the major trade route between Amaranthine and Denerim. The trees of the Wending Wood offer refuge to bandits and worse. You'll journey to the heart of the forest in "The Righteous Path" main quest.

Silverite Mine

The hills of the Wending Wood once boasted significant mineral deposits. Only a few of the old mines still contain viable veins. The second part of "The Righteous Path" quest leads you into the mine.

Knotwood Hills

Hunters occasionally venture to the Knotwood Hills to stalk the rich wildlife, but otherwise, this remote edge of the arling is untouched by civilization. When you embark on the "Last of the Legion" main quest, you enter the hills for yourself.

Kal'Hirol

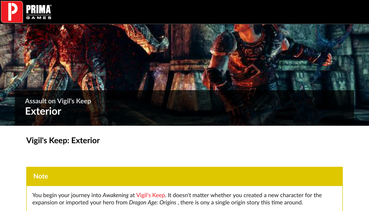
The "Last of the Legion" quest sends you into this once-great dwarven thaig. It fell during the first Blight, and no civilized race has visited the site in a thousand years.

Dragonbone Wastes

Deep within the hills that border the Feravel Plains is an ancient graveyard where dragons once came to die. A younger generation of the winged beasts has turned the region dangerous yet again. To the Wastes you must go to ultimately stop the great evil plaguing the land.

Note

Side quests and random encounters have dedicated chapters after this walkthrough section covering all the main quests. See the Side Quests chapter and the Random Encounters chapter for all the details.



Vigil's Keep: Exterior

Note

You begin your journey into *Awakening* at Vigil's Keep. It doesn't matter whether you created a new character for the expansion or imported your hero from *Dragon Age: Origins* , there is only a single origin story this time around.

Runthrough (Vigil's Keep: Exterior)

Summary: Investigate a darkspawn attack on the Grey Warden stronghold.

1 - You arrive at Vigil's Keep with the warrior Mhairi, only to discover it's under attack by darkspawn.

2 - Reach the main gate and battle through marauding darkspawn.

3 - To reach the upper level, approach the closed gate and survive the darkspawn push to drive you back.

4 - The courtyard to the east has pockets of darkspawn all around. Be careful of ambush.

5 - Reach the portcullis to the Inner Keep.

Vigil's Keep: Exterior Cheatsheet

Main Plot Quest: The Assault on Vigil's Keep

Important NPCs: Mhairi

Key Items: Stormchaser Helm

Monsters: Genlock Emissary, Genlocks, Hurlocks, Ogre, Shrieks

Side Quests: A Medical Necessity

Spoiler Alert

(1) As your story begins, you reach the outskirts of Vigil's Keep, a Grey Warden stronghold south of Amaranthine, which you are set to take over as Warden-Commander (this is your title no matter if you arrive with a new character or an existing character). You travel with a Grey Warden recruit, the warrior Mhairi, and you both soon realize that something is definitely wrong when no one comes out to greet you. Within seconds, a soldier races out of the keep with darkspawn hot on his heels. Rally behind the soldier and slay the initial trio of genlocks.

(2) You can explore around the main gate and trigger a few darkspawn encounters if you like while hunting for the scattered loot. Once you pass by the main gate, prepare for three darkspawn to attack from different directions. The hurlock and shriek come from your left, and after a few seconds delay, the ogre charges from directly ahead. Let Mhairi take the brunt of the damage (unless your character is a warrior tank too), while you deal damage quickly to the ogre before it pounds you both.

Tip

Once inside the Keep's main gate, fight your way west through two groups of genlocks and a shriek. Once you have cleared the area of foes, you can rescue a scared merchant (by chest point 5 on the map). When you encounter the merchant Yurlah in the throne room after, he will have more extensive stock to sell you.

Note

Try to save as many of the Vigil's Keep soldiers as you can. They fight the darkspawn throughout the fortress grounds and can work with you to defeat the darkspawn in their areas.

(3) After clearing out the lower level, climb up the ladder and approach the closed gate. The gate explodes outward and knocks you off your feet. Fortunately, Mhairi is light on hers and she races ahead to intercept the two hurlocks who charge out. In the back, a genlock emissary will begin casting nasty AoE spells. Don't give him a chance. Interrupt with a disruptive attack such Paralyze, or charge straight for him and stun him with a melee talent. Keep the battle close to the shattered gate so you don't pull in any other enemies while you take these three down.

(4) If you head to the right, watch out for a major ambush when you enter the open courtyard. Hurlocks, a genlock, and a shriek all lurk in the area and love to converge as you approach. Deal with the shriek first, because it will appear behind you and try to deal damage to your exposed side.

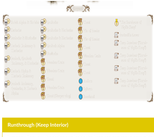
(5) To the left after the shattered gate lies the portcullis entrance to the Inner Keep. Two hurlocks patrol the area, and you'll have to get through them to gain the exit point. If you can kill these two hurlocks before they kill the nearby Vigil's Keep soldier, the grateful soldier offers the "A Medical Necessity" side quest. See the "Vigil's Keep" section in the Side Quest chapter for complete details.

Note

Loot is generally random. In the cases where an item is fixed or codex entry occurs, we've listed the actual reward in parentheses after the treasure location.

Assault on Vigil's Keep

Interior



Bunthough (Keep Interior)

Summary: Root out the darkspawn inside the keep and confront a new talking darkspawn.

1 - Enter the inside of the keep.

2 - Meet up with the mage Anders.

3 - Battle darkspawn to reach the outer battlements.

4 - Carve through the darkspawn on the battlements to reach the barricaded area.

5 - Pull the portcullis lever to access the keep's northern section.

6 - More genlocks and hurlocks pour through the portcullis and engage you in the first chamber.

7 - Hurlocks ambush you in the central chamber.

8 - Join forces with the warrior Ogrhen.

9 - A huge battle finishes off the darkspawn inside the keep.

10 - Exit to the second battlement and confront the Withered.

Keep Interior Cheatsheet

Main Plot Quest: The Assault on Vigil's Keep

Important NPCs: Anders,Ogrhen, Rowland

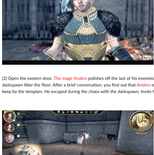
Key Items: Portcullis, Lever

Monsters: Genlock Alpha,Genlock Emissary,Genlocks,Hurlock Alphas,Hurlock Emissary,Hurlocks,Ogre,Shriek Alpha Shrieks

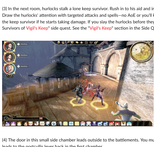
Side Quests: The Survivors of Vigil's Keep

Spoiler Alert

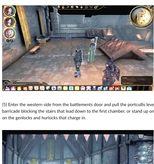
(1) The keep's first chamber may look empty, but it's an illusion. As soon as you take a step forward, three shrieks materialize and attack. Dispatch them with Mhari taking the lead. If you look up to the western ledge, you'll spot a portcullis lever that raises the sealed portcullis in front of you, but you can't access the area directly because the door is barricaded. Instead, you have to climb the stairs on the eastern side and work your way around.



(2) Open the eastern door. The mage Anders pulverizes off the last of his enemies with a burst of flame. Dual templars and darkspawn litter the floor. After a brief conversation, you find out that Anders is an apostate mage who was brought to the keep by the templars. He escaped during the chaos with the darkspawn. Invite him to join your party to add a capable mage.

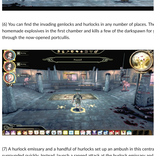


(3) In the next room, hurlocks stalk a low keep survivor. Rush in to his aid and intercept the hurlocks before they kill the man. Draw the hurlocks' attention with targeted attacks and spells—no AoE or you'll kill the keep survivor—and use Anders to heal the keep survivor if he starts taking damage. If you slay the hurlocks before they slay the keep survivor, you unlock "The Survivors of Vigil's Keep" side quest. See the "Vigil's Keep" section in the Side Quest chapter for complete details.



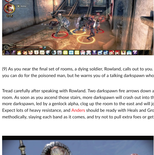
(4) The door in this small side chamber leads outside to the battlements. You must cross this outer ledge to reach the door that leads to the portcullis lever back in the first chamber.

Genlocks and hurlocks swarm the confined ledge, and you have to make sure you get some ranged fire on the genlock emissary in the rear or you'll be lashing AoE damage for the whole fight. Be sure to retrieve the Bounteous crossbow in the treasure chest by the ballista.



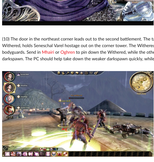
(5) Enter the western side from the battlements door and pull the portcullis lever out in the first chamber. Destroy the barricade blocking the stairs that lead down to the first chamber, or stand up on the western ledge and rain destruction down on the genlocks and hurlocks that charge in.

(6) You can find the invading genlocks and hurlocks in any number of places. The dwarf Dworkin detonates some of his homemade explosives in the first chamber and kills a few of the darkspawn for you. Finish off the next before heading north through the now-opened portcullis.



(7) A hurlock emissary and a handful of hurlocks set up an ambush in this central chamber. Don't rush in or you can be surrounded quickly. Instead, launch a ranged attack at the hurlock emissary and hold back near the door. Let them come to you and pick them off one by one. When the dust settles, grab the loot from the chest and wooden crate in the western stock room.

Now you have a choice: head north or east. North continues the main quest and brings you to the next major encounter. East gives you more genlocks and hurlocks, and some more loot, including the Sleeper ring in the next room's chest. If you're trying to complete "The Survivors of Vigil's Keep," you have to head east and rescue the two keep survivors being savaged by darkspawn.



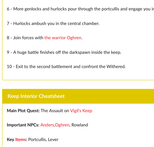
(8) When you finally decide to clear out the northern section of the keep, you rendezvous with a blast from the past: the sometimes drunk, but always lovable, dwarven warrior Ogrhen. He's convinced himself he wants to become a Grey Warden, and, because trouble seems to follow him around, Ogrhen has found himself mixed up with another darkspawn invasion. Ogrhen can hold his own against his foes, so take the group that advances on you (usually led by the hurlock alpha) and teach them what it really means to anger a Grey Warden. After the fight, Ogrhen joins your party and you're at full strength for the final keep battles.

(9) As you near the final set of rooms, a dying soldier, Rowland, calls out to you. Despite your healing magics, there's nothing you can do for the poisoned man, but he warns you of a talking darkspawn who has seized Seneschal Varel.

Tread carefully after speaking with Rowland. Two darkspawn fire arrows down at you from the top of the stairs in the next room. As soon as you ascend those stairs, more darkspawn will crash out into the room from the side room to the north. Tons more darkspawn, led by a genlock alpha, clog up the room to the east and will join the fray as soon as you come into range. Expect lots of heavy resistance, and Anders should be ready with Heals and Group Heals throughout the long fight. Proceed methodically, slaying each band as it comes, and try not to pull extra foes or get caught in the middle of flanking enemy groups.

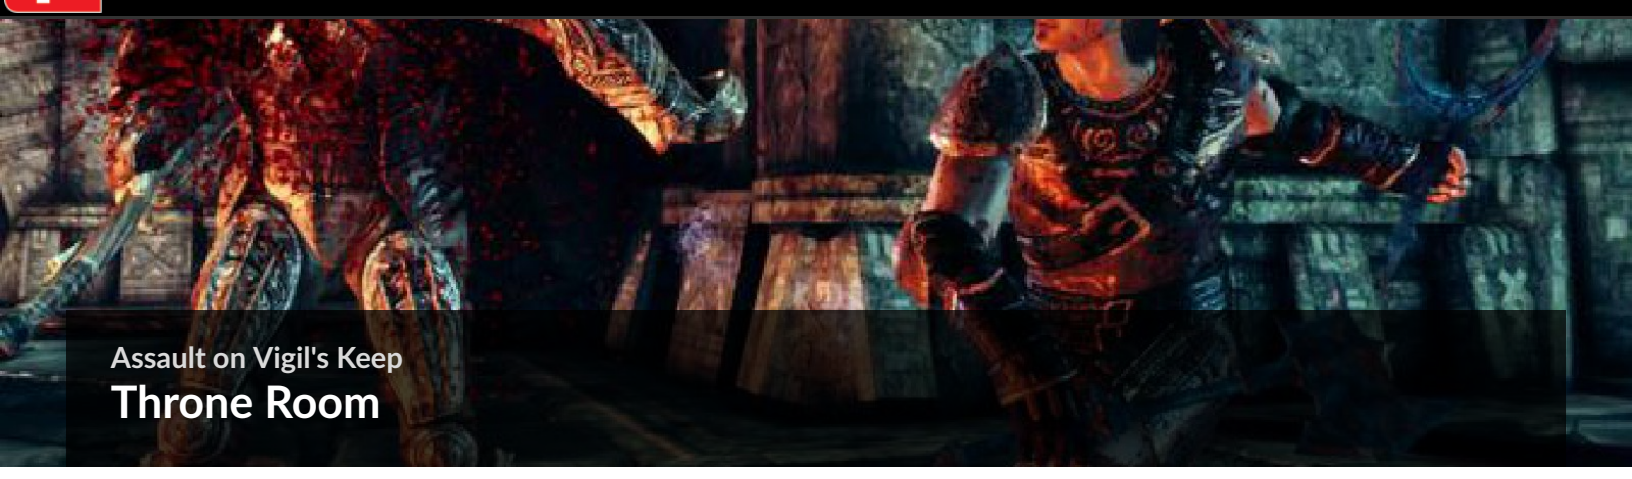
(10) The door in the northeast corner leads out to the second battlement. The talking darkspawn Rowland mentioned, the Withered, holds Seneschal Varel hostage out on the corner tower. The Withered has a genlock and two hurlocks as bodyguards. Send in Mharri or Ogrhen to pin down the Withered, while the other warrior charges at the other three darkspawn. The PC should help take down the weaker darkspawn quickly, while Anders stays back and heals.

Once the three lesser darkspawn bleed out on the stone, all four party members concentrate damage on the Withered. The talking darkspawn can hit hard, but it won't be able to out-damage four heroes laying it on. Slay the Withered and speak with Seneschal Varel. He fills you in partially on events, when a new army arrives.



King Alistair (or Queen Anora, depending on who became ruler at the end of Dragon Age: Origins) rides into the keep with a small army to aid with the darkspawn incursion. He's happy to see you've taken matters into your own hands and, though he wishes he could join back in and pat around with Grey Wardens again, he gives you his blessing before leaving for other courtly matters.

The templars accompanying the king insist on taking Anders back into custody. If you want to keep him in your party—and you should—ask Alistair for the Rite of Conscription on Anders before the king leaves. He sides with you and Anders becomes a Grey Warden. You can also permanently recruit Ogrhen at this point—but if you choose the wrong dialog option (choice three), Ogrhen will no longer be a possible party member.



Assault on Vigil's Keep

Throne Room

Runthrough (Throne Room)

Summary: Conduct the Joining ceremony for the new Grey Warden recruits and explore Vigil's Keep's throne room.

1 - Conduct the Joining ceremony.

2 - Exit the throne room after speaking with relevant NPCs, shopping at the vendors, and collecting some of your stored possessions.

Throne Room Cheatsheet

Main Plot Quest: The Awakening

Important NPCs: Ambassador Cera, Anders, Captain Garevel, Mhairi, Mistress Woolsey, Oghren, Seneschal Varel, Yuriah

Key Items: Warden-Commander possessions

Monsters: None

Side Quests: None

Spoiler Alert

(1) You reconvene in the throne room, and Varel has made preparations to once again fill the Grey Warden ranks. You should have Anders, Mhairi, and Oghren in your party, and all three will partake in the darkspawn blood that either kills or transform one into a Grey Warden.

Oghren completes the rite without even losing consciousness. Anders passes out, but survives. Poor Mhairi, however, doesn't make it. There's nothing you can do about it; Mhairi dies in the Joining trying to realize her lifelong dream of serving the land as a Warden.

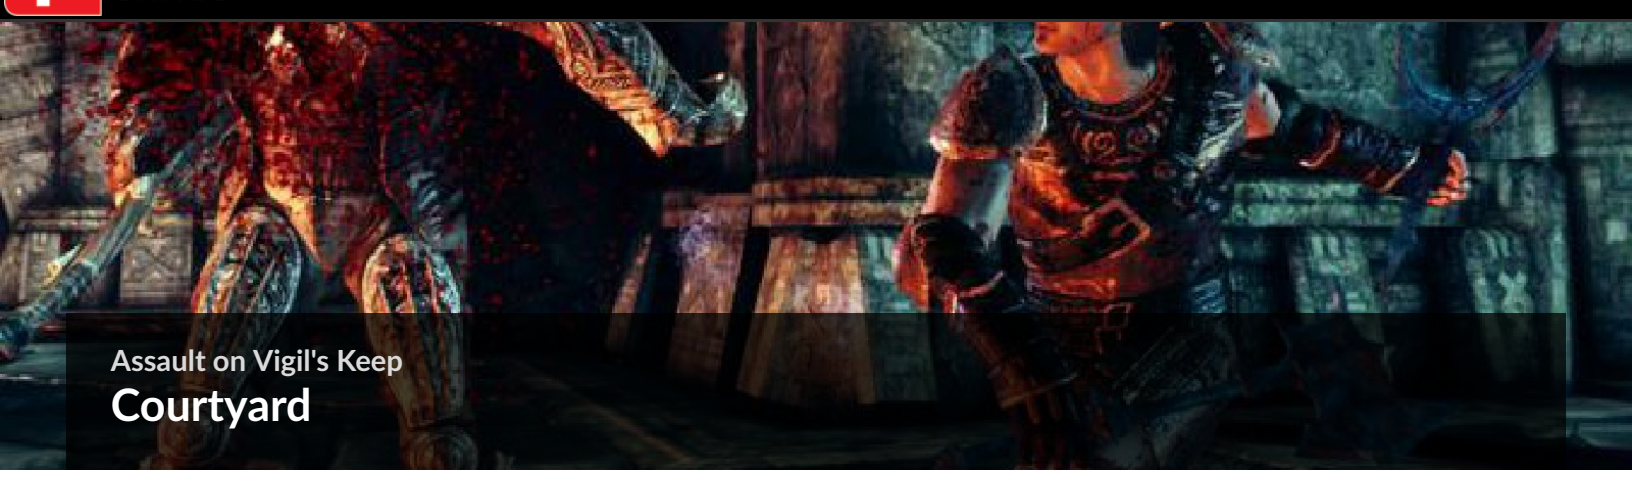
(2) After the Joining, you can leave at any time, but there are several things to do around the throne room first. You can speak with your NPCs, and if you click on the cask next to Oghren, you catch him drunk as a skunk guzzling from the tap. Listen to his amusing, drunken imaginations, but don't try to embarrass him with your dialogue choices or you'll end up with a disapproval rating.

Ambassador Cera sells runes and crafting gear, plus she'll enchant weapons and armor for you. On the other side of the room, Yuriah sells general goods. Comb the room for all the Warden-Commander possessions in the piles of books, armor stand, weapon stand, and personal storage chest (which serves as an extension of your party inventory, accessed only in the throne room).

The three main NPCs—Captain Garevel, Seneschal Veral, and Mistress Woolsey—hold the three main quests to progress through the game. Captain Garevel gives you the "Last of the Legion" quest. Veral sends you on the "Shadows of the Blackmarsh" quest. Mistress Woolsey entrusts you with "The Righteous Path" quest. Feel free to pick them all up now, or come back and pick up each one as you need it.

Note

The throne room serves as the scene for many courtly events and many Vigil's Keep side quests. Check back often to heal up and follow up on the matters of state. See the Side Quest chapter for complete details.



Assault on Vigil's Keep

Courtyard

Runthrough (Vigil's Keep Courtyard)

Summary: Seek out Nathaniel Howe and visit a few other Vigil's Keep inhabitants before leaving for the world map.

1 - Enter the courtyard.

2 - Go see Nathaniel Howe in the dungeon.

3 - Visit the eastern section of the courtyard and speak with Samuel (with Nathaniel in your party).

4 - After final preparations are made, leave for the lands outside Vigil's Keep.

Vigil's Keep Courtyard Cheatsheet

Main Plot Quest: The Prisoner

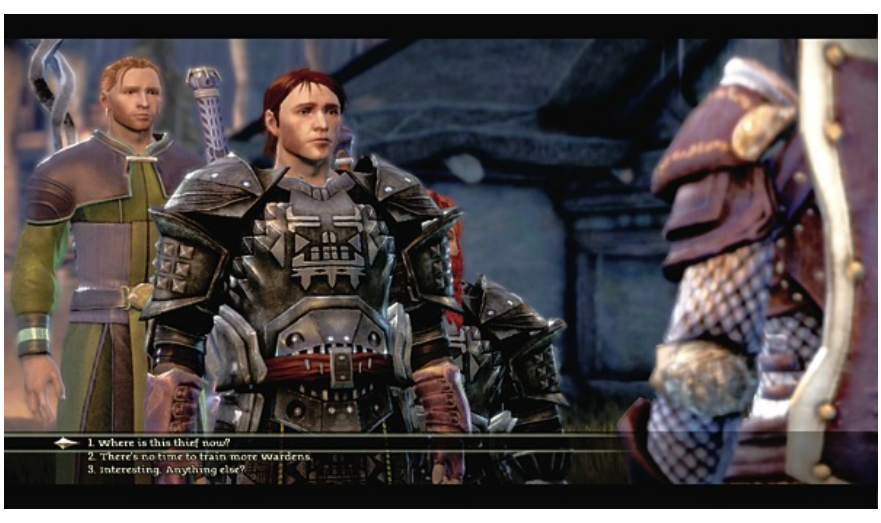
Important NPCs: Dworkin, Herren, Private Samuel, Sergeant Maverlies, Voldrik, Wade

Key Items: Kitten

Monsters: None

Side Quests: A Daughter Ransomed, Cost of Doing Business, Elemental Requirements, Far Afield, It Comes from Beneath, Salvage Operation, The Howe Family, The Terrified Merchant

Spoiler Alert



(1) Exit the throne room area and enter the courtyard. Before you leave for the lands outside the keep and embark on any of the main quests, you need to pick up one more companion. When you leave the throne room, the private at the gate hands you two letters that open up the side quests "A Daughter Ransomed" and "Far Afield."

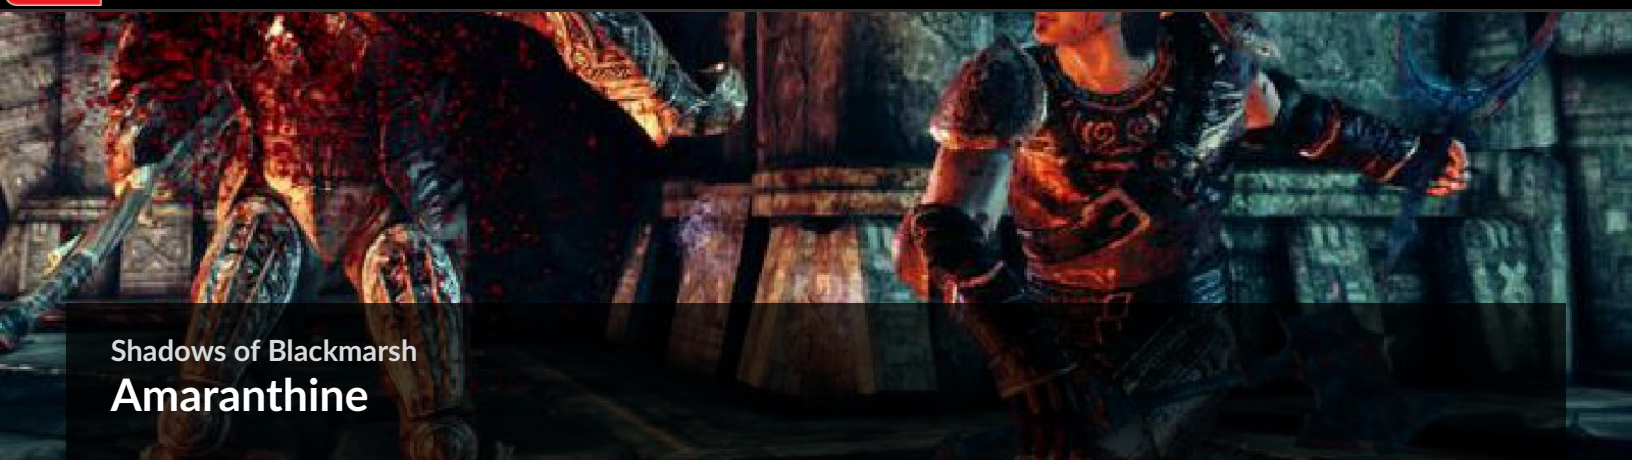
See the Side Quest chapter and follow up on them when you have a chance. Once you complete these two side quests, you can return to the private for one more, "Salvage Operation." The private also tells you that the keep guards have a prisoner in the dungeon. It's the prisoner that you want to see.

(2) Descend into the dungeon and ask the dungeon guard to let you see the prisoner. The man behind the bars is Nathaniel Howe, son of Arl Howe, who plotted against the Grey Wardens with Loghain in Dragon Age: Origins. If you imported your character, you may even be Arl Howe's murderer! Nathaniel wants nothing to do with you at first, but you sense a good heart in this rogue's body.

Call the seneschal and conscript Nathaniel Howe into the Wardens. The next time you return to the throne room and speak with Varel, Nathaniel survives the Joining and becomes a Grey Warden.

(3) With Nathaniel Howe in your party, head to the eastern section of the courtyard. The groundskeeper Samuel walks by and Nathaniel recognizes him. Samuel tells Nathaniel that his sister Delilah is alive, and he gives you "The Howe Family" side quest. While you're in the area, pick up the stray cat that meows along the far buildings. The kitten is actually a gift for Anders.

(4) Level up your characters. Buy and sell at the vendors. Add runes to your more powerful magic equipment. When you've completed all that and finished off any Vigil's Keep side quests that you want to tackle at the moment, head out the gates to the world at large. It's time to journey to Amaranthine and tackle your first major quest.



Shadows of Blackmarsh

Amaranthine

Note

There are three main quests in *Awakening* : "Shadows of the Blackmarsh," "The Righteous Path," and "Last of the Legion."

You can attempt the quests in any order, but it's probably best to do "Shadows of the Blackmarsh" first. Here, you gain Justice, the best tank warrior of the companions, and you can enhance your PC's attributes through the various essences you find in the Fade.

Beginning the Quest

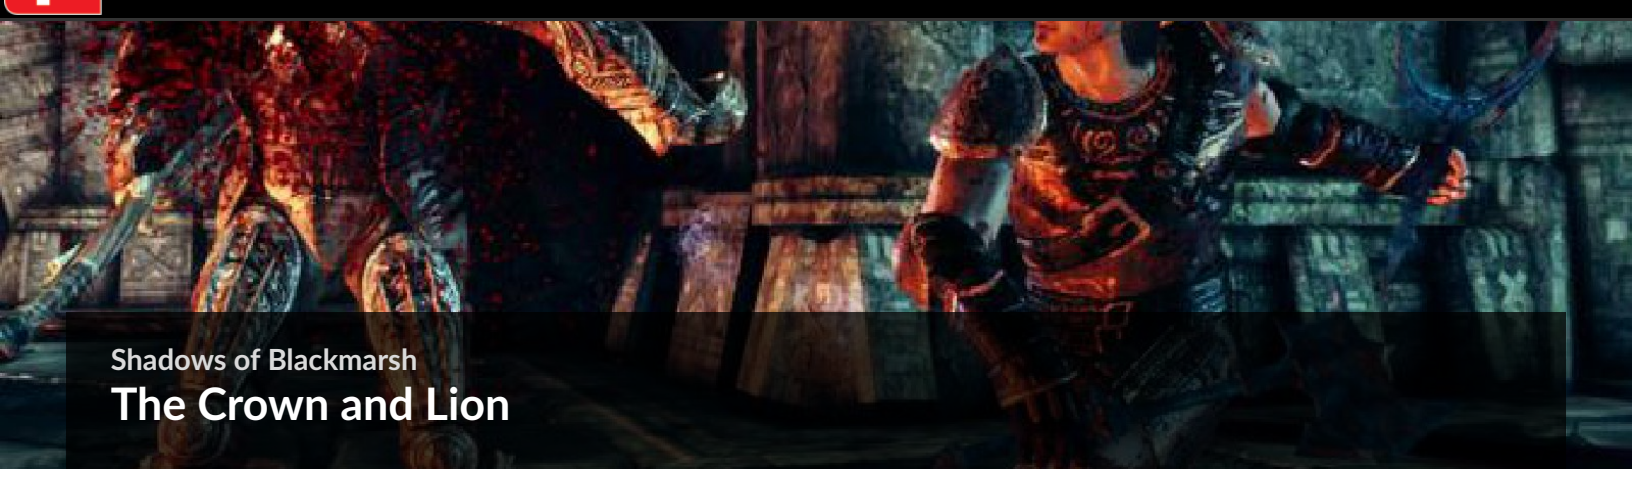
When you're ready to begin your first major quest out in the lands of Amaranthine, speak with Varel in Vigil's Keep throne room. He tells you that one of the Grey Wardens, Kristoff, has been away tracking down a lead on why the darkspawn were still active after the Blight. The seneschal believes Kristoff can be found in the city of Amaranthine. At the conversation's conclusion, you gain the "Shadows of the Blackmarsh" quest.

Amaranthine

When you enter Amaranthine, look for the Crown and Lion Inn in the city's eastern section. Proceed north by Constable Aidan and turn right at the intersection. Climb the stairs and the Crown and Lion entrance is on your left (just before you turn for the steps leading up to the Chantry). Inside you'll find a clue to Kristoff's whereabouts.

Note

If this is your first time visiting Amaranthine, there is a lot to do in the bustling city. See the "Amaranthine" section in the Side Quests chapter for all the events and quests not directly related to the main quests.



Shadows of Blackmarsh

The Crown and Lion

Legend

- 1 Book (The Crown and Lion codex)
- 2 Chest (locked)
- 3 Chest
- 4 Chest (Kristoff's Mementos gift)
- 5 Book (Kristoff's Journal codex)
- 6 Chest (Spirit Cord, A Letter from Aura codex)
- 1 Innkeeper
- 2 Bartender
- 3 Sorcha
- 1 "The Blight Orphans?"
- 1 Map of Ferelden
- 2 Secret Entrance to Smuggler's Cove (Amaranthine Smugglers quests)

Runthrough (The Crown and Lion)

Summary: Speak with the innkeeper for the key to Kristoff's room and find the clue to his location inside.

1 - In the common room, speak with the innkeeper and gain Kristoff's room key.

2 - Search Kristoff's room for the Map of Ferelden, which unlocks the Blackmarsh world map location.

The Crown and Lion Cheatsheet

Main Plot Quest : Shadows of the Blackmarsh

Important NPCs : Innkeeper, Bartender, Sorcha

Key Items: Map of Ferelden

Monsters : None

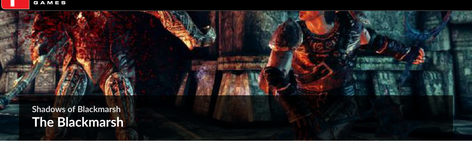
Side Quests: The Blight Orphans?

(1) Once inside the Crown and Lion, speak with the innkeeper in the common room. Ask him if he's seen Kristoff, and then tell him that you're Kristoff's commanding officer to get the key to Kristoff's room. The dwarven bartender to the innkeeper's left sells goods and holds many secrets regarding the smugglers in town, if you choose to do some of the Amaranthine side quests.

You can also question Sorcha, the barmaid up the stairs toward Kristoff's room, and she'll reveal some insight about Kristoff's general mannerisms.

(2) Use the key the innkeeper gave you and open Kristoff's room. Pick up Kristoff's Mementos, a gift item, in the chest to your right, and gain Kristoff's Journal codex entry from the book on the table.

The chest by the bed holds the Spirit Cord amulet (+3 dexterity, +3 cunning, +15% nature resistance, +5% spirit resistance) and A Letter from Aura codex entry. When you interact with the Map of Ferelden on the back wall, the Blackmarsh location opens up on the world map. You can now follow Kristoff to the marsh and see where his pursuit of the new darkspawn led.



Shadows of Blackmarsh

The Blackmarsh

Runthrough (The Blackmarsh)

Summary: Follow the trail of clues to discover Kristoff's whereabouts.

1 - Enter the Blackmarsh.

2 - Encounter marsh wolves as you navigate the marsh.

3 - Discover a darkspawn corpse slain by Kristoff.

4 - Leave the ruins and head north out into the deep swamp.

5 - Discover Kristoff's camp.

6 - Kristoff didn't make it. The First set a trap for any Grey Wardens seeking Kristoff.

The Blackmarsh Cheatsheet

Main Plot Quest: Shadows of the Blackmarsh

Important NPCs: None

Key Items: Darkspawn, Corpse, Cot, Kristoff's Body

Monsters: Alpha Mars Wolves, Blighted Shadow Werewolves, Blighted Werewolves, Childer Grubs, Marsh Wolves, The First

Side Quests: The Burden of Guilt, The Lost Dragon Bones, Tears in the Veil, The Trail of Love

Spoiler Alert

(1) The Blackmarsh exudes creepiness, and there is something supernatural in the air. Nathaniel warns of this if you interact with the Blackmarsh tree a few paces up the path on the left. Beware of the nearby marsh wolves that bear down on you as you approach them feasting on some unlucky critter.

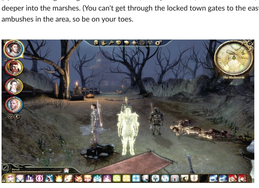
As with all wolf encounters in the marsh, AoE stunning abilities such as Repulsion Field keep them at bay. Pay attention to Group Heal because everyone will likely take damage simultaneously as the creatures nip away.

As you explore the Blackmarsh, you come across tears in the Veil. These Veil tears block your passage in the physical world. If you attempt the "Tears in the Veil" side quest, you can close these tears once you reach the Fade on the Blackmarsh Undying map.

(2) Fight through more wolves at the first intersection. If you take the left (north) fork, the path leads to a dead end at one of the sealed Veil tears. Take the right (east) fork to continue on the main quest to find Kristoff.

(3) Go right (east) and you'll see a darkspawn corpse in front of you after you take on a group of blighted werewolves. Slay the werewolves and interact with the darkspawn corpse. You surmise that Kristoff killed the darkspawn, so he must be close.

(4) After combing through the ruins for loot, side quest items, and codex entries, head north out of the broken town and deeper into the marshes. (You can't get through the locked town gates to the east at this point.) There are many enemy ambushes in the area, so be on your toes.

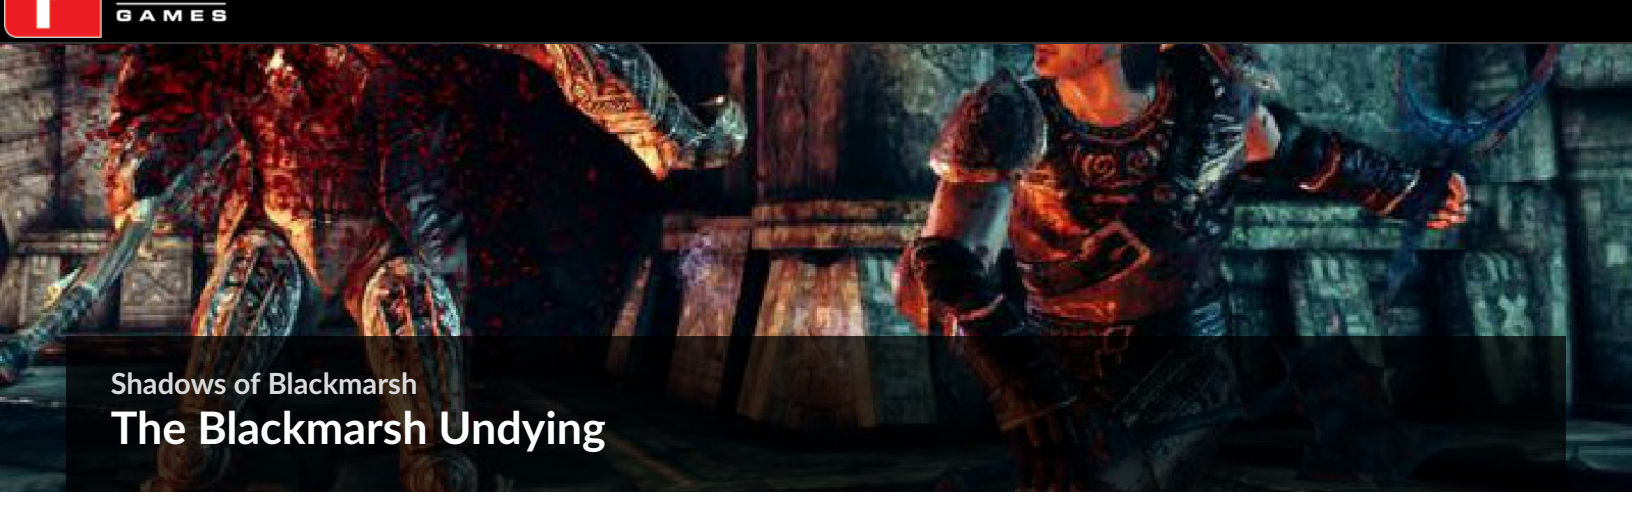


(5) In the middle of the northern section of the marsh, you find Kristoff's camp. You can tell from more dead darkspawn and Kristoff's cot that he must be very close now. Recover Kristoff's Locket, a gift, in the rock pile near the cot.

(6) Unfortunately, Kristoff was slain by the very darkspawn he tracked. His body lies in the map's far northeast corner.

Kristoff's body is a darkspawn trap. Once you interact with it, your party gets transported to the Fade. Make sure you accomplish everything you wanted to in the Blackmarsh before touching Kristoff's body or it will be a long time before you return.

When you interact with Kristoff's body, darkspawn surround you. It's a trap meant to slay any Grey Wardens who followed Kristoff. The First, a loyal servant of the mysterious Mother, casts a powerful spell that rips a tear in the Veil and transports your party to the Fade. You must now battle through the Blackmarsh Undying to return to the real world.



Shadows of Blackmarsh

The Blackmarsh Undying

Runthrough (The Blackmarsh Undying)

Summary: Escape the Fade by locating the baroness.

1 - Enter the Fade and fight the First's minions.

2 - Proceed toward the Baroness's Manor.

3 - Head around the manor and battle the shades and skeletons that arise to thwart you.

4 - Follow the Lonely Soul into the Shadowy Crypt.

The Blackmarsh Undying Cheatsheet

Main Plot Quest: Shadows of the Blackmarsh

Important NPCs: The Lonely Soul

Key Items: Essence of Constitution, Essence of Cunning, Essence of Dexterity, Essence of Magic, Essence of Strength, Essence of Willpower

Monsters: Childer Grubs, Desire Demons, Devouring Skeletons, Genlocks, Greater Rage Demons, Greater Shades, Lesser Rage Demons, Lesser Shades, Mangled Shambling Skeletons, Skeleton Archers

Side Quests: A Maiden in Distress, The Stone Circle

Spoiler Alert

(1) When the First drops you into the Fade, he unexpectedly follows along with you. The First leaves you to fight off a group of childer grubs and genlocks. Dispatch them, get your bearings, and start your journey across the Fade.

You can interact with a boat next to your starting point, which begins a dialogue about the Fade in your party, but be careful—it might reflect negatively on your companion approval rating.

Note

Lyrium veins can power you back up after a difficult battle. Touch one to recharge your health and mana/stamina.

Tip

Check the map for all essence locations. Each of the essence items grants you a permanent +1 to one of your attributes. Gather all of these attribute bonuses if you can.

(2) Work your way south and battle through the various shades and demons whose paths you cross. Don't advance too quickly or you can draw two enemy groups toward you at once. Go slowly, deal with an enemy group, and move on.

If you plan to finish off the side quests, slay the desire demons to shut down the Veil tears for "Tears in the Veil" and try your hand at the puzzle for "The Stone Circle" in the map's northwest corner.

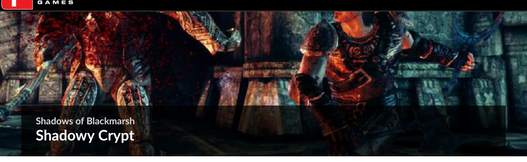
(3) Continue around the outside of the manor house along the docks. You encounter a group of shades at the first corner. After you slay the shades, tread carefully over the "corpses" on the waterfront.

These corpses animate when you turn the next corner, and you'll have skeleton archers behind you and devouring skeletons and mangled shambling skeletons animating around you. Stuns and defensive abilities that repel enemies, such as War Cry/Superiority and Repulsion Field, come in handy.

Tip

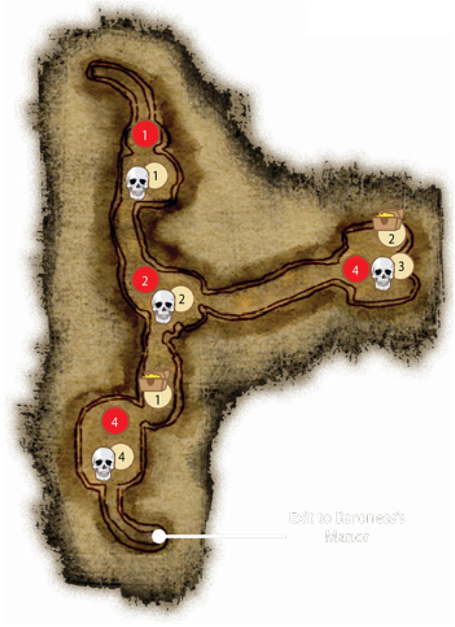
Rather than use up your health poultices and stamina/mana potions in the Fade, drink the ethereal ones you find in the Blackmarsh Undying. These are only good while traveling the Fade, so why waste your other hard-earned stockpile?

(4)Finish off any skeletons and follow the Lonely Soul into the Shadowy Crypt entrance to your left. You can't reach the rest of the Baroness's Manor without first traveling through the Shadowy Crypt.



Shadows of Blackmarsh

Shadowy Crypt



Runthrough (Shadowy Crypt)

Summary: Pass through the Shadowy Crypt to enter the Baroness's Manor.

1 - Enter the crypt.

2 - Deal with the corpses and skeletons in your way.

3 - Choose to follow the Lonely Soul if you want to complete the "A Maiden in Distress" side quest.

4 - Defeat the skeletons in the final chamber to exit the crypt.

Shadowy Crypt Cheatsheet

Main Plot Quest: Shadows of the Blackmarsh

Important NPCs: The Lonely Soul

Key Items: Essence of Cunning, Essence of Magic

Monsters: Ancient Fanged Skeleton, Desiccated Shambling Corpse, Devouring Skeletons, Frenzied Devouring Skeleton, Hunger Demon, Putrid Devouring Corpses, Shambling Corpses, Skeleton Archers

Side Quests: A Maiden in Distress

Spoiler Alert

(1) When you enter the crypt's first chamber, corpses and skeletons will attack. Corpses rise from the floor, and enemies emerge from the upright coffins throughout the crypt. The extra surprise attackers can easily flank you and disturb your battle plan if you don't act accordingly.

(2) A desiccated shambling corpse and its skeletal buddies make your life difficult in the second chamber. Don't charge into the room and get surrounded; stick back near the entrance and fight from cover.

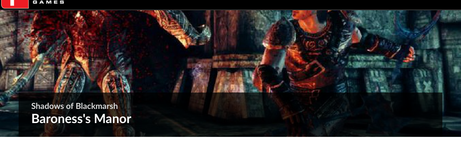
After the fight, proceed south if you want to leave the crypt quickly. If you want to pursue the "A Maiden in Distress" side quest, follow the Lonely Soul to the east.

Spoiler Alert

(3) The "maiden in distress" reveals herself as a hunger demon. The demon has been looking for a stronger body to inhabit, and you fit the bill. The fight is on unless you have a high Coercion score and can talk the demon out of a conflict. Putrid devouring corpses join the battle a few seconds in. Lock your tank warrior on the hunger demon while the rest of the party kills off the corpses.

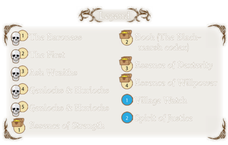
When you have no corpses to hack, concentrate all your efforts on the hunger demon. After the hunger demon falls, the Lonely Soul will thank you for freeing her true soul. Don't forget to grab the essence of magic in the back corner before you leave.

(4) Pick up an essence of cunning in the corridor leading to the final chamber. Clear out the skeletons in the chamber to reach the exit to the Baroness's Manor.



Shadows of Blackmarsh

Baroness's Manor



Runthrough (Baroness's Manor)

Summary: Meet up with the Spirit of Justice and confront the baroness.

1 - Enter the manor grounds.

2 - Speak with the Village Watch.

3 - Join the Spirit of Justice at the manor gate and explain your intentions.

4 - Battle the First and the baroness's pets.

Baroness's Manor Cheatsheet

Main Plot Quest: Shadows of the Blackmarsh

Important NPCs : Spirit of Justice

Key Items : Essence of Dexterity, Essence of Strength, Essence of Willpower

Monsters : Ash Wraiths, The First, Genlocks, Hurlocks

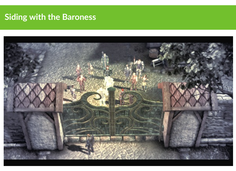
Side Quests : None

(1) You exit the Shadowy Crypt and return to the Fade outside the Baroness's Manor. You can hear a commotion in the distance at the manor gates.

(2) Speak with the Village Watch and he'll fill you in on the events in the village. When you're finished, walk around the outskirts of the village, being careful not to approach the center where Justice and the other villagers pound at the gates. You don't want to trigger that event yet. Collect the three essences and the codex entry before approaching Justice.

(3) When you enter the middle of the village, Justice and the villagers question you. Once you explain your true intentions, Justice teams up with you for the attack on the Baroness's Manor. Though probably not wise, you can choose not to align with Justice and the villagers.

Siding with the Baroness



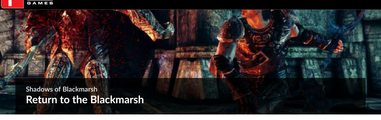
If you don't want to team up with Justice, you can side with the baroness. To help the baroness, refuse to help Justice and then examine the gate of the Baroness's Manor to begin a dialogue with the doorman. He will allow you to have an audience with the baroness in which you may agree to help her defeat the villagers in exchange for returning you to the real world.

It is still possible to side with Justice at the last moment, though. No matter what, you will face the First in combat and must defeat him. If you side with Justice you face the baroness's ash wraiths, while if you side with the baroness, you face the villagers instead.

(4) Assuming you ally with Justice, enter the manor courtyard and confront the baroness. She dismisses your remarks and sends the First to slay you so he can earn a trip back to the real world. The baroness also sends genlocks, hurlocks, and a pair of ash wraiths into the fray. Back your healer out of the chaos and concentrate on healing the tank who should engage the First.

Your second warrior or rogue should hold the ash wraiths' attention. The third party member should pick off the genlocks and hurlocks or help out with one of the other foes when they look like they're about to fall. If your healer can keep up with the enemy damage spikes and drop a few Group Heals during the fight, you'll defeat the First and confront the baroness again.

Before you can seize power from the baroness, she sacrifices the First's life essence to open a portal back to the physical world. You leave the Fade, but not without a few surprises.



Shadows of Blackmarsh

Return to the Blackmarsh

Runthrough (Return to the Blackmarsh)

Summary: Slay the baroness.

1 - Return to the real world.

2 - Destroy the Fade Portal and emerging enemies.

3 - Destroy the Fade Portal and emerging enemies.

4 - Destroy the Fade Portal and emerging enemies.

5 - Destroy the Fade Portal and emerging enemies.

6 - Battle the baroness.

7 - Claim extra rewards on the docks.

Return to the Blackmarsh Cheatsheet

Main Plot Quest: Shadows of the Blackmarsh

Important NPCs: Justice

Key Items: Armor of the Sentinel, Dock Storage Key, The Mother's Chosen

Monsters: The Baroness, Blighted Shadow Wolf, Fade Portal, Revenants, Shades

Side Quests: The Lost Dragon Bones, The Stone Circle, Tears in the Veil

Spoiler Alert

(1) The trip back to the real Blackmarsh comes with two unexpected passengers: the baroness, who lurks somewhere near the manor gates, and Justice, whose spirit has somehow crossed the divide and joined with the body of the dead Grey Warden, Kristoff.

The new Justice decides to work with you against the baroness and enchants your weapons so that they can attack the Fade Portals that the baroness has ripped in the Veil. Be sure to loot the First's body for the powerful Armor of the Sentinel and the Mother's Chosen greatsword.

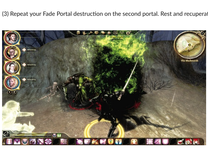
Note

If you want to deck out Justice, or any other party member, in the uber Sentinel armor set, you must complete the "Tears in the Veil" side quest while in the Fade. You must then recover the other three armor pieces from the iron chests that materialize in the physical world upon completion of the quest. See the Side Quests chapter for complete details.

(2) The baroness's Fade Portals release more and more creatures from the Fade into the physical world. You must shut these portals down one by one. Head west from your return point and you'll see a Fade Portal almost immediately. A revenant and shade guard most portals, and the longer you wait on destroying the portal, the more creatures will pour forth.

When engaging, send your tank to occupy the revenant, ignore the shade, and put all three others on the Fade Portal to destroy it as quickly as possible. Once the portal is gone, cut down any creatures that have spilled forth and finish off the revenant as a group if it's still standing.

(3) Repeat your Fade Portal destruction on the second portal. Rest and recuperate before moving on to the next portal.



(4) Repeat your Fade Portal destruction on the third portal. Rest and recuperate before moving on to the next portal.

(5) Repeat your Fade Portal destruction on the fourth portal. Rest and recuperate before moving on to battle the baroness.

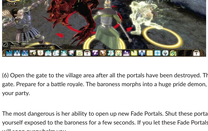
(6) Open the gate to the village area after all the portals have been destroyed. The baroness waits in the middle near the manor gate. Prepare for a battle royale. The baroness morphs into a huge pride demon, armed with several attacks meant to cripple your party.

The most dangerous is her ability to open up new Fade Portals. Shut these portals down immediately, even if means leaving yourself exposed to the baroness for a few seconds. If you let these Fade Portals fester, they'll begin pouring out creatures that will soon overwhelm you.

The baroness herself can blast away with fire bolts and frost bolts. If you have high resistances to fire and cold, you should be fine. If not, the party healer will have to watch for one of these attacks and immediately throw a Regeneration or Heal after it lands.

A shockwave attack from the baroness deals normal damage and knocks you off your feet if you fail a physical resistance check. Even worse, her drain ability consumes health from the target she grabs and transfers that health to the baroness.

Keep up the constant pressure and stay patient while you chip away at the baroness's health total. The fight will be long, and the healer will probably tap into a few lyrium potions to keep up with the healing. With the right teamwork, you will survive her barrage of attacks and finally bring the baroness down.



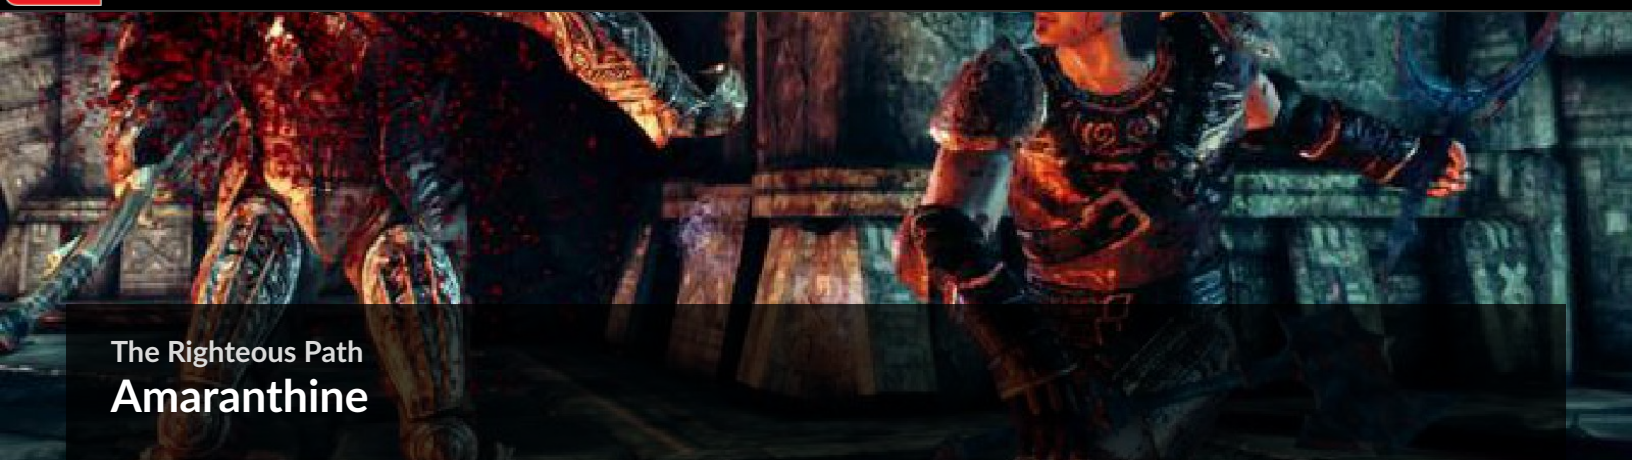
Achievement & Trophy Tip:

Pride Comes Before the Fall

When you defeat the baroness you earn the "Pride Comes Before the Fall" Achievement/Trophy.

(7) Search the baroness's corpse for nice loot (Firestompers, Soulbound ring, and 14 sovereigns) and the Dock Storage Key. Use the key to open the gate that leads out to the docks at the northeast corner of the manor. You gain a lot more cool loot from the docks, and if you're completing side quests, the fifth dragon bone rests here, as does Ser Alvard's Sword in one of the decomposing crates.

You've now completed the "Shadows of the Blackmarsh" quest line and can have Justice join your party as a burly warrior tank! Now it's time to return to Vigil's Keep for your next major quest.



The Righteous Path
Amaranthine

Spoiler Alert

Note

There are three main quests in *Awakening* : "Shadows of the Blackmarsh," "The Righteous Path," and "Last of the Legion." You can attempt the quests in any order; however, its probably best to do "The Righteous Path" second. You gain Velanna, a second mage companion, which may fill out your needs for more spellcasting, and you get introduced to the mysterious Architect.

Beginning the Quest

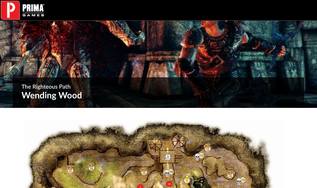
When you're ready to begin your second major quest out in the lands of Amaranthine, speak with Mistress Woolsey in the Vigil's Keep throne room. She tells you that the caravan route has been disrupted in the southeast, and that the kingdom can't survive without free-flowing trade (more information about the merchant in the city of Amaranthine. At the conversation's conclusion, you gain "The Righteous Path" quest.

Amaranthine

When you enter Amaranthine, look for Mervis to the north of the Market District (western side of the city). He explains that caravans have been ransacked in the Wending Wood and asks you to investigate. He also promises you a reward if you can stop whoever or whatever is disrupting the trade route. When you're finished in Amaranthine, travel to the new location on the world map: the Wending Wood.

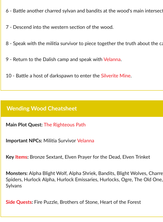
Note

If this is your first time visiting Amaranthine, there is a lot to do in the bustling city. See the "Amaranthine" section in the Side Quests chapter for all the events and quests not directly related to the main quests.



The Righteous Path

Wending Wood



Runthrough (Wending Wood)

Summary: Investigate the Wending Wood for clues on who or what is responsible for the caravan attacks.

1 - Enter the Wending Wood.

2 - Dispatch the raiding bandit and scavengers.

3 - Intercept a charred sylvan attack on scavengers.

4 - Find the bridge to cross to the northern section.

5 - Velanna warns you not to continue.

6 - Battle another charred sylvan and bandits at the wood's main intersection.

7 - Descend into the western section of the wood.

8 - Speak with the militia survivor to piece together the truth about the caravan attacks.

9 - Return to the Dalish camp and speak with Velanna.

10 - Battle a host of darkspawn to enter the Silverite Mine.

Wending Wood Cheatsheet

Main Plot Quest: The Righteous Path

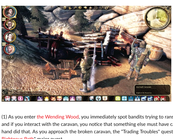
Important NPCs: Militia Survivor Velanna

Key Items: Bronze Sextant, Elven Prayer for the Dead, Elven Trinket

Monsters: Alpha Blight Wolf, Alpha Shriek, Bandits, Blight Wolves, Charred Sylvans, Enraged Wolves, Genlocks, Giant Spiders, Hurlock Alpha, Hurlock Emissaries, Hurlocks, Ogre, The Old One, Poisonous Spiders, Scavengers, Shrieks, Wild Sylvans

Side Quests: Fire Puzzle, Brothers of Stone, Heart of the Forest

Spoiler Alert



(1) As you enter the Wending Wood, you immediately spot bandits trying to ransack a caravan. They bolt at your appearance, and if you interact with the caravan, you notice that something else must have caused the caravan destruction. No human hand did that. As you approach the broken caravan, the "Trading Troubles" quest pops up. You'll finish it as part of "The Righteous Path" major quest.

(2) It's time to punish the bandit and scavengers that tried to loot the broken caravan. Turn left and you'll see the hoodlums up on the hill. Hit them at range and charge at the bandit leader with your melee fighters. Some of the scavengers will stay back and fire at range, but your range attacks are superior and will take them down shortly.

(3) Outside the bandit camp, take the northern road. Around the corner, a charred sylvan attacks two scavengers. The natural wildlife in the wood hates humans, and the two sides slug it out.

Regardless of which side you aid at first, the other side will turn on you and attack, so burn down the charred sylvan first and then pick off whatever remains of the scavengers.

(4) If you stay to the north and hug the cliff, you come to the bridge that leads into the larger northern section of the wood. If you explore the area around the south road, you'll run into more sylvans and bandits. You can also pick up extra loot from a chest in the southeast corner.

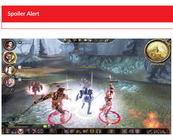
Spoiler Alert

(5) Once you cross the bridge, a bandit runs down the hill in a panicked frenzy. He claims someone is hunting him down, and before he can fully explain himself, an elven mage appears and threatens you all. Her name, as you find out later, is Velanna, and she's terrorizing the humans because she believes they are responsible for an atrocity against her people. She warns you to turn back now or suffer the consequences.

(6) Climb up the hillside path and take out the bandits on the cliff. At the top, you reach the main intersection, which branches off into six main areas: the path leading back to the southern woods (which you just climbed up), a path winding down to the fire puzzle area (green 1, 2, and 3), the area adjacent to the granite quarry, the entrance to the Silverite Mine, a path leading to the western section of the wood, and a road leading south to the abandoned Dalish camp. Battle the charred sylvan and bandits that clog your way.

(7)Proceed to the western section of the wood. Work down to the southwest corner as you fight more charred sylvans. If you keep to the open area in the middle of the western section you'll only have to battle the sylvans before you reach the loan-to camp.

Spoiler Alert

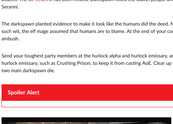


(8)A militia survivor rests here under a loan-to. Somehow he's been affected with a darkspawn disease—he's dying and decomposing before your eyes. He does, however, have enough with about him to clue you in on the truth behind the caravan attacks. The elf Velanna has been misled. Darkspawn killed the Dalish people and may have kidnapped Velanna's sister, Seranni.

The darkspawn planted evidence to make it look like the humans did the deed. Never having known a darkspawn capable of such wit, the elf mage assumed that humans are to blame. At the end of your conversation, darkspawn surround you. It's an ambush.

Send your toughest party members at the hurlock alpha and hurlock emissary, and follow with a punishing talent/spell on the hurlock emissary, such as Crushing Prison, to keep it from casting AoE. Clear up the remaining genlocks and hurlocks after the two main darkspawn die.

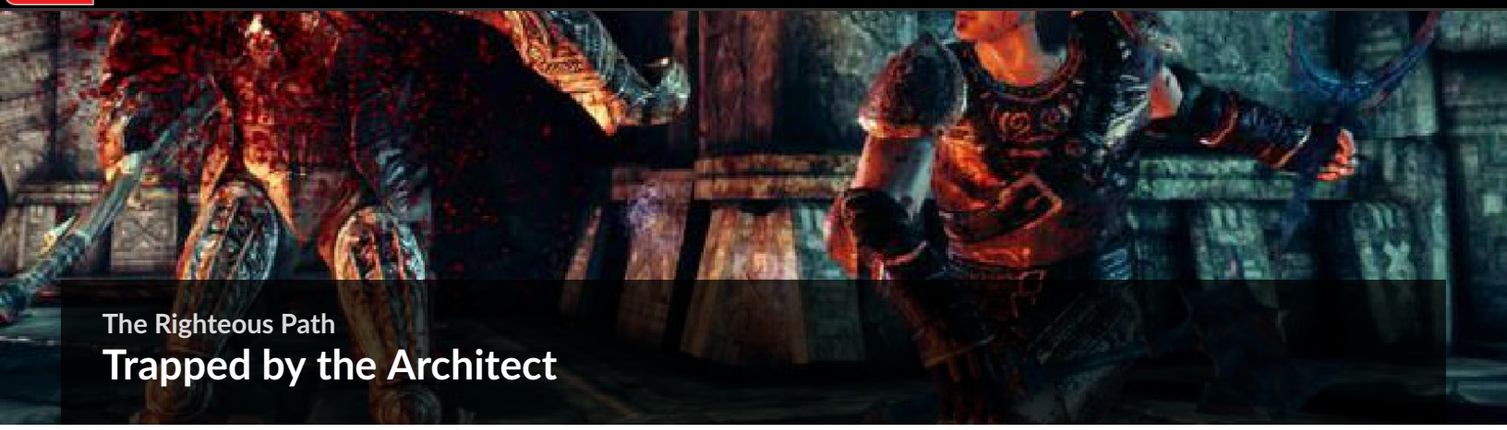
Spoiler Alert



(9)Return up the hill toward the Dalish camp. Velanna intercepts you with two wild sylvans and a group of enraged wolves, refusing to believe your "lies" about the humans. Fight through the wild sylvans and confront Velanna up in the Dalish camp.

Convince her of the truth about the darkspawn and invite her to join your party. She will add her mage abilities to the group and point you in the direction of the Silverite Mine to track down the darkspawn responsible for these crimes.

(10)The Silverite Mine lies just down the hill from the Dalish camp. Except, a large group of darkspawn now guards the entrance. Concentrate your ranged attack on the ogre and let it charge toward you. You may slay the ogre before it reaches you if your damage is high enough; if not, you'll wound it severely and take it down with a melee strikes. Then take on the rest of the darkspawn and pave a path to the Silverite Mine.



The Righteous Path

Trapped by the Architect

All is quiet when you first enter the mine. A rickety wooden staircase descends to an empty room. At the base of the staircase is a scroll with "A Miner's Letter" codex. You can walk right by it if you're not looking for it.

As you might guess, all is not as it seems. When you approach the inscribed circle stone floor, the Architect appears (there's no way around this, even if you try to avoid the circle). You're not sure what this talking darkspawn has planned for you, but you won't be happy about the first part of it. His magic knocks the whole party out, and you wake up in a strange prison cell without any of your equipment!

The Righteous Path

Silverite Mine

Runthrough (Silverite Mine)

Summary: Captured in the mine, you must recover all your gear and escape.

1 - You wake in a prison cell after being captured by the mysterious Architect.

2 - Several provides for your escape from the cell just before barbuta arrive.

3 - Complete the Architect's puzzle to receive an extra reward.

4 - Use the ballista batter of the enemy group in the chamber below.

5 - Fight back-to-back enemy groups after opening the next door.

6 - Slay the first experimental subject to regain [equipment](#) for your party.

7 - Slay the second experimental subject to regain [equipment](#) for your party.

8 - Slay the third and fourth experimental subjects to regain [equipment](#) for your party.

9 - Deal with a darkspawn necromancer and its animated dead.

10 - Speak with Armaas the trader and recover the rest of your party [equipment](#).

11 - In the arena under the watchful eyes of the Architect, defeat two dragon thralls and finally escape the Silverite Mine.

Silverite Mine Cheatsheet

Main Plot Quest: The Righteous Path

Important NPCs: Armaas Serarot

Key Items: Dragonspitz Bow, Blackblade's Helm, Blackblade's Tunic, Phulcrafter: A History Written in Blood, Dyscipulo

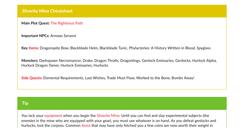
Monsters: Darkspawn Necromancer, Drake, Dragon Thralls, Dragonlings, Genlock Emissaries, Genlocks, Hurlock Alpha, Hurlock Dragoon Slayer, Hurlock Emissaries, Hurlocks

Side Quests: Elemental Requirements, Lost Wishes, Trash Must Flow, Worked to the Bone, Bombs Away!

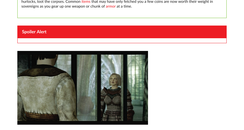
Tip

You lack your [equipment](#) when you begin the Silverite Mine. Until you can find and slay experimental subjects (the Hurlock Alpha, Hurlock Dragoon Slayer, and Hurlock Emissaries) to regain your gear, you will be limited to your weapons and hotkeys, lack the corpses Cameron loves that was how only hitched you a few coins are now worth their weight in sovereigns as you gear up one weapon or chunk of armor at a time.

Spoiler Alert

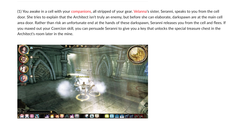


(1) You awake in a cell with your [companions](#), all stripped of your gear. Velmorn's sister, Serarot, speaks to you from the cell door. She tries to explain that the Architect isn't truly an enemy, but before she can elaborate, darkspawn are at the main cell area door. Rather than risk an unfortunate end at the hands of these darkspawn, Serarot releases you from the cell and flees. If you moved out your Combat skills ☰, you can persuade Serarot to give you a key that unlocks the special treasure chest in the Architect's room later in the mine.



(2) Loose the cell and spotted the remaining darkspawn with your bow! Sacrifice Flaunt them all in short and pick up whatever [equipment](#) you gain off their battered corpses. Your mages rocks this fight; they have few limitations on damage, while warriors and rogues without weapon [equipment](#) can rely only on certain talents to really make a difference.

Loot the corpses until you find the Hobbby Cell Key on one of the dead hurlocks. You can use that key to explore the other cells and gain some extra loot from the poor dead corpse in one and the fractured stone in another. The shimmering magical barrier to the north remains closed until you figure out the Architect's lab puzzle in the next room.



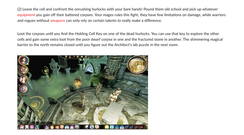
(3) Enter the Architect's lab to the north and explore the tables for various notes and codex entries. On the east side of the room are two experiment control rods. If you look below, you can see the section of the lab where the Architect experiments on unfortunate victims.

A deadly looking green gas swirls around. Under that gas are a lot of dead bodies and a treasure chest that you really want. To deactivate the intervening magical barrier on the wall to your right and disperse the gas in the lower chamber, you must figure out the lever and toucan configuration.

The lever on the left moves the active toucans one space clockwise. The lever on the right toggles the buck two beacons active/inactive. With that in mind, the easiest method for solving the puzzle is to pull the levers in this order: left, right, left, right.

Once the gas disperses, leave the lab and go back to the magical barrier in the prison block. Enter the lower lab floor through the now-opened barrier. The chest in the middle of the lower lab floor contains two awesome rewards: Dragonspitz and the Blackblade Tunic.

The tunic will make any rogue's day with +12 defense, +20% resistance, +20% cold resistance, and three rune slots, and the Dragonspitz bow with its +20 damage against dragons and +20% fire resistance will come in particularly handy in the final battle against the dragon thralls in the arena.



(4) Enter the room south of the prison block carefully. If you peek over the balcony to the floor below, you spot a cluster of Hurlocks, Genlocks, and Drakes. Use the ballista to the east of the room to fire on them. Better start the ballista and fire it at the large drake next to the enemy group. The drake crumbles on top of most of them. If any stragglers survive, meet them in the side passage to the east and finish them off there.

(5) The door in the south wall of the ballista room alerts two separate darkspawn groups to your presence. Hurlocks immediately charge after you, while genlocks hide in the rear. The genlock emissary, who likes to hang back in the rear, is the most dangerous foe of the group. Send your tank into the main fray and use your ranged party members to harass the emissary and the genlocks hiding behind him. Slay the last him down without a fig counterattack. There is a hidden room in the east wall. Inside you unlimited the Blackblade Helm.

(6) In the next room, you'll spot your first experimental subject. Throughout the mine, experimental subjects hold your missing [equipment](#). Each experimental subject wears a specific party member's gear, so if you see your tank's armor, for example, you'll know that you've found the tank's lost melee damage. Attack the experimental subject with your melee DPSers and hold back your ranged attackers.

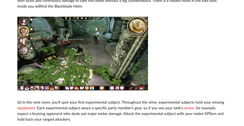
Dragonlings will pour into the area from the hole in the wall to the north. Concentrate your stuns and ranged damage on the dragonlings, while the melee fighters finish off the experimental subject. Turn the group's attention to the dragonlings after the experimental subject no longer poses a threat. Loot the experimental subject and use one of your [companions](#) to back with all his or her gear.

Tip

If you need a quick advantage in any fight against the experimental subject and surrounding enemies, slay the experimental subject's [companion](#) first. Without the benefit of [combat](#), and equip the appropriate party member with his or her gear. Suddenly, one of you is back at full strength!

Note

If you go south instead of east after leaving the first experimental subject room, you'll find Keenan for the "Lost Wishes" side quest. See the "Wrecking Wood" section in the Side Quest chapter for full details.



(7) Repeat your battle [tactics](#) in the next room, only this time on the second experimental subject surrounded by genlocks and hurlocks. Half your party is back to normal when you recover your second set of [equipment](#).

(8) Two experimental subjects, including your PC's doppelganger, wait in this chamber with a mix of dragonlings and genlocks. This fight can get a bit chaotic with all the enemies in a relatively small space. It's important for the healer to focus exclusively on healing the tank and themselves. Otherwise, the dragonlings will overwhelm the party with their AoE damage. Once your party members all be back at full strength. Now all you have to do is find the rest of your miscellaneous inventory [items](#).

Tip

In this room you'll find silverite ore for the "Elemental Requirements" side quest. If you go east instead of south after leaving the last experimental subject room, you'll find the hurlock dragon tamer for the "Lost Wishes" side quest. You'll also find bones used for "Bombs Away!" and a fresh dragon egg for "Worked to the Bone." See the "Wrecking Wood" section in the Side Quest chapter for full details on all these side quests.

(9) A new foe, the darkspawn necromancer, sets a trap for you in the next room. When he spots you, the necromancer animates several skeletons to engage the party while he retreats to the upper platform on the chamber's south side.Meanwhile, a drake and genlocks enter from the south passage.

As you try to reach the necromancer to stop his death magic, you must battle this large mix of foes. Stick the tank on the drake to eliminate its massive attacks from striking the whole team. Ranged attackers should stay at the north entrance and pick off the closest foes. Melee attackers can aid with the tank against or help the ranged attackers remove lesser foes. Once the drake dies, go after the darkspawn necromancer.

The corridor on the left after the necromancer chamber holds the Architect's room. Enter it and loot all its goodies. If Serarot gave you the key in your first dialogue, you can open the Architect's chest and gain the Ring of Discipline and the First Enchanter's Cowl.

(10) At the top of the stairs is the next room, your final fight with your party members. Armaas, he's a trader who doesn't take sides and is more than happy to trade with the darkspawn for a nice profit. You can trade with him yourself, and with a high enough Coercion skill, you can get him to give you a discount. Armaas can also be convinced to trade with Flight Heirs, which helps fulfill the "Trade Must Flow" side quest. The chest to the left of the arena door holds the rest of your party's inventory [items](#).

Tip

If you figured out the puzzle in the Architect's lab and gained the treasure, equip Dragonspitz now. With its +20 damage versus dragons, it's the best weapon you can ask for in the arena battle.

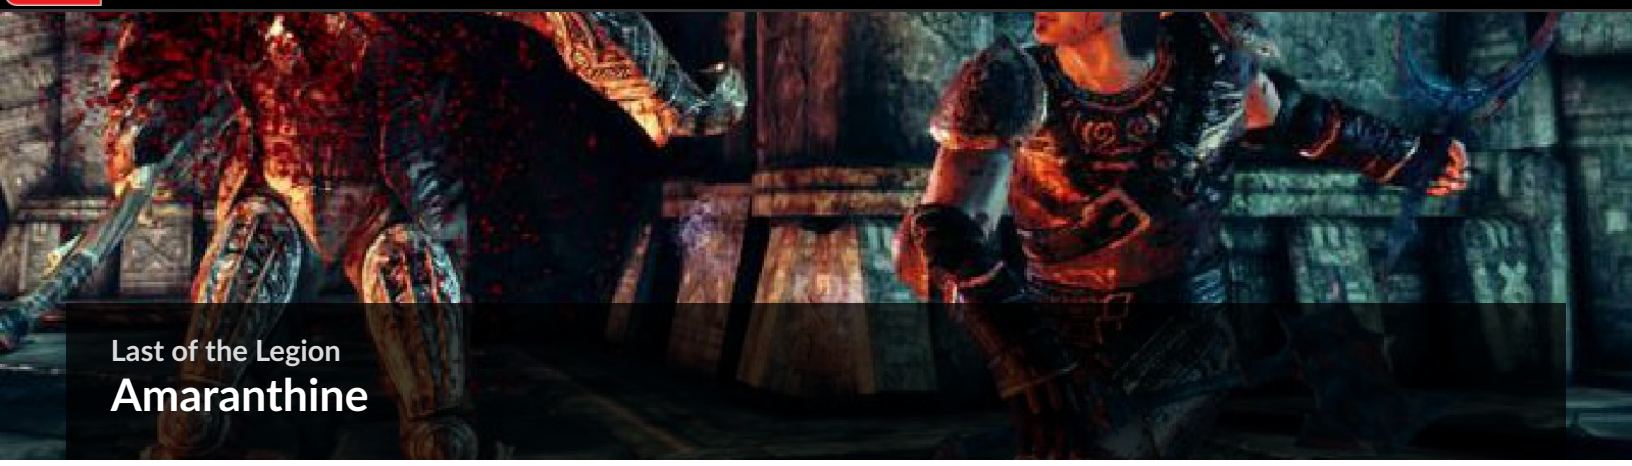
(11) The final room is a giant arena overseen by the Architect and his allies. You enter at full strength, ready to take on any challenge, even two dragon thralls at once! The Architect apparently wants to test your battle prowess, so he sends the two dragons on you. Spread out immediately so the dragons' fire breath doesn't hit multiple party members at once.

After landing and engaging briefly, the dragon thralls launch back into the air and reposition. When they land, glance at both dragons and see which one's health is lower. Send all your attacks at that dragon. It's important to kill one first, rather than deal with two wounded yet dangerous dragons, and it's very easy to mix them up when they take to the air. If you can stay one without heavy losses, the damage will pile up on the remaining one quickly and you'll win the day.

Achievement & Trophy Tip

Blind Vengeance

When you defeat the two dragon thralls and finally escape the Silverite Mine you earn the "Blind Vengeance" Achievement/Trophy. Follow the walkthrough strategies during the twin dragons. You earn this achievement/trophy after you physically leave the arena and mine.



Last of the Legion
Amaranthine

Note

There are three main quests in *Awakening* : "Shadows of the Blackmarsh," "The Righteous Path," and "Last of the Legion."

You can attempt the quests in any order, but it's probably best to do "Last of the Legion" third. You gain Sigrun, a second rogue companion, but because you begin with your first rogue, Nathaniel Howe, at Vigil's Keep, it's not essential to find Sigrun early in the game.

Beginning the Quest

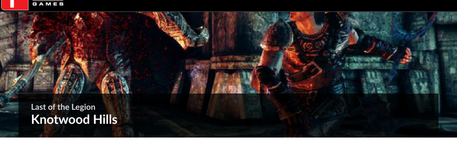
When you're ready to begin your third major quest out in the lands of Amaranthine, speak with Captain Garevel in the Vigil's Keep throne room. He tells you a hunter stumbled upon a mysterious darkspawn chasm in the Knotwood Hills. At the conversation's conclusion, you gain the "Last of the Legion" quest.

Amaranthine

When you enter Amaranthine, look for Colbert near the main entrance. Colbert explains that he and his partner Micah saw darkspawn emerge from a chasm in the Knotwood Hills, and he marked the spot on his hunting map. He has no interest in pursuing that sort of danger, but guesses that you do. When you're finished in Amaranthine, travel to the new location on the world map: Knotwood Hills.

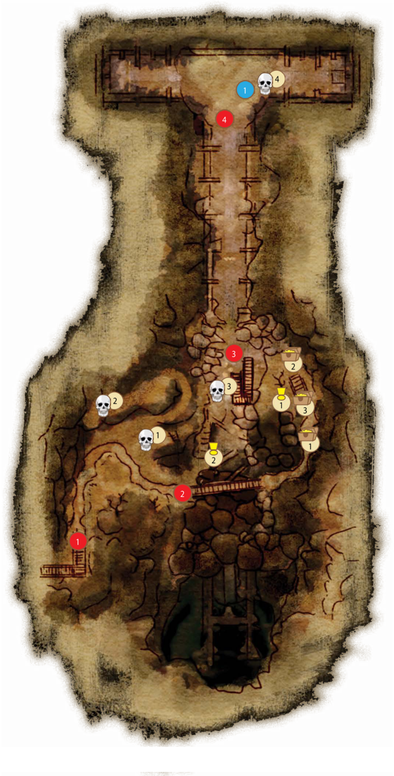
Note

If this is your first time visiting Amaranthine, there is a lot to do in the bustling city. See the "Amaranthine" section in the Side Quests chapter for all the events and quests not directly related to the main quests.



Last of the Legion

Knotwood Hills



Runthrough (Knotwood Hills)

Summary: Search the Knotwood Hills for the chasm that Colbert mentioned.

1 - Enter the Knotwood Hills.

2 - Cross the bridge over the chasm.

3 - Beware of deepstalkers near the entrance to the Deep Roads.

4 - Save Sigrun from hurlock clutches.

Knotwood Hills Cheatsheet

Main Plot Quest: Last of the Legion

Important: NPCs Sigrun

Key Items: Hirol's Lava Burst

Monsters: Bereskarn, Deepstalker Leader, Deepstalkers, Hangmen, Hurlock Alpha, Hurlocks

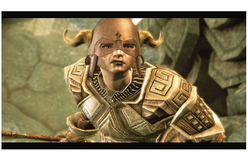
Side Quests: The Long-Buried Past, Lucky Charms

Spoiler Alert

(1) A short distance down the path after entering Knotwood Hills, a lone bereskarn attacks. It tries to ambush you after the short rise as the path first crests; if you send your tank to intercept first, you party will have no trouble. Up on the hill to your left, two hangmen conduct dark business. You can bypass them completely, unless you want the extra experience from these human thugs.

(2) Wind down to the bridge that crosses the chasm. On the far side, look for the beginning of crisscrossing stairs that continue down. At the foot of the first set lies a chest with "The Long-Buried Past" side quest and a Hirol's Lava Burst gift (ideally for Oghren).

(3) At the base of the next set of stairs, deepstalkers attack if you head to the south away from the northern Deep Roads entrance. If you brave the deepstalkers, you can gain the "Lucky Charms" side quest when you find Micah's lucky deer foot in a bag.

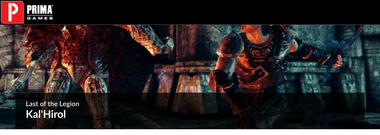


(4) Continue north to the T-intersection. Hurlocks are overwhelming a female rogue in golden armor. She fights valiantly, but it's up to you to step in and save her from the swarm. Send your tank at the hurlock alpha and the rest will fall easily once you take the alpha down. Sigrun lends her rogue melee expertise to the fight too.

After the battle, she explains that she's the last of a failed Legion foray against the darkspawn at Kal'Hirol, an ancient dwarven fortress. She intends to avenge her fallen comrades, and you can invite her to join your party as you descend into the Deep Roads to continue unraveling the mystery of sentient darkspawn.

Tip

Take Sigrun in your party. You can leave her behind, but her trap-detecting skills will help you throughout Kal'Hirol, and if Sigrun is present when you reach Kal'Hirol's main gate, Sigrun points out a secret side entrance that will save you a lot of aggravation.



Last of the Legion

Kal'Hirol

Runthrough (Kal'Hirol)

Summary: Travel through the Deep Roads to reach Kal'Hirol.

1 - Follow the Deep Roads to the outskirts of Kal'Hirol.

2 - Speak with the dying legionnaire, Jukka.

3 - Darkspawn try to ambush you after you speak with Jukka.

4 - More darkspawn challenge you.

5 - Cross the bridge and engage more deepstalkers.

6 - Combat the darkspawn at the far gate.

7 - Survey the front courtyard after dealing with childer grubs.

8 - Enter Kal'Hirol.

Kal'Hirol Cheatsheet

Main Plot Quest: Last of the Legion

Important NPCs: Jukka

Key Items: Ancient Boots, Whetstone

Monsters: Childer Grubs, Deepstalkers, Genlock Alpha, Genlocks, Hurlock Alpha, Hurlocks, Shriek, Alpha Shrieks

Side Quests: None

Spoiler Alert

(1) Take in the dramatic view as you enter Kal'Hirol. Soon you'll be on ground level eye to eye with angry darkspawn.

(2) You meet a dying legionnaire, Jukka. He tells you that the darkspawn are breeding an army in the depths of Kal'Hirol. To stop the army, you must destroy the broodmothers responsible.

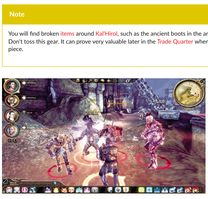
(3) Several paces after leaving Jukka, the darkspawn ambush you. Genlocks flank you on either side after you cross into the open area. Send your tank against one side and your next strongest melee DPSer against the opposite side. The healer and fourth party member support whichever side looks like they need it more. After the genlocks go down, shrieks will sneak attack when you think the battle is over.

(4) Hurlocks ambush you before the bridge. Look for two groups to swarm out from behind the rocky outcropping to the southwest. As with the genlock ambush, split the tank and second melee DPSer to separate enemy groups.

(5) On the far side of the bridge, deepstalkers harass you on the climb up the hill. Finish them off and pick up your first signs of treasure in the area with the nearby vase and ancient dwarven crate.

Note

You will find broken items around Kal'Hirol, such as the ancient boots in the ancient dwarven crate near the deepstalkers. Don't toss this gear. It can prove very valuable later in the Trade Quarter when you find the special smith to repair each piece.

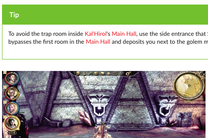


(6) You reach the outer walls of Kal'Hirol at the top of the hill. A host of darkspawn guard the outer gate. Expect a swarm of skirmishing hurlocks to pin you down while the hurlock archers take shots at you from range. Send your melee characters into the charge and hold the line. Ranged attackers should bring down the darkspawn ranged attackers (if they're in range) first, then turn the fireworks on the melee darkspawn. Heal often to avoid losing anyone in this fight.

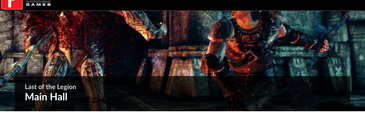
(7) Inside the courtyard, deal with the childer grubs that spring forth from the pods in the area. Stay near each other as the grubs attack. If someone gets overwhelmed, turn the party's attention to that character's aid. The grubs aren't difficult on their own, but they can swarm you quickly if you aren't careful. Loot the area and then make your way up the steps to Kal'Hirol's main entrance (if you don't have Signun in your party).

Tip

To avoid the trap room inside Kal'Hirol's Main Hall, use the side entrance that Signun shows you. The side entrance bypasses the first room in the Main Hall and deposits you next to the golem master.



(8) If you have Signun in your party, search the western courtyard wall for a hidden switch near the carved visage. Open the secret door and enter the side courtyard. The side entrance into Kal'Hirol routes you to the upper level where you can sneak attack the golem master that coordinates the darkspawn's main gate defenses.



Last of the Legion
Main Hall

Runthrough (Main Hall)

Summary: Navigate the Main Hall as you descend deeper into Kal'Hirol.

1 - Enter the Main Hall and hold your party.

2 - Send your rogue through the traps gingerly.

3 - Bring down the golem master and surrounding darkspawn.

4 - Avoid more traps as you crush genlocks.

5 - Continue through the southern section of the hall.

6 - Fend off a disciple scout and hurlocks in the narrow corridor.

7 - Genlocks try to lock down the next room.

8 - Corrupted spiders ambush you as you near the end of the hall.

9 - Exit the Main Hall.

Main Hall Cheatsheet

Main Plot Quest: Last of the Legion

Important NPCs: None

Key Items: Cracked Breastplate, Lyrium Ring

Monsters: Corrupted Spiders, Disciple Scout, Genlock Alpha, Genlock Emissary, Genlocks, Golem Master, Hurlock Alpha Hurlock Emissary, Hurlocks, Stone Golems

Side Quests: Bombs Away!

Spoiler Alert

Note

It's best to bypass this first room with Signun's help. If you don't have Signun in your group, switch to another rogue and have them load through the traps, disarming as many as possible before the rest of the group comes through. If you don't have a rogue, go very slowly and watch your step.

(1) Assuming you haven't used the secret side entrance, hold your party at the entrance to this first room. It's full of fire traps that trigger with pressure plates in the floor. Hurlock archers stand at the ready shortly inside, so you'll have to take them out as well, and the golem master on the upper level periodically sends magic bolts down to animate stone golems along the walls, making for more enemies to combat amid deadly traps.

(2) The trick to surviving the trap room is patience. Send your rogue and any ranged party member a few paces into the room. The rogue should point out the pressure point triggers in front of you. Stop your party before these and use ranged attacks only to kill all the hurlock archers in sight. Before the first golem activates, your rogue should drop down and deactivate as many of the nearby pressure plates as possible. Now, when the stone golems activate, you have a trap-free area to fight in.

(3) Repeat the process until you reach the stairs up to the next level. If you have no active stone golems, race your party up the stairs and attack the golem master and his surrounding darkspawn. The golem master drops a golem control rod when ou defeat him. If you pick up the golem control rod, you can click on a golem in the next hallway; it will come to life and fight on our side for a while. Note that if you enter via the secret side entrance, you arrive in the Main Hall at this point.

(4) After the golem master, take the stairs down and watch the various dwarven spirits reenacting the fall of Kal'Hirol. These harmless spirits deliver interesting information about Kal'Hirol's story. Pause as you enter the next room. Again, you have pressure plates on the floor in front of you, ready to spit fire on any party member foolish enough to charge in.

Fire at range on any darkspawn you spot on the stairs flanking the room while your rogue disables the pressure plates. Then charge in and deal with the darkspawn up the stairs.

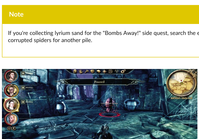
(5) Enter the grand concourse and head south (the north section is blocked). In the room to the south, corrupted spiders drop from the ceiling. After you crush the vile bugs, search the surrounding area for loot. You'll find a cracked breastplate among the *plunder*.

(6) There are two exits to the south. Take the one on the left and blast a strong ranged AoE down the corridor at the waiting disciple scout and hurlocks. As they charge, switch to melee and fight them at the doorway. Your whole group can attack while only one or two enemies will fit through at the choke point.

(7) As you round the corner after the disciple scout's group, genlocks swarm out and try to overrun you. Throw your tank into the fray and try to clog up the doorway. The healer should concentrate on the tank as the rest of the group chips away at the flanking genlocks. If the tank stays up, the genlocks should slowly fall.

Note

If you're collecting lyrium sand for the "Bombs Away!" side quest, search the eastern room between the genlocks and corrupted spiders for another pile.

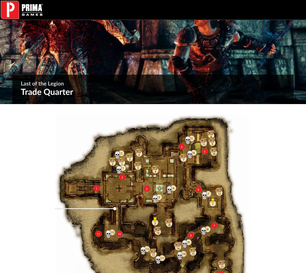


(8) Continue north as you wind between the irregularly shaped underground chambers. Corrupted spiders will once again drop down on you as you near the main hall exit. Squash them into pulp unless you want to taste the inside of a cocoon.

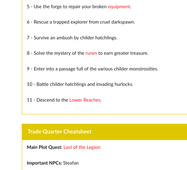
Tip

Find the Lyrium Ring in the small side passage next to the corrupted spiders. Pick it up for Justice and earn a hefty approval bump.

(9) The exit to the Trade Quarter lies to the east in the last large chamber. Nothing prevents you from leaving at this point. However, if you want some more experience and loot, head north and battle the hurlock alpha and his hurlock buddies. A somewhat hidden crate rests atop the platform at the center of the room, and you can grab the Staff of Vigor and a shattered maul off the dead hurlock emissary.



Lot of the Legion
Trade Quarter



Runthrough (Trade Quarter)

Summary: Navigate the Trade Quarter as you try to find the Lower Reaches.

1 - Enter the Trade Quarter.

2 - Investigate an interesting burial chamber.

3 - Jump into a battle of darkspawn versus darkspawn.

4 - Advance to the forge.

5 - Use the forge to repair your broken equipment.

6 - Rescue a trapped explorer from cruel darkspawn.

7 - Survive an ambush by childer hatchlings.

8 - Solve the mystery of the runes to earn greater treasure.

9 - Enter into a passage full of the various childer monstrosities.

10 - Battle childer hatchlings and invading hurlocks.

11 - Descend to the Lower Reaches.

Trade Quarter Cheatsheet

Main Plot Quest: Lot of the Legion

Important NPCs: Stoafan

Key Items: Carved Greenstone, Engraved Silver Bracers, Gauntlets of Hirol's Defense, Girdle of Kal'Hirol, Helm of Hirol's Defense, Nature's Blessing

Monsters: Childer Alphas, Childer Grubs, Childer Hatchlings, Genlocks, Hurlock Alpha, Hurlock Emissary, Hurlocks, Invading Genlocks, Invading Hurlocks, Steel Golems

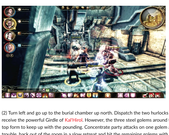
Side Quests: Bombs Away!, Elemental Requirements, 'Wrong Place, Wrong Time', Memories of the Stone

Spoiler Alert

(1) When you enter the Trade Quarter, you witness a rather strange sight: darkspawn battle darkspawn in front of you. Throughout the level, invading genlocks and hurlocks attack normal genlocks and hurlocks. Eventually, all darkspawn will attack you, but if you sit back and let them slug it out, you can take advantage of wounded darkspawn.

Caution

Avoid the steel golem room with the Girdle of Kal'Hirol if you fear fighting three steel golems at once. The loot makes it worth it, but only if you don't wipe.



(2) Turn left and go up to the burial chamber up north. Dispatch the two hurlocks and then search the sarcophagus. You'll receive the powerful Girdle of Kal'Hirol. However, the three steel golems around the room will activate. The leader has to be in top form to keep up with the pounding. Concentrate party attacks on one golem and take it down quickly. If you run into trouble, back out of the room in a slow retreat and hit the remaining golems with ranged attacks to weaken them. Repeat all attacks on the second golem, and finish off the third before your healing runs out.

(3) In the central square room, invading darkspawn battle regular darkspawn. Circle the room and pick off any survivors of the small skirmishes. Try not to pull multiple enemy groups at your party at once.

Note

In the side chamber northeast of the central square chamber, you can find more lurium sand for the "Bombs Away!" side quest. If you head south into the small side room, you can also discover the "Memories of the Stone" side quest.

(4) Another massive darkspawn-on-darkspawn battle takes place at the forge. Wade into the fight carefully as the two forces can easily overtake you if you plunge in between the two main groups. Rather, stand back on the stairs and rain AoE on each group. When darkspawn splinter off and charge, your tank and melee DPSers can meet them at the base of the stairs. Eventually, there will be piles of darkspawn bodies everywhere.

Note

On the western side of the forge, search the iron deposit for iron ore if you want to advance the "Elemental Requirements" side quest.

(5) On the eastern side of the forge, pick up the damaged axe on the floor and search the area for more loot. The lurium bucket near the forge will trigger a party dialogue (if you have Anders in your party and agree with his thoughts on lurium, you gain +10 approval boost). Use the nearby anvil to repair the damaged equipment you've been picking up throughout Kal'Hirol. If you have them all, the repairs will fetch you the following magic items: Hemplitter (axe), Valos Aredrum (mace), Greaves of Hirol's Defense (massive boots), and Breastplate of Hirol's Defense (armor).

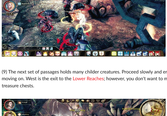
Note

All the damaged equipment you picked up throughout Kal'Hirol can be repaired on the anvil at the forge.

(6) Leave the forge and travel south. A few hurlocks block your path as you enter the next chamber. After you slay the hurlocks, speak with Stoafan imprisoned in the cage hanging over the lava. See the "Wrong Place, Wrong Time" quest in the Side Quest chapter for the various possibilities regarding Stoafan's release.

(7) You witness a gruesome sight in the next passage: childer hatchlings feast on what appears to be decaying darkspawn bodies. Slay these despicable creatures one by one before they have any chance of surrounding you.

(8) In the southeast chamber, a series of runes lines the walls around a sealed sarcophagus. Activate the runes so that each rune matches the symbol on the stone wall behind it. Once all runes are properly aligned, the sarcophagus opens and reveals the Gauntlets of Hirol's Defense and the Nature's Blessing amulet.



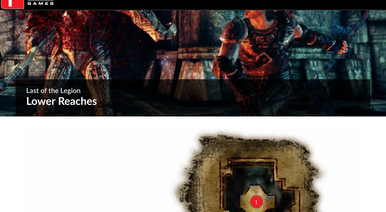
(9) The next set of passages holds many childer creatures. Proceed slowly and engage only a single group at a time before moving on. West is the exit to the Lower Reaches; however, you don't want to miss the treasury to the south and its five treasure chests.

(10) In the final chamber, invading hurlocks hack away at childer hatchlings. It's a large brawl, so keep your party back to avoid flanking. Use your stronger ranged attacks to whittle down either side and let the stragglers come to you. A few well-placed AoE attacks will reduce the numbers to manageable levels quickly.

Note

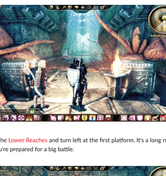
A lever to the north of the Lower Reaches entrance opens a secret passage back up to the earlier Trade Quarter rooms. It's a quick way back in case you missed something.

(11) You've found the entrance to the Lower Reaches! Heal up and descend once you're ready for two epic battles.



Last of the Legion

Lower Reaches



Runthrough (Lower Reaches)

Summary: Slay the Lost and the broodmothers to avenge the fallen legionnaires.

1 - Enter the Lower Reaches.

2 - Battle the Lost and the inferno golem.

3 - Prepare for the first tentacle barrage from the broodmothers.

4 - Enter the broodmother chamber.

5 - Destroy the first chain.

6 - Destroy the second chain and crush the broodmothers.

Lower Reaches Cheatsheet

Main Plot Quest: Last of the Legion

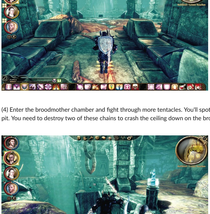
Important NPCs: Signun

Key Items: None

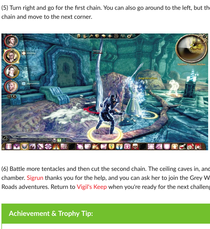
Monsters: Inferno Golem, The Lost, Tentacles

Side Quests: Golem's Might

Spoiler Alert



(1) Enter the Lower Reaches and turn left at the first platform. It's a long run down to the next chamber, but don't rush in unless you're prepared for a big battle.



(2) When you enter the second chamber, you witness the Lost's pet, an inferno golem, tear apart the commander of the invading darkspawn sent by the Architect to destroy the Lost. After a moment, the Lost turns his attention on your party. He sends the inferno golem to smash you to pieces as he summons forth an Inferno. You can't retreat back down the corridor (it magically seals behind you), so your only choice is a fight to the death.

Match your tank on the inferno golem and keep it off the rest of the party. The golem hits really, really hard, so keep your healer on the tank. Send Signun (or any other rogue) directly at the Lost and stun him immediately to prevent the Inferno from finishing.

If you have ranged attacks, use those to impede the Lost's spellcasting. Stay close to the Lost so that he can't catch you in a nasty AoE. The tank should circle the battle against the Lost in the chamber's center, holding the golem's full attention until the other two party members kill the Lost. At that point the full party strength can finish off the golem.

You'll be rewarded with the Staff of the Lost, the Battlemage's Cinch, the Inferno Golem Shell, a flawless ruby, and a flawless diamond. The shell is one of the ingredients in the "Golem's Might" side quest.

(3) Exit the Lost's chamber and follow the passage down to the broodmother chamber. After you turn the corner, expect your first attack from broodmother tentacles. They burst out of the stone floor around the corner and ambush you. As with all tentacle attacks, send the melee DPSers to engage the tentacles and back everyone else out to ranged attack range to minimize damage.

(4) Enter the broodmother chamber and fight through more tentacles. You'll spot four chains at the corners of the broodmother pit. You need to destroy two of these chains to crash the ceiling down on the broodmothers.

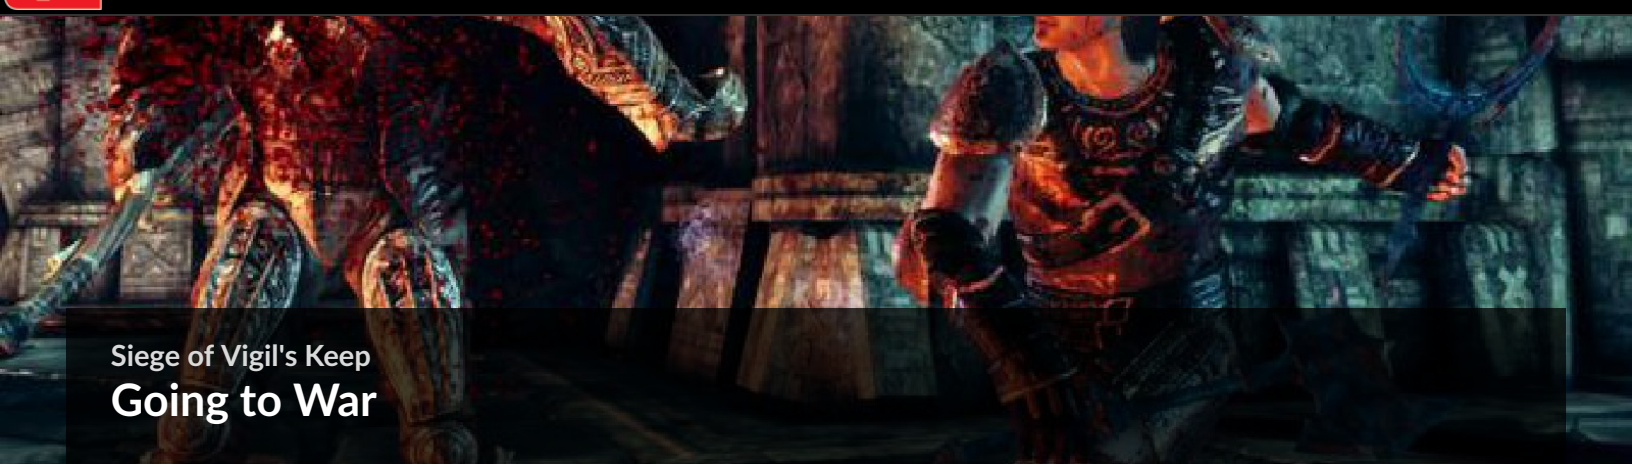
(5) Turn right and go for the first chain. You can also go around to the left, but there's a little more resistance that way. Cut the chain and move to the next corner.

(6) Battle more tentacles and then cut the second chain. The ceiling caves in, and it's the end of this broodmother birthing chamber. Signun thanks you for the help, and you can ask her to join the Grey Wardens before she departs for more Deep Roads adventures. Return to Vigil's Keep when you're ready for the next challenge: saving Amaranthine.

Achievement & Trophy Tip:

Savior of Kal'Hirol

When you crush the broodmothers at the end of Kal'Hirol, you earn the "Savior of Kal'Hirol" Achievement/Trophy.



Siege of Vigil's Keep

Going to War

Note

After you complete the three main quests and speak with Varel, you will go to war against the invading darkspawn armies. Your party will head to Amaranthine where the battle is already underway. After combat at Amaranthine's main gate ends, you will be given a choice: save Amaranthine or save Vigil's Keep. You can only choose one; the other will be destroyed.

Spoiler Alert

When you return to Vigil's Keep throne room after completing the three major quests - "Shadows of the Blackmarsh," "The Righteous Path," and 'Last of the Legion" - Senschal Varel will have one final quest for you. Speak to him when you are fully geared and have spent most of your money upgrading runes, bulking up your store of potions, and swapping inventory equipment until your four main characters have the best of the best.

News reaches you that a darkspawn army advances on the city of Amaranthine. It will take too long to mobiize the keep's forces to stop an attack, so you volunteer your party to intercept. Choose your party wisely. depending on your forthcoming actions, these may be the final party members for the rest of the game.

Go straight to Amaranthine, where the battle has already begun. Darkspawn swarm the city, and you enter combat as soon as you arrive at the front gate. Fight through the genlocks, hurlocks, and childers to save the citizens at the gate. If your party starts to get flanked, retreat to your starting location where you can only be attacked head on.

Once the first combat ends, Constable Aidan approaches and explains that the city may be lost. Darkspawn somehow poured into the city during the night and ravaged the population. The city guard is in disarray and under constant attack.

Before you can make a decision, a messenger from the Architect arrives and informs you that the Mother's army moves on Vigil's Keep. While you're occupied here, the Mother wants Vigil's Keep destroyed.

You now have a choice: save Amaranthine or save Vigil's Keep. You cannot save both. Despite the current state of affairs in Amaranthine, it can be saved with some hard work, or you can give the command to burn the city to the ground and race back to Vigil's Keep to support your fellow grey Wardens. If you choose to save Vigil's Keep, read the next section. If you choose to save Amaranthine, skip the next section and read the following section.

Siege of Vigil's Keep

Siege of Vigil's Keep

Bunkrough (Siege of Vigil's Keep)

Summary: Survive the siege on Vigil's Keep.

1 - Enter the courtyard.

2 - Battle the first wave at the front gate.

3 - Rally to the east gate defenses.

4 - Battle the second wave at the front gate.

5 - Battle the third wave at the front gate.

6 - Return to the courtyard to use the heretic disciples.

7 - Survive the mighty armored ogre.

8 - Finish off the Herald.

Siege of Vigil's Keep Cheatsheet

Main Plot Quest: The Awakening

Important NPCs: Captain General Sonechal Varel

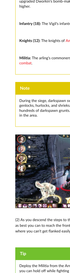
Key Items: Barbed Flats Blessing of the Divine Helm of Dragon's Peak

Monsters: Armored Ogre, Cthilor Hatchling, Alphas, The Herald, Heretic Disciples, Ogres, Shrink Alphas

Side Quests: None

Achievement & Trophy Tip

The Enduring Vigil



You earn "The Enduring Vigil" Achievement/Trophy if you fully upgrade Vigil's Aegis for the siege. You must have the city walls constructed to the Dwarf Stability, your men completely outfitted by Master Wade, and Vigil Keep's basement cleared of all darkspawn and the Deep Roads sealed off.

To do all this and earn the achievement/trophy, you need to complete the following side quests: pay 80 sovereigns and find gnarls for Alistide in the quests "Cost of Doing Business" and "What's Built Endures" find iron ore, diorite ore, and vertilium ore for "Elemental Requirements," and exit off the Deep Roads beneath the keep by completing "It Comes from Beneath" and "Sealing the Canal Barrier Doors." See the Side Quest chapter for complete details.

Spoiler Alert

(1) The darkspawn have already launched the first attack on the keep walls as you leave the throne room. How long the keep lasts depends on the Vigil's Keep side quests you performed throughout the game. If you upgraded the walls through Alistide "Cost of Doing Business" and "What's Built Endures," your walls will not be able to bear through the walls. If you upgraded your soldiers' armor through Hemm and Wade "Elemental Requirements", the soldiers will be tougher. If you sealed off the underground entrances in the Vigil's Keep Basement ("It Comes from Beneath" and "Sealing the Canal Barrier Doors"), darkspawn will not sneak through the basement and attack women and children during the siege.

Captain General Varel is in the courtyard and tells you that darkspawn attack different sections of the keep. You'll need to bounce around to the different sections to ensure that no darkspawn breach the inner defenses. Your first battle is to the south at the front gate.

The Arma Picker

You have allies in the battle to save Vigil's Keep. Depending on your actions and accomplishments throughout the game, various factions join to fight the darkspawn. The Arma Picker allows you to select armies to be deployed in specific areas. Each army has a limited number of troops that can be deployed, and each army can be deployed only once. Armies can be deployed only once, and only a single army can be active in one area. Once an army has been defeated in an area, you can deploy another army four allies are composed of:

Archer: A skilled archer in a high perch awaits the Warden-Commander's choice of target. Note that if you acquired Jeyne, the archer ability will cause 50 percent more damage.

Infantry (10): The Vigil's Infantry are competent, professional soldiers sworn to defend the ailing of Amaranthine.

Knights (12): The knights of Amaranthine are elite warriors, each the product of a lifetime of individual training.

Militia: The ailing's commoners are comfortable with bows, but cannot stand as long as professional soldiers in melee combat.

Note

During the siege, darkspawn swarm different sections of the keep. Expect heavy resistance from all forms of children, genlocks, hurlocks, and shrieks. The enemies stashed on the map are the primary foes for each encounter, and the hundreds of darkspawn grunts. Defeating the primary foes in each keep section prevents more darkspawn from spawning in the area.

(2) As you descend the steps to the front gate, genlocks and shrieks charge you with pick-axes left and right. Wade through the creatures as best you can to reach the front gate. Stay together as a party for maximum support and to pick up injured allies in areas where you can't get flanked easily. While fighting the normal darkspawn, look for heretic disciples to emerge through the gate.

Tip

Deploy the Militia from the Arma Picker during the first wave at the front gate or the chitter attack on the east gate. If you can hold off while fighting the heretic disciples' forces, save the Militia for the later battles.

Once you spot a heretic disciple, cut free from whatever foes you're currently battling and go after the disciple. You must defeat the disciple to stop the rest of the darkspawn from spawning in the area. After you slay the heretic disciple, finish off whatever darkspawn remain in the area and wait for Captain General to signal that the area is secure.

(3) Swing back up to the courtyard and go east to the side gate. All forms of children rush into the small courtyard and attack the soldiers between the buildings. Seek out the children hatchling alphas and make them your priority. Deal with all the children hatchling alphas to prevent more spawning and you can get a handle on the remaining children in the area. Eventually, Captain General will signal that the area is secure.

Spoiler Alert

Tip

Deploy the Infantry from the Army Picker during the ogre attack on the front gate for much-needed defensive support.

(4) After the children are slain, return to the front gate. Sonechal Varel is under attack by ogres and even greater numbers of darkspawn. Target the ogres to shut down the spawn in the area. Rush to Varel's aid, but you will be too late. Varel dies in his attempt to defend the keep, though you can finish what he could not.

Note

After defeating the ogres at the front gate, you gain access to the keep inside. She sells you health poultices and torturn potions at a very large discount.

(5) Stand tall for the next enemy wave at the front gate. After you have a moment's rest where you can stock back up at the keep, the darkspawn launch their third attack against the front gate. Deploy the Infantry from the Army Picker and deploy the Knights from the Army Picker, you can deploy them here to help out. Stay together as a party. Move from alpha shrink to alpha shrink dashing each, then clean up the rest of the miscellaneous darkspawn in the area. Captain General will signal when the area is secure.

Tip

Deploy the Knights from the Army Picker during the heretic disciples' attack on the courtyard for much-needed defensive support.

(6) Return to the courtyard up top and engage the heretic disciples. Rely on some support to battle the many heretic disciples, such as the Knights from the Arma Picker. This fight will likely take longer due to your foes' toughness, so take it slowly and don't engage multiple disciples if you can help it.

Tip

Deploy Dworelin's bombardment attack from the Army Picker during the battle against the armored ogre. It takes serious damage to take it down, but he sure you back up when Dworelin unleashes his explosions.

(7) After the heretic disciples are down, a massive armored ogre assaults the keep. It will take all your efforts to bring the beast down. Send the tank directly at the ogre and keep the party healing on the tank so that he stays above 50 percent health at all times. Try to sneak a rogue behind the ogre for backstabbing, or another melee DPSer for maximum damage while staying behind the armored ogre's back. Ranged DPSers can attack from afar, but watch out for the ogre's ranged attacks. Use your mages' quickfire, the healer must Heal, Group Heal, Lifeward, or throw up a Force Field immediately when this occurs or you'll have one dead party member. Also, watch out for its whirlwind attack, which deals tremendous damage to all adjacent melee attackers. When the ogre begins to spin, jump out of the way or activate a defensive maneuver, such as a rogue's Ghost talent. Hit the armored ogre with everything you've got to slay it before it slays you.

After the battle, you can loot the armored ogre for two superb magic items: the Helm of Dragon's Peak and Barbed Flats.

Tip

Deploy the Archer from the Army Picker when you confront the Herald. The Archer's single target damage supplements your party's attacks well.

Note

If you have completed all the necessary side quests and earned the Enduring Vigil achievement, you will face the Herald in the second battle instead. If you do not have Enduring Vigil, the armored ogre is the last foe you must defeat in the siege.

(8) With all its minions fallen in battle, the Herald enters the keep as the last foe to carry out the Mother's plan to destroy Vigil's Keep. After dispatching the armored ogre, load up and descend the stairs to the front gate. You'll see the Herald in the distance. Similar to the armored ogre battle, send the tank and melee DPSers directly at the Herald with ranged attackers and healers hanging back. Maintain steady healing on the tank, and as long as the tank can hold the Herald's attention, you should bring him down in a long fight. If the general of the darkspawn army gets loose and starts one-shotting your weaker companions, you're in trouble.

If damage mounts on a party member, immediately activate your best defensive talent or spell to survive the Herald's barrage. It's better to keep your characters alive than to worry about sneaking in extra damage. You're in the fight for the long haul.

After the battle, you can loot the Herald for the excellent Blessing of the Divine ring.

Achievement & Trophy Tip

Keeper of the Vigil

Once you save Vigil's Keep from the darkspawn siege, you earn the "Keeper of the Vigil" Achievement/Trophy. Note that you can only receive this reward or "Amaranthine's Last Hope" during a single playthrough.

When the armored ogre and the Herald finally fall, Vigil's Keep is saved. Now all that remains is to journey to the Mother's nest and slay the abomination that has caused all this death and misery.

Siege of Vigilo Keep

Siege of Amaranthine

Roundmap5: Siege of Amaranthine

Summary: Survive the siege on Amaranthine.

1 - Approach the fighting within the city.

2 - Save the first group of city guards.

3 - Save the second group of city guards.

4 - Save the third group of city guards.

5 - Withstand the darkspawn reinforcements on the stairs.

6 - Save the fourth group of city guards.

7 - Save the fifth group of city guards.

8 - Save the sixth group of city guards.

9 - Save the seventh group of city guards.

10 - Regroup in the Chantry

11 - Exit the Chantry and rejoin the fray.

12 - Slay the children pouring out of the Crown and Lion.

13 - Track the disciple general into the Crown and Lion.

14 - Enter Smuggler's Cove and destroy the second disciple general and adult children.

15 - Save Amaranthine by defeating the armored ogre and final disciple general.

Siege of Amaranthine Cheatsheet

Main Plot Quest: The Awakening

Important NPCs: Captain Garrosh, Constable Aidan

Key Items: None

Mounters: Adult Children, Armored Ogre, Children Grabs, Children Hatchlings, Disciple Gennesh, Gentock Alpha, Gentock Shadows, Gentock Storm, Gentocks Hurlock, Emhrayne Hurlock, Gnarls Hurlock, Guardian Hurlock, Sniperx Hurlocks, Tiger Shrieks

Side Quests: None

Note

If you ask the Messenger to fight with you, the Architect's minion will accompany you as a roving NPC to battle the darkspawn.

Spoiler Alert

(1) Once you choose to abandon Vigil's Keep and save Amaranthine, prepare for a nonstop run through the city to thwart the darkspawn siege. From the battle at the main gates, run north to the first intersection and pick off a straggler children hatchling as you turn left toward the Market District.

(2) Gentocks and hurlocks attack the first city guard group in the Market District. Rally to the guards' defense and charge right in. The longer you wait, the better chance the darkspawn have to defeat the guards, so don't waste any time with elaborate battle plans. It's time for brute force.

(3) An adult children and hurlocks join the second guard group in the side alley north of the first marked encounter. Get to them as quickly as you can and kill your high DPSers do their thing. The more guards that you save early on, the easier it will get as you proceed. Guards that you save join you to fight darkspawn in the immediate area.

(4) Gentocks and children grubs surround the third guard group near the northern stairs out of the market to the back of the city. The third group isn't as tough as the second enemy group; however, darkspawn reinforcements will pour down the nearby stairs and try to overwhelm you as you approach.

(5) When you near the stairs, watch for the gentlock shadows and shrieks who will suddenly appear behind you for backstab attempts. Keep your party together and stand across the stairs slowly after you've saved the third city guard group. A second wave of reinforcements, including a hurlock emissary, will slow you down on the steps. Proceed only after dispatching these enemies or else you'll be harassed later from the back and front.

(6) As rage and its smaller hurlock companion terrorize the fourth city guard group, fear your tank toward the ogre and taunt it away from the guards. Use your strongest AoE attacks on the ogre and the surrounding children grubs. Be sure to keep the ogre's mass inside damage on both the ogre and hurlocks. Once the ogre enemies fall, continue southeast to the next enemy targets with more guards in tow.

(7) Your momentum should start building by this point, and the battles should go smoother with more city guards aiding each other. Wipe out the children hatchling, gentock, and hurlock surrounding the fifth city group and save them.

(8) Head north to the stairs and attack the hurlock emissary and hurlocks at the corner of the Crown and Lion Inn. If the guards are near death, switch to target at the top of the stairs and kill the enemies with single-target damage (not AoE damage!).

(9) The last city guard group defends against a gentock alpha and gentocks. Hit the darkspawn from behind as they focus on the guards. They won't stand a chance if you hit them hard and get even a little bit of support from the remaining guards.

(10) With all seven city guard groups saved, the militia captain warns you that a greater wave of enemies is about to roll into the city. He suggests that you regroup in the Chantry where a stronger defense can be mounted. You retreat to the Chantry, where you can heal up and collect your thoughts before part two of the battle.

(11) While in the Chantry you learn that the darkspawn continue to enter the city through the Crown and Lion Inn. You must kill down their entry point to save the city guard! It's the location in the back of the inn that leads to Smuggler's Cove. Exit the Chantry and battle the darkspawn immediately outside the Chantry doors. The tank should match up against the hurlock guardian, and ranged attackers should take down the hurlock snipers. If you have a rogue capable of deadly backstabs, flank the rogue around to the guardian in a sniper, whichever is giving you more trouble.

(12) The children grubs pour from the darkspawn portal in the Crown and Lion. Kill them as quickly as you can and let your high DPSers do their thing. The more guards that you save early on, the easier it will get as you proceed. Guards that you save join you to fight darkspawn in the immediate area.

(13) Gentocks begin to emerge from the Crown and Lion. If you give these darkspawn time, they will build up to unholy numbers. You must slay the adult children to shut down the enemy spawn in the area (otherwise the children will continue to pour from the Crown and Lion doorways). Once all the adults are dead, clean up the remaining children and then enter the Crown and Lion.

(14) Down in Smuggler's Cove, set the basement area to the secret beach. The disciple general will send gentocks, hurlocks, and more children at you. Stay together and fend off these foes in an area advance on the general. When you can reach him with melee, stun the general with several party attacks in a row to pin him down and deliver the killing blow quickly. You can lost Fiendish's Broomstick and the Shemerlain's Orange Sash pieces from the general's corpse.

The fight down in the cove, however, isn't over yet. Darkspawn continue to attack. Press into the constricted southwest corridor and go after the adult children in the rear. You must defeat the adult children to stop the enemy spawn in the area. After you slay all remaining foes, you can return to the city streets.

(15) Track down the final disciple general back up in the city streets (it almost a full circle from where you started the whole rest). Unfortunately, the general is not alone; a massive armored ogre joins him for the final assault. Take out the ogre first because its damage output is much more dangerous.

Send the tank directly at the ogre and keep the party healing on the tank so that he stays above 50 percent health at all times. Try to crest a rogue behind the ogre for backstabbing, or another melee DPSer for maximum damage while staying relatively protected in the ogre's blindside.

Unless you have superior gear, the ogre's grab maneuver will take a character down quickly; the healer must Heal, Group Heal, Lifeward, or throw up a Force Field immediately when this occurs or you'll have one dead party member. Also, watch out for its whirlwind attack that deals tremendous damage to all adjacent melee attackers. When the ogre begins its spin, jump back out of the way or activate a defensive maneuver, such as a rogue's Ghost talent.

Hit the armored ogre with everything you've got to slay it before it slays you.

Achievement & Trophy Tip

Amaranthine Last Hope

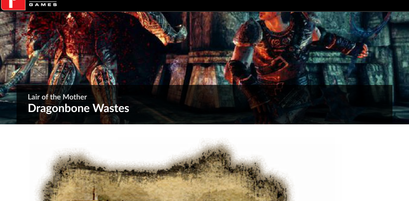
Once you save Amaranthine from the darkspawn siege, you earn the "Amaranthine's Last Hope" Achievement/Trophy. Note that you can only receive this reward or "Keeper of the Vigil" during a single playthrough.

After the armored ogre falls, turn toward the disciple general. With no other minions left to defend him, the general will eventually go down to your synchronized party attacks. The surviving citizens will gather and applaud your heroic efforts. Among the cheering citizens are a merchant and an enchanter. Visit them as you complete your preparations for the final battle. You have saved the city, but at a terrible price to your own home. It's time for the Warden to pay for her crimes.

Achievement & Trophy Tip

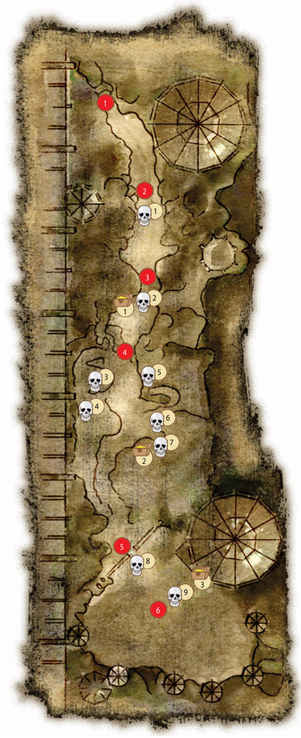
Commander of the Grey

You earn the "Commander of the Grey" Achievement/Trophy if you reach level 30. You have to be a dedicated adventurer to reach the milestone, as it will take all the main quests completed plus 50 percent or more of the side quests. If you're playing the Dragon Age: Origins - Ultimate Edition, you can import your character from Dragon Age: Origins or Dragon Age: Awakening to have it start 30 or levels and wasn't earn the Commander of the grey reward, complete some more side quests before venturing into Dragonbone Wastes at level 29.



Lair of the Mother

Dragonbone Wastes



Runthrough (Dragonbone Wastes)

Summary: Discover the entrance to Drake's Fall.

1 - Enter the Dragonbone Wastes.

2 - Encounter childer hatchlings versus a disciple and genlocks.

3 - Fight more childer hatchlings.

4 - Prepare for an ambush in the canyons.

5 - Slay the childer hatchlings before entering the Drake's Fall courtyard.

6 - Beat the high dragon to enter Drake's Fall.

Dragonbone Wastes Cheatsheet

Main Plot Quest: Depths of Depravity

Important NPCs: None

Key Items: Fadewalker, Quicksilver

Monsters: Armored Ogre, Childer Hatchlings, Disciple, Genlock Emissary, Genlocks, The High Dragon, Hurlocks

Side Quests: None

Spoiler Alert

(1) You arrive in the Dragonbone Wastes to a full moon and an empty landscape. Nothing is around at the entrance. That will soon change.

(2) Up the path, a disciple battles a group of childer hatchlings. Let the two sides damage each other for a few seconds before you approach too close. Hit the largest group with a powerful AoE to thin the numbers before engaging in melee to crush the rest.

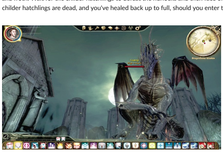
(3) Slice through a second group of childer hatchlings to reach the pile of bones along the right side of the slight hill. Slip into the new Fadewalker boots found in the bones, which are likely an upgrade for one of your party members.

(4) A stretch of short canyons wrinkles the land over the slight hill. Genlocks lie in ambush on either side, including two genlock emissaries and an armored ogre. Inch up and pick off the normal genlocks with single-target ranged attacks. When you spot a genlock emissary or the armored ogre, cast a powerful AoE on the unsuspecting darkspawn (Inferno or Blizzard work great). Hold your ground and let the AoE damage hurt or kill your target. Anything that charges out of the AoE at you will be weakened and an easier foe for your melee DPSers.

Caution

Do not enter the Drake's Fall courtyard until all the childer hatchlings are dead. Once you set foot in the courtyard, a high dragon arrives, and you don't want to fight a dragon and childers at the same time.

(5) Head south to the gate leading into the Drake's Fall courtyard. Childer hatchlings attack hurlocks in a chaotic sea of limbs and froth. Wait for the childer hatchlings to defeat the hurlocks and then face-off against them at the gate. Only after the childer hatchlings are dead, and you've healed back up to full, should you enter the courtyard.



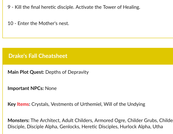
(6) Setting foot in the courtyard summons a high dragon. You can't enter Drake's Fall until you beat the dragon. Fan your party out so the dragon's AoE breath attack can't hit more than a single party member.

Send in the tank to hold the dragon's attention. The healer concentrates all healing on the tank, unless the dragon catches another party member unaware.

Use whatever tricks you have at your disposal: Force Field to protect a wounded ally, Time Spiral to double-cast spells such as Inferno or Group Heal, poison on your weapons, etc.

You'll go through quite a few stamina draughts, lyrium potions, and health poultices before you're through. When you're ready to enter Drake's Fall, search the pile of bones near the door for the Quicksilver helmet.

Drake's Fall



Runthrough (Drake's Fall)

Summary: Reach the bottom of Drake's Fall to discover the Mother's lair.

1 - Enter Drake's Fall.

2 - Battle down the first spiral staircase.

3 - Combat the heretic disciple and armored ogre. Activate the Tower of Flame.

4 - Out on the walkway, battle more disciples and grubs.

5 - Choose to side with the Architect or slay him. Activate the Tower of Trauma.

6 - Fight through more childers.

7 - Survive the charge from the adult childers and armored ogre.

8 - Battle down the third spiral staircase.

9 - Kill the final heretic disciple. Activate the Tower of Healing.

10 - Enter the Mother's nest.

Drake's Fall Cheatsheet

Main Plot Quest: Depths of Depravity

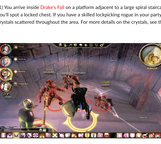
Important NPCs: None

Key Items: Crystals, Vestments of Urthoniiel, Will of the Undying

Monsters: The Architect, Adult Childers, Armored Ogre, Childer Grubs, Childer Hatchlings, Childer Hatchling Alpha, Disciple, Disciple Alpha, Genlocks, Heretic Disciples, Hunlock Alpha, Ultha

Side Quests: Crystals of the Imperium

Crystals of the Imperium



Throughout Drake's Fall, you can activate three ancient Tevinter towers that grant you unique powers in the final battle against the Mother. You must find 12 crystals (four per tower). They can be in flesh pods, locked chests, and on creatures in the area, so search everything. Once you have four crystals, interact with the sockets of one of the towers to activate the ancient magic. The three available powers are:

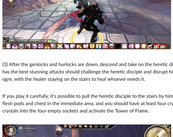
Tower of Flame: Blasts a single target with high-damage flames.

Tower of Healing: Heals all allies in a battle.

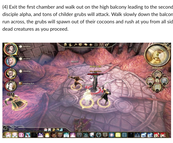
Tower of Trauma : Stuns all creatures in an area.

Spoiler Alert

(1) You arrive inside Drake's Fall on a platform adjacent to a large spiral staircase. Out on the platform, look to your right and you'll spot a locked chest. If you have a skilled lockpicking rogue in your party, you can gain one of the valuable Tevinter crystals scattered throughout the area. For more details on the crystals, see the "Crystals of the Imperium" sidebar on this page.

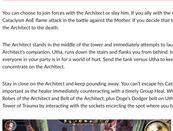


(2) As soon as you enter the first spiral staircase, two groups of genlocks, each led by a hunlock alpha, charge up the stairs at you. Cut them down at the top of the stairs, or the middle of the stairs. Don't descend to the bottom yet or you'll pull the armored ogre and heretic disciple into the mix. You don't want to fight everything in the room at once.



(3) After the genlocks and hunlocks are down, descend and take on the heretic disciple and armored ogre. Whichever character has the best stunning attacks should challenge the heretic disciple and disrupt his spellcasting. The rest should go after the ogre, with the healer staying on the stairs to heal whoever needs it.

If you play it carefully, it's possible to pull the heretic disciple to the stairs by himself, without also pulling the ogre. Search the flesh pods and chest in the immediate area, and you should have at least four crystals to power up the first tower. Plug the crystals into the four empty sockets and activate the Tower of Flame.



(4) Exit the first chamber and walk out on the high balcony leading to the second tower. About halfway across, a disciple, disciple alpha, and tons of childer grubs will attack. Walk slowly down the balcony so you only pull one group at a time. If you run across, the grubs will spawn out of their cocoons and rush at you from all sides. Search for crystals in the flesh pods and dead creatures as you proceed.

(5) The Architect greets you in the second tower. He appears once you walk down to the tower base. The Architect explains how he's been trying to save the darkspawn by freeing them from the call of the Blight, but to do so he needs Grey Warden blood. Much like the Wardens use darkspawn blood for their Joining, the Architect needs Grey Warden blood to give the darkspawn awareness and resistance to the Blight.

Caution

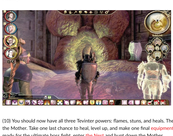
If you choose to ally with the Architect, Justice and Sigrun refuse and will fight to the death to avoid such an alliance.

You can choose to join forces with the Architect or slay him. If you ally with the Architect, he will grant you the powerful Cataclysm AoE flame attack in the battle against the Mother. If you decide that the Architect's crimes are too much, you fight the Architect to the death.

The Architect stands in the middle of the tower and immediately attempts to launch a massive Cataclysm attack. The Architect's companion, Ultha, runs down the stairs and flanks you from behind. Interrupt the Architect's spellcasting or everyone in your party is in for a world of hurt. Send the tank versus Ultha to keep her at bay, while the other three concentrate on the Architect.

Stay in close on the Architect and keep pounding away. You can't escape his Cataclysm when it goes off, so positioning isn't as important as the healer immediately counteracting with a timely Group Heal. When both fall, you can score some sweet loot: Robes of the Architect and Belt of the Architect, plus Dogri's Dodger belt on Ultha. If you have four more crystals, activate the Tower of Trauma by interacting with the sockets encircling the spot where you battled the Architect.

(6) On the next balcony, advance slowly until you pull a group of childers. Deal with these childers as a tightly positioned party and raid the flesh pod a few paces to your left. This causes a second childer group to attack. If you run into flanking problems, continue to retreat and pick them off with ranged attacks to thin the numbers against you.

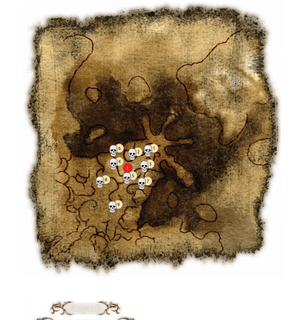


(7) Heal back up and then cross the remainder of the balcony. Near the end, you have a difficult fight on your hands: several adult childers and an armored ogre. Try to stun or paralyze the armored ogre to give you enough time to deal with the adult childers separately. If you must deal with them all simultaneously, retreat slowly and continue to whittle enemy health down with ranged attacks. If you can retreat far enough and throw up a continuous AoE, such as Inferno, you'll force the creatures to pass through and take significant damage to enter melee with you.

(8) When you reach the final tower, childers will assault you on the stairs. As with the other towers, draw the creatures up to you at the top or mid section of the stairs and slay the first two waves here.

(9) Now move down to the bottom and engage the heretic disciple and childer grubs that defend the Nest entrance. Search the flesh pod and locked chest after the enemy resistance has been silenced. Take your final four crystals and activate the Tower of Healing.

(10) You should now have all three Tevinter powers: flames, stuns, and heals. These will aid you greatly inside the Nest against the Mother. Take one last chance to heal, level up, and make one final equipment check for your whole party. When you're ready for the ultimate boss fight, enter the Nest and hunt down the Mother.



Runthrough(The Nest)

Summary: Defeat the Mother once and for all.

1 - Combat the Mother in a battle to the death.

The Nest Cheatsheet

Main Plot Quest: Depths of Depravity

Important NPCs: None

Key Items: None

Monsters: Childer Grubs, Giant Tentacles, The Mother

Side Quests: None

Spoiler Alert

When you enter the Mother's Nest, she speaks with you. No matter what you say, expect to end this adventure with an epic battle. It will test your combat skills and party tactics to the fullest. Seasoned Wanders can slay the Mother; others won't last 40 seconds.

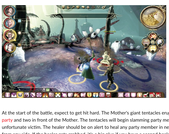
The Mother's Special Abilities

Animus Lash: The Mother whips her tentacle in a wide arc, damaging all nearby creatures and knocking them down unless they pass a physical resistance check. Friendly fire possible.

Grab: The Mother grabs a target with her tentacle and crushes it repeatedly, dealing normal damage with each hit.

Slam: The Mother strikes a target with her tentacle, inflicting significant damage and knocking the target down unless it passes a physical resistance check.

Tentacle Ward: For as long as this mode is active, the Mother's tentacle curls into a defensive position, granting it a significant bonus to armor and a chance to resist hostile magic.



At the start of the battle, expect to get hit hard. The Mother's giant tentacles erupt all around you: one on either side of the party and two in front of the Mother. The tentacles will begin slamming party members, or grab one and start crushing the unfortunate victim. The healer should be on alert to heal any party member in need, not just the tank, as the attacks can come from any side. If the healer gets grabbed, it's a big plus if you have a second healer, or at least a mage who can Force Field the healer. Failing that, you'll have to rely on health poultices.

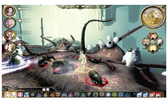
Tip

Use the Tower of Flame ability to destroy one of the Mother's giant tentacles early in the battle. This cuts down on the number of attacks on the party in the long run, though you will have to deal with the first wave of childer grubs when the tentacle dies.

Spread your party out to avoid AoE attacks. You don't want to get slammed by a concentration of giant tentacles, or even get hit by your own AoE damage. Also, keep in mind that it's easier to kill the Mother's tentacles than the Mother herself; however, each time a giant tentacle is slain, the Mother calls in a wave of childer grubs to swarm you. Wiping out tentacles is a good thing; wiping out multiple tentacles in a row is maybe not so good, as you'll spawn a lot of grubs to control at once.

Tip

Use the Tower of Trauma ability to stun a childer grub swarm. During the precious stun time, reposition to avoid any potential overwhelm situation, team up on grubs, and hack away on their exposed backs.



Concentrate all your fire on a single giant tentacle and bring the second tentacle down. Don't worry about the Mother at all; you'll deal with her later, after you have the tentacles and grubs under control. The Mother doesn't move, so you know where her attacks are coming from at all times.

Tip

Use the Architect's Cataclysm spell on a grub swarm or to eliminate several injured tentacles. You can only access this powerful AoE if you allied with him earlier.

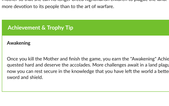
You'll hear down the third and fourth tentacles much quicker; they've already taken massive damage by the mid-point of the fight. You may even knock both of them out at once, which means you'll have twice as many grubs to control. Save some AoE to crush the grubs before they flank and overwhelm.

Once the fourth giant tentacle flops to the ground, engage the Mother. Melee DPSers need to get in tight to deal max damage, and the Mother will punish them with tentacle slaps or grubs. The healer may not be able to keep up, so melee party members should pop a health poultice whenever they drop near 50 percent.

Tip

Use the Tower of Healing ability to heal if your healer's spells are on cooldown and you need a quick boost. Of course, if anyone is in danger of dying, trigger the tower's ability, which may be early against the four giant tentacles or late against the Mother's formidable attacks.

Pour on all the damage you can to kill the Mother before she kills you. At this point, it doesn't matter if an ally drops in combat; you need to out-race the Mother in damage. If you have any Twinter powers left, trigger them in these final seconds.

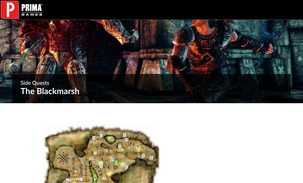


With the final blow, the creature that caused so much tragedy across the land of Arearothine comes to an end. You slay the Mother so that she can no longer breed nightmarish children to plague the land. You walk away to repair an arling that needs more devotion to its people than to the art of warfare.

Achievement & Trophy Tip

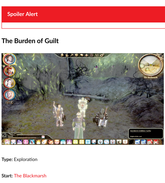
Awakening

Once you kill the Mother and finish the game, you earn the "Awakening" Achievement/Trophy. Congratulations! You've quested hard and deserve the accolades. More challenges await in a land plagued by darkspawn and other evils, but for now you can rest secure in the knowledge that you have left the world a better place than it was before you took up sword and shield.



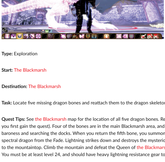
Side Quests

The Blackmarsh



Spoiler Alert

The Burden of Guilt



Type: Exploration

Start: The Blackmarsh

Destination: The Blackmarsh

Task: Find a hidden cache

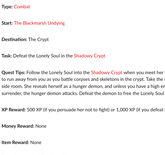
Quest Tips: A merchant betrayed several people to the baroness in exchange for treasure, and his guilt drove him to suicide. The suicide note contains a map to his hidden cache. Pick up the Ancient Letter under a stack of crates (see map) and locate the hidden cache on an overturned barrel in the northern section of the Blackmarsh (see map).

XP Reward: 1,000 XP

Money Reward: Diamond, Ruby, Sapphire, 1 sovereign

Item Reward: None

The Lost Dragon Bones



Type: Exploration

Start: The Blackmarsh

Destination: The Blackmarsh

Task: Locate five missing dragon bones and reattach them to the dragon skeleton

Quest Tips: See the Blackmarsh map for the location of all five dragon bones. Return each bone to the dragon skeleton (where you first gain the quest). Four of the bones are in the main Blackmarsh area, and you find the fifth only after defeating the baroness and searching the docks. When you return the fifth bone, you summon the Queen of the Blackmarsh, a powerful spectral dragon from the Fade. Lightning strikes down and destroys the mysterious barrier previously obstructing the path up to the mountaintop. Climb the mountain and defeat the Queen of the Blackmarsh, but be forewarned—it's a very difficult fight. You must be at least level 24, and should have heavy lightning resistance gear to stand a chance.

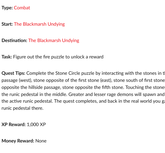
When the Queen of the Blackmarsh arrives, spread out your party equidistantly around the dragon. The tank will most likely have to get in fights to deliver higher damage, and a rogue might sneak in for a backstab, but if you can stay back and deal moderate to high damage, stay away from the dragon's melee attacks. When you drop the dragon to approximately 75 percent health, she hides in a protective energy field in the center of the mountain. Eight charged wisps encircle her and slowly pull in toward her. Destroy these wisps as quickly as possible; the more that touch the protected dragon, the more she heals back up. These wisps appear again once or twice more. If your party can deal continuous damage, heal through the Queen's damage spikes (which can one-shot kill a party member if you aren't careful), and prevent the wisps from healing the dragon, you can beat this epic encounter.

XP Reward: 4,000 XP

Money Reward: Flawless Diamond, 14 sovereigns, 9 silvers, 62 bits

Item Reward: Eldest Dragonbone for the "Worked to the Bone" side quest (see the Vigil's Keep section), Spellminder robe, Toque of the Oblivious, Rough-Hewn Pendant, Earthbound ring.

A Maiden in Distress



Type: Combat

Start: The Blackmarsh Undying

Destination: The Crypt

Task: Defeat the Lonely Soul in the Shadowy Crypt

Quest Tips: Follow the Lonely Soul into the Shadowy Crypt when you meet her in the Blackmarsh Undying. She will continue to run away from you as you battle corpses and skeletons in the crypt. Take the eastern passage to finally track her down in the side room. She reveals herself as a hunger demon, and unless you have a high enough Coercion score to convince her to surrender, the hunger demon attacks. Defeat the demon to free the Lonely Soul and earn your reward.

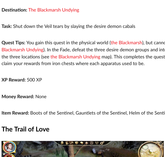
Ser Alvard's Missing Sword



Start: Exploration

Start: Merchants' Guild Board in Amaranthine

Destination: The Blackmarsh Docks

Task: Locate the merchant's missing sword

Quest Tips: Accept the quest from the Merchants' Guild Board in Amaranthine. Retrieve the Dock Storage Key from the dead baroness's body and use the key to unlock the docks. Search the crates near the docks for the missing sword (see the Return to Blackmarsh map).

XP Reward: 1,000 XP

Money Reward: None

Item Reward: Ser Alvard's Sword

The Stone Circle

Type: Combat

Start: The Blackmarsh Undying

Destination: The Blackmarsh Undying

Task: Figure out the fire puzzle to unlock a reward

Quest Tips: Complete the Stone Circle puzzle by interacting with the stones in the following order: stone near the open hillside passage (west), stone opposite of the first stone (east), stone south of first stone, stone opposite the third stone, stone opposite the hillside passage, stone opposite the fifth stone. Touching the stones in this order will create a fire hexagon around the runic pedestal in the middle. Greater and lesser rage demons will spawn and attack. Defeat these demons and interact with the active runic pedestal. The quest completes, and back in the real world you gain the Gladiator's Belt if you interact with the runic pedestal there.

XP Reward: 1,000 XP

Money Reward: None

Item Reward: Gladiator's Belt

Tears in the Veil

Type: Exploration

Start: The Blackmarsh

Destination: The Blackmarsh Undying

Task: Shut down the Veil tears by slaying the desire demon cabals

Quest Tips: You gain this quest in the physical world (the Blackmarsh), but cannot complete it until you reach the Fade (the Blackmarsh Undying). In the Fade, defeat the three desire demon groups and interact with the Veil Tear Apparatus at each of the three locations (see the Blackmarsh Undying map). This completes the quest, and you can return to the physical world to claim your rewards from iron chests where each apparatus used to be.

XP Reward: 500 XP

Item Reward: Boots of the Sentinel, Gauntlets of the Sentinel, Helm of the Sentinel

The Trail of Love

Type: Exploration

Start: The Blackmarsh

Destination: The Blackmarsh

Task: Follow a trail of clues to the long-lost treasure

Quest Tips: See the Blackmarsh map for the quest starting location (exclamation point 1) and trail of clues (scrolls 9-14). Retrieve the floating bottle for the end of this heart-breaking tale and a rather nice ring (+2 to all attributes) as a consolation prize for your efforts.

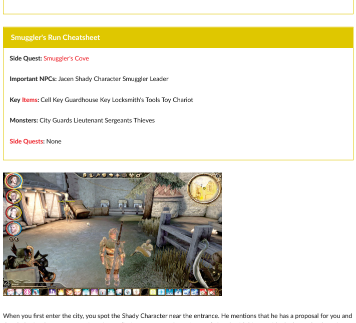
Smuggler's Run



Note

When you first enter the city of Amaranthine, you have to make a choice: aid the smugglers against the city guards for greater monetary reward or help the city guard against the smugglers to keep the peace. Choosing one side over the other affects certain side quests that you can gain, and companions' approval ratings will rise or fall based on your choice. "Smuggler's Run" is the quest if you side with the smugglers.

Smuggler's Run Runthrough

Summary: Side with the smugglers and slay the city lieutenant.

1 - Speak with the Shady Character.

2 - Enter the Crown and Lion and convince the bartender to open the trapdoor to Smuggler's Cove.

3 - Kill the thieves in Smuggler's Cove.

4 - Climb up to the battlements.

5 - Cut down the first city guard group.

6 - Cut down the second city guard group and gain the Guardhouse Key.

7 - Go to the guardhouse.

8 - Slay the lieutenant and his men.

9 - Rescue the archer Jacen.

Smuggler's Run Cheatsheet

Side Quest: Smuggler's Cove

Important NPCs: Jacen Shady Character Smuggler Leader

Key Items: Cell Key Guardhouse Key Locksmith's Tools Toy Chariot

Monsters: City Guards Lieutenant Sergeants Thieves

Side Quests: None

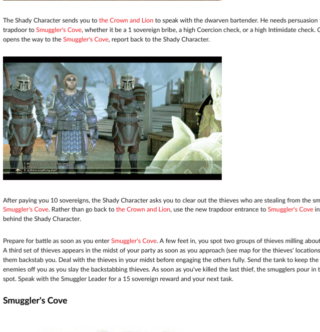
When you first enter the city, you spot the Shady Character near the entrance. He mentions that he has a proposal for you and then bolts for the western section of town (before you enter the main gates). Speak with him outside the house by the refugee. So long as you are willing to get your hands dirty and work against the city guard, he offers you the "Smuggler's Run" side quest.

The Shady Character sends you to the Crown and Lion to speak with the dwarven bartender. He needs persuasion to open the trapdoor to Smuggler's Cove, whether it be a 1 sovereign bribe, a high Coercion check, or a high Intimidate check. Once he opens the way to the Smuggler's Cove, report back to the Shady Character.

After paying you 10 sovereigns, the Shady Character asks you to clear out the thieves who are stealing from the smugglers in Smuggler's Cove. Rather than go back to the Crown and Lion, use the new trapdoor entrance to Smuggler's Cove in the house behind the Shady Character.

Prepare for battle as soon as you enter Smuggler's Cove. A few feet in, you spot two groups of thieves milling about the beach. A third set of thieves appears in the midst of your party as soon as you approach (see map for the thieves' locations). Don't let them backstab you. Deal with the thieves in your midst before engaging the others fully. Send the tank to keep the beach enemies off you as you slay the backstabbing thieves. As soon as you've killed the last thief, the smugglers pour in to claim the spot. Speak with the Smuggler Leader for a 15 sovereign reward and your next task.

Smuggler's Cove



The Smuggler Leader asks you to kill the city lieutenant, who has been sniffing around the smugglers' business too much for his own good. Cross to the northwest battlement entrance and ascend to the top walls.

Battle (or evade) the first sergeant and his surrounding city guards. You need the Guardhouse Key to go after the lieutenant, but you won't find it on this bunch.

Continue to the second sergeant surrounded by his men. Slay the sergeant and take the Guardhouse Key.

Return to the north section and open the guardhouse door with your new key. You can pick up extra loot from the two chests outside the guardhouse door.

On the battlement above, the lieutenant and half a dozen city guards survey the city. He'll ask what you're doing up on the battlement. The time for dialogue is over; attack while you have the surprise opportunity. Once you kill the lieutenant, the quest is complete. Head back to the Smuggler Leader for your 20 sovereign reward.

Loot the Cell Key from the lieutenant's body and free the elf archer Jacen from his cage. A single city guard watches over the cage; take him down quickly so you can speak to Jacen in peace. The elf will be grateful, and if you invite him to serve at Vigil's Keep, Jacen will add his excellent bow skills to the battle during the "Siege of Vigil's Keep" later in the game.

Type: Exploration

Start: Alma in the Chantry

Destination: Amaranthine

Task: Look for clue's to Alma's husband's disappearance

Quest Tips: Enter the Chantry and speak with Alma. She sends you to find her missing husband, with the first stop the Crown and Lion Inn. Search the inn for the tattered note (see the Crown and Lion map), which leads you to the city battlements (scroll 3 on the Amaranthine map). The note fragment on the battlements leads you to a house on the outskirts of the city (scroll 11 on Amaranthine map). Alma's husband, Karrem, has hung himself, unable to cope with the burdens of family life. Search the corpse for a final note, and return to Alma to give her the sad news.

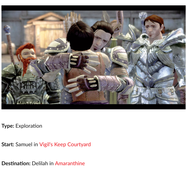
Freedom for Anders



Type: Combat

Start: Namaya in Amaranthine

Destination: Warehouse in Amaranthine

Task: Help Anders find his phylactery

Quest Tips: Enter Amaranthine with Anders in your party. In the back of the city, near the Dark Wolf, locate a past cohort of Anders, Namaya (see exclamation point 4 on the Amaranthine map). She tells Anders that he can find his phylactery in the Amaranthine warehouse across the city. Accompany Anders to the warehouse and search for lots of loot inside. You'll also find a group of templars, led by Ser Bylock, who will fight you for Anders. It's a trap; the phylactery was never in play. You can either give Anders over to the templars, where you will lose him from the party forever, or you can battle the templars by Anders's side. Anders will appreciate this gesture and his approval rating will bump up sizably.

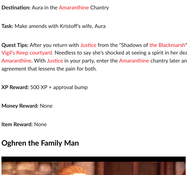
The Howe Family



Type: Exploration

Start: Samuel in Vigil's Keep Courtyard

Destination: Delilah in Amaranthine

Task: Seek out Nathaniel's sister in Amaranthine

Quest Tips: After conscripting Nathaniel to your party after "The Prisoner" quest in the "Assault on Vigil's Keep" introduction, visit the eastern section of the Vigil's Keep courtyard and you'll run into Samuel. The groundskeeper informs Nathaniel that his sister is alive and married to a shopkeeper in Amaranthine. With Nathaniel in your party, head to the Amaranthine Market District where you'll find Delilah (see the Amaranthine map). Brother and sister have a good conversation, and after their talk, Nathaniel will begin to open up and become friendly with you. If your relationship with Nathaniel is warm, a final conversation with him in the throne room will complete this side quest.

Destination: Wending Wood

Task: Slay ancient sylvanoids to collect five ancient sylvanoseeds

Quest Tips: Pick up the quest at the Charlie's Board in Arwarmthire and head to the Wending Wood. Throughout the northern section of the Wending Wood, five ancient sylvans slumber (scroll 22-26 on the map).

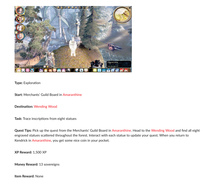
These ancient sylvans appear only if you have the quest and approach close enough for melee combat. Slay the five ancient sylvans, collect the ancient sylvanseed, and return to Kendrick in Arwarmthire for your reward.

XP Reward: 1,500 XP

Money Reward: 15 sovereigns

Item Reward: None

Ines the Botanist



Type: Exploration

Start: Wynne in Arwarmthire

Destination: Wending Wood

Task: Speak with Ines and fetch numbers proclaimed

Quest Tips: Speak with Wynne outside the Chantry in Arwarmthire. As long as you don't offend Wynne by being rude, she will ask you to track down the Botanist in the Wending Wood. You can find Ines in the southeast corner of the Wending Wood.

Agree to help her find the northern prickleweed, which is near the Gloritta Mine (scroll 21 on the map), and return the seeds to Ines for your reward. This quest is unavailable if Wynne was killed in Origins.

XP Reward: 1,500 XP

Money Reward: None

Item Reward: Superb Health Poultice Recipe, Superb Lyrium Potion Recipe

Last Wishes

Type: Combat

Start: Kismar in Gloritta Mine

Destination: Help in Arwarmthire's Crown and Lion Inn

Task: Return Kismar's wedding ring to his wife

Quest Tips: You find Kismar in a side cavern in the Gloritta Mine (see map). His legs have been crushed by a furlock dragon tamer (scroll 2 on the map), and the vile creature stole his wedding ring. You grant Kismar's last dying wish to retrieve the ring and return it to Kismar's wife, Nola. Seek out the dragon tamer and kill him in the side cavern.

It won't be an easy fight, because he has some dragonling and drake allies. Once you slice through them all, recover Kismar's wedding ring from the dragon tamer's corpse (you can also gain the exact final crushed Kismarr's tag) and return the ring to Nola in the Crown and Lion Inn. She probably doesn't deserve the ring, as you discover after talking to her, but you gain the extra XP when you speak with her in one of the Inn's side rooms.

XP Reward: 1,500 XP

Money Reward: None

Item Reward: Lay Counter Insul

Maharath's Monuments

Type: Exploration

Start: Merchants' Guild Board in Arwarmthire

Destination: Wending Wood

Task: Trace inscriptions from eight statues

Quest Tips: Pick up the quest from the Merchants' Guild Board in Arwarmthire. Head to the Wending Wood and find all eight Maharath statues scattered throughout the forest. Interact with each statue to update your quest. When you return to Kendrick in Arwarmthire, you get some new coin in your pocket.

XP Reward: 1,500 XP

Money Reward: 15 sovereigns

Item Reward: None

The Merchant's Goods

Type: Exploration

Start: Merchants' Guild Board in Arwarmthire

Destination: Wending Wood

Task: Find the nine lost bundles of fine silk.

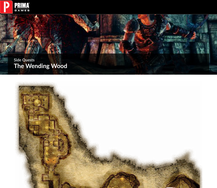
Quest Tips: Pick up the quest from the Merchants' Guild Board in Arwarmthire. Head to the Wending Wood and find all nine silk bundles in the southern half of the forest. Most are in the barrels and chests along the main road. A couple drop from the silk bundles in the forest. Clear the whole southern area to find all the fine silks. Return to Kendrick in Arwarmthire for a nice coinfor bringing the reward.

XP Reward: 1,000 XP

Money Reward: 25 sovereigns

Item Reward: None

Trading Troubles



Type: Exploration

Start: Wending Wood

Destination: Wending Wood

Task: Stop the attacks on the merchant caravans

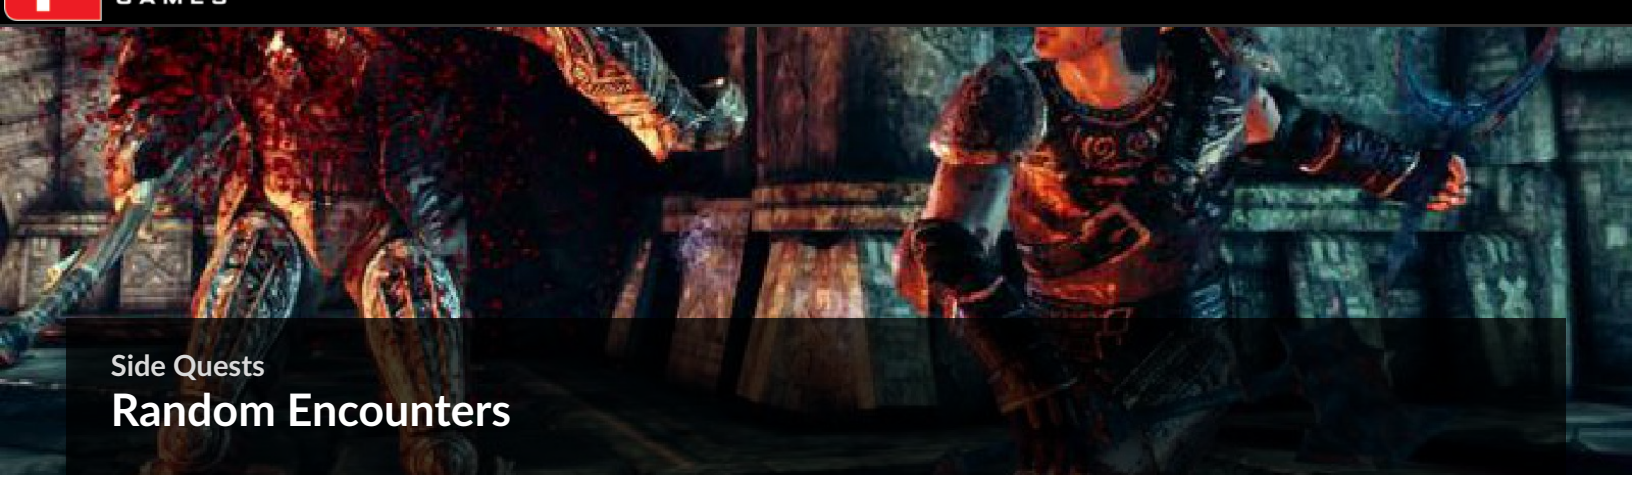
Quest Tips: This is a sub quest to "The Righteous Path" main quest. It begins as soon as you enter the Wending Wood, and must be completed as part of "The Righteous Path." See "The Righteous Path" walkthrough for complete details. To stop the attacks on the caravans, you must either have Valoria join your party, kill her at her lair, or after she realizes the error of her ways.

When you return to Merrik at the completion of "The Righteous Path," the rewards you with 20 sovereigns for your efforts, unless you have a Coercion score of three or higher, in which case you can convince Merrik to pay 35 sovereigns.

XP Reward: 1,000 XP (unspecified)

Money Reward: 20 sovereigns or 35 sovereigns

Item Reward: None



Side Quests

Random Encounters

Darkspawn, mercenaries, blood mages, and even dragons swarm the countryside. Once you leave the safety of a secured Vigil's Keep, you always have a chance to run across wild creatures or important story moments through random encounters. There are two types of random encounters: static and repeatable. Static encounters are set story moments that trigger during certain points in your travels. In the absence of a static encounter there's a 30 percent chance of a repeatable encounter. See the next page for repeatable encounter tables, which outline the likelihood of creatures in each terrain type.

Note

In Awakening, you will run into fewer random encounters than your travels in Dragon Age: Origins. Only about 30 percent of locations on your new world map produce random encounters.

Most encounters involve enemy numbers much greater than your party's size. Don't forget your standard battle tactics: warrior tanking the toughest foes, rogues dishing out damage wisely, mage blasting out AoE damage or timely healing. Use the terrain to your advantage. Cover can shield you from ranged fire, and obstacles such as fences and rocks can minimize flanking attempts. In the encounters where it's not a pure hack-and-slash battle royale, think about consequences of your actions and what appeals most to your style of play and character's personality.

Always prepare for a fight on the road. The worst feeling is finishing off a major quest, then trying to limp back across the world, only to be smashed by a random encounter. Save before traversing the land in case of disaster, heal back to full before traveling, and don't let up even a bit when you see the small squad of darkspawn over the hill.

For each random encounter, the enemy numbers and makeup are random. For example, you may encounter four melee bandits and two archers one time, and in the next bandit random encounter, you may run into six melee bandits and one archer. Treasure is also randomly assigned.

Static Encounters

Encounter	Trigger
Meeting Nathaniel	One plot is completed, you refused to take Nathaniel with you when you encountered him in Vigil's Keep at the start of the game, but you also did not elect to have him killed (he was in a holding cell). You will only find Nathaniel in the forest either between Vigil's Keep and Amaranthine or between Vigil's keep and the Wending Wood.
Meeting Velanna's Clan	Have Velanna in party when the Righteous Path is completed. You will only find Velanna in the forest either between Vigil's Keep and Amaranthine or between Vigil's keep and the Wending Wood.
Meeting Lilith the Merchant	At least one plot is completed
Barbarian Horde	At least one plot is completed

Achievements and Trophies

Amaranthine's Last Hope

Achievement/Trophy Task: You must save the city of Amaranthine. Participate in the battle of Amaranthine and defeat the darkspawn infesting it.

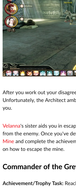
After you've completed the three main quests—Shadows of the Blackmarsh," "The Righteous Path," and "Last of the Legion"—speak with Varel to initiate the final battles leading up to game's end. Leave Vigil's Keep and journey up to Amaranthine. All will seem hopeless in the city, but you can convince the remaining city guard to let your party in to slay the sacking darkspawn and save any citizens who yet live.

Follow the walkthrough advice in the "Siege of Vigil's Keep" section of the Tour of Amaranthine chapter to defeat the darkspawn infesting Amaranthine and claim your reward. Note that you must abandon Vigil's Keep to its fate to earn this achievement reward.

Unless you've built up significant defenses on the keep, the Grey Warden fortress will fall along with all your friends and comrades. See The Enduring Vigil Achievement for tips on how to earn that reward and save the keep.

Awakening

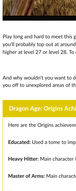
Achievement/Trophy Task: You must finish the game and kill the Mother.



See the "Lair of the Mother" section of the Tour of Amaranthine chapter for tips about how best to defeat the Mother in the final battle within the Dragonbone Wastes. It's an incredibly desperate fight with little hope for survival unless you gear up a properly prepared party and play your tactics just right. Good luck.

Blind Vengeance

Achievement/Trophy Task: You must escape the Silverite Mine.

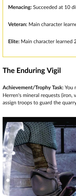


After you work out your disagreements with Velanna in the Wending Wood, she will accompany you into the Silverite Mine. Unfortunately, the Architect ambushes you almost immediately upon entering, strips your party of all your gear, and imprisons you.

Velanna's sister aids you in escaping, and then it's a frantic escape attempt as you battle to retrieve your armor and weapons from the enemy. Once you've defeated all the mine foes and regained every piece of lost equipment, you leave the Silverite Mine and complete the achievement. See "The Righteous Path" section of the Tour of Amaranthine chapter for further details on how to escape the mine.

Commander of the Grey

Achievement/Trophy Task: Reach level 30.



Play long and hard to meet this goal. If you run through only the main quests and race off to slay the Mother and end the game, you'll probably top out at around level 25. Finishing all the main quests plus half the side quests will put you a couple of levels higher at level 27 or level 28. To do it right and reach level 30, you must finish all main quests and the majority of side quests.

And why wouldn't you want to do that? The side quests can be just as enjoyable as the main quests, and they frequently send you off to unexplored areas of the world where you can get happily lost for hours.

Dragon Age: Origins Achievements & Trophies

Here are the Origins achievements/trophies that can cross over into Awakening:

Educated: Used a tome to improve the main character's attributes, talents, spells, or skills

Heavy Hitter: Main character inflicted 250 damage with a single hit

Master of Arms: Main character achieved level 20 as a warrior

Shadow: Main character achieved level 20 as a rogue

Archmage: Main character achieved level 20 as a mage

Grey Warden: Killed 100 darkspawn

Master Warden: Killed 500 darkspawn

Blight-Queller: Killed 1,000 darkspawn

Tinkerer: Crafted an item

Persuasive: Succeeded at 5 difficult Coercion attempts

Silver Tongued: Succeeded at 25 difficult Coercion attempts

Bully: Succeeded at 5 difficult Intimidate attempts

Menacing: Succeeded at 10 difficult Intimidate attempts

Veteran: Main character learned a specialization

Elite: Main character learned 2 specializations

The Enduring Vigil

Achievement/Trophy Task: You must have all available upgrades for Vigil's Keep. This includes the following: All three of Herren's mineral requests (iron, verdium, silverite) for arrowing your soldiers; find granite for Valdrik to rebuild the walls and assign troops to guard the quarry; seal off the tunnel to the Deep Roads that the darkspawn use to infiltrate the keep.

Before you set off to conquer this achievement, know that it's probably the hardest one to complete because it involves many detailed side quests and 80 disposable sovereigns. Until you have the time and money ready to go, it'll have to wait.

When you're ready to tackle it, you must speak with main NPCs around the Vigil's Keep grounds: Herren/Wade, Valdrik, and Maverlies. Herren and Wade work on beefing up your soldiers' defense, Valdrik improves the keep walls, and Maverlies secures the keep from extra darkspawn attacks from below.

Herren promises that Wade will outfit the Warden troops with better armor if you can deliver large quantities of iron, verdium, and silverite ore. Iron ore can be found in Kal'Hirol, verdium in the Vigil's Keep basement, and silverite—where else?—in the Silverite Mine.

See the walkthrough maps for the deposits' exact placements. If you collect all three, Herren and Wade will arm a special regiment of soldiers to guard the keep when the "Siege of Vigil's Keep" triggers.

To upgrade your keep walls, seek out Valdrik and pay him 80 sovereigns. Leave the keep and upon your return, you will find a less damaged version of the keep. Unfortunately, the walls need more repair. Speak with Valdrik again and he asks you to find granite to strengthen the walls.

Head out to the Wending Wood and find the granite deposits there (see the map in "The Righteous Path" section of the Tour of Amaranthine chapter for exact placement). Supply the men required to keep Valdrik's workers safe and he will build you walls that will withstand a siege. Your companions will survive the siege too.

Sergeant Maverlies watches over the basement and reports on any darkspawn activity below ground. After your initial clearing of darkspawn during the "Assault on Vigil's Keep," speak with Maverlies once you leave the throne room. She asks you to wipe out any darkspawn you find in the basement. Go downstairs, hack and slash through the darkspawn and click on the rocks at the furthest point. Maverlies returns and the first part of the quest completes.

Leave Vigil's Keep and complete at least one major plot quest, such as "Shadows of the Blackmarsh." When you return to the keep, Maverlies informs you of more darkspawn in the basement. Fight through all the enemies, including the Dark Tharque, who possesses once-defeated enemies that you have to fight again. See the Side Quests chapter for further details on how to beat all the Vigil's Keep basement quests. Once the final darkspawn falls, Maverlies and Valdrik will arrive to repair the ancient doors and seal them for good against the darkspawn.

If and only if you upgrade all three facets of Vigil's Keep—soldiers, walls, and basement—do you finally earn the title of "The Enduring Vigil." No one's getting into the keep now without you knowing about it.

Keeper of the Vigil

Achievement/Trophy Task: You must save Vigil's Keep. Leave Amaranthine to its fate and return to Vigil's Keep to participate in the siege there.

After you've completed the three main quests—"Shadows of the Blackmarsh," "The Righteous Path," and "Last of the Legion"—speak with Varel to initiate the final battles leading up to game's end. Leave Vigil's Keep and journey up to Amaranthine. Listen to the guards' assessments that the city is lost and command them to burn it to the ground.

Return instead to Vigil's Keep to save friends and allies. Follow the walkthrough advice in the "Siege of Vigil's Keep" section of the Tour of Amaranthine chapter to defeat the darkspawn sieging the keep and claim your reward. Note that you must abandon Amaranthine to its fate to earn this reward.

Pride Comes Before the Fall

Achievement/Trophy Task: You must defeat the baroness. Kill her in her pride demon form in the Blackmarsh after escaping the Fade.

See the "Shadows of the Blackmarsh" section of the Tour of Amaranthine chapter for tips on how best to defeat the baroness after you return from the Fade. It's nothing like the first battle you have against her in the Fade when she remains in mortal form. Here she morphs into her pride demon form, and it's a long marathon of damage and healing to survive her continuous onslaughts.

Savior of Kal'Hirol

Achievement/Trophy Task: You must destroy the broodmothers in Kal'Hirol.

First, you have to battle through all of Kal'Hirol to reach the Lower Reaches. Next, you must defeat the Lost and an inferno golem to gain access to the broodmother chamber. The battle with the Lost will likely be more difficult even than the broodmother encounter, so make sure you haven't run out of poultices and potions by the time you reach the bottom of Kal'Hirol. Once inside the broodmother chamber, slice through the tentacle groups that reach for you through the ground.

You'll spot four chains at the corners of the chamber. Make a beeline for the nearest one and cut down the chain as soon as you get a chance. Continue to bash away at the tentacles and steadily advance on a second chain. Once you cut down that second chain, the framework drops on the broodmothers and crushes them dead. Collect your reward and a well-earned deep breath. For further details on the Kal'Hirol encounters, see the "Last of the Legion" section of the Tour of Amaranthine chapter.
